

Celebrating 50 years of public service

NCCCMA Event Mobile App

NCCCMA has an app! There will not be any printed handout material in the packets, but there is an app available that will provide you with what you need for the conference material, the NCCCMA Event app!

Smartphone and tablet users can download the NCCCMA Event mobile app from the App Store (iPhone and iPad) or the Google Play Store (Android) by searching "NCCCMA Event." A web-based version of the app can be viewed by visiting <http://www.ncccmaevent.org>. The app contains the full schedule, speaker information, vendor information, hotel floor map and more!

Under the Schedule tab, you will see the full scheduled agenda. You can customize the schedule on the "My Schedule" tab with the sessions that you would like to attend. To add a session to "My Schedule," swipe your finger over the event listing in the Full Schedule. When a green screen appears, select a 15-, 30, or 60 minute alert (or no alert). This will add the session to your personalized schedule.

Under the Material tab, you will have access to the list of material. If you downloaded the app earlier in January, you will need to update the app to see this tab.

There will be a printed one-page summary agenda at the conference for your reference. All other material will be available on the NCCCMA Event app and also posted online at <http://www.ncmanagers.org>.
