

# Town of Cary

## Capital Budgeting

1

TOWN of CARY

---

---

---

---

---

---

---

---

# What We'll Talk About Today

1. You, Me and the Town of Cary
2. We're Budget People – There Has to be a Process!
3. Keeping it Real – Building an Attainable CIB/P
4. If You Budget It, They Will Manage It (and having the right tools certainly helps!)
5. Questions?

2

TOWN of CARY

---

---

---

---

---

---

---

---

# Where Are You From?

- Authority
- School System
- Municipality
- County
- Other

3

TOWN of CARY

---

---

---

---

---

---

---

---

**How Long Have You Been Capital Budgeting?**

- Less than 1 year
- 2-3 years
- 4-8 years
- 9-15 years
- More than 15 years

4 TOWN of CARY

---

---

---

---

---

---

---

**What is Your CIP Timeframe?**

1. Don't have a CIP, just budget for upcoming year
2. 3 years
3. 5 years
4. 10 years
5. Longer than 10 years

**Which timeframe do you think is best?**

## What Comes to My Mind?

17

TOWN of CARY

---

---

---

---

---

---

---

---

## What Comes to My Mind?

Cary is beginning the transition from a community in rapid development to one moving toward build-out.

Capital planning must emphasize infrastructure maintenance.

TOWN of CARY

---

---

---

---

---

---

---

---

## The Town of Cary's Capital Budgeting Process

The Town of Cary annually prepares an eleven year Capital Improvements Budget/Plan (CIB/P).

The FY 2016 budget process will mark Cary's 15<sup>th</sup> year of utilizing an eleven year CIB/P.

- The first year (budget year) is formally adopted by Town Council in June along with the Annual Operating Budget
- The ten "out" years of the plan are true planning years and are not formally adopted

19

TOWN OF CARY

---

---

---

---

---

---

---

---

## The Town of Cary's Capital Budgeting Process

- Plan for the future, implement the present
- Appropriate for upcoming year only
  - » Constant evaluation of priorities vs. funding
  - » Adaptation of plan for new opportunities
- Plan for the next ten years
  - » Allows for short and long term financial planning
  - » Communication tool with public and Council
  - » Reduces number of surprise projects
  - » Allows course to be changed if necessary

TOWN OF CARY

---

---

---

---

---

---

---

---

## The Town of Cary's 2015 CIB

### CAPITAL IMPROVEMENTS BUDGET (CIB)

#### UTILITY CIB

Water	\$10,661,000
Sewer	\$15,014,700
Subtotal	\$25,675,700

#### GENERAL CIB

Transportation	\$12,558,000
Fire	\$2,200,000
Parks, Recreation and Cultural Resources	\$5,874,500
General Government	\$4,333,616
Debt Service	\$850,000
Subtotal	\$25,816,116

TOTAL CAPITAL IMPROVEMENTS BUDGET \$51,491,816

TOWN OF CARY

---

---

---

---

---

---

---

---

## The Basics

### Defining “Capital Project”

An asset with a value exceeding \$25,000 and a useful life of greater than three years.

### Categorizing a Capital Project

#### General

- Transportation
- Fire
- Parks Recreation and Cultural Resources (PRCR)
- General Government
- Downtown

#### Utility

- Water
- Sewer

22

TOWN of CARY

---

---

---

---

---

---

---

### General Capital Reserve

- Transportation
- Fire
- Parks, Recreation & Cultural Resources
- General Government
- Downtown

23

TOWN of CARY

---

---

---

---

---

---

---

### Utility Capital Reserve

- Water
- Sewer

24

TOWN of CARY

---

---

---

---

---

---

---

### Funding Sources

- Cash from Annual Operating Funds
- Cash from Operating Fund Balances
- State Funding (Powell Bill for Streets)
- Development Fees
- Payments-in-Lieu
- Vehicle License Fees
- Grants
- Debt (General Obligation Bonds, etc.)

TOWN OF CARY

---

---

---

---

---

---

---

### Laying the Foundation

- The Budget Office develops funding targets that provide a realistic revenue picture for the next five years.

**Projections should:**

- be calculated for each revenue type.
- include operating fund transfer capacity (general and utility) for each year.
- include available debt if this is an option.
- be denoted as either a dedicated or non-dedicated funding sources.

26 TOWN OF CARY

---

---

---

---

---

---

---

- **Funding Targets are developed in accordance with the Town's funding principles:**

- Utilize as little debt as possible to minimize additional debt service obligations
- Maximize the use of existing capital reserve fund balances
- Minimize reliance on FY 2015 capital revenues
- Limit transfers from the operating funds

27 TOWN OF CARY

---

---

---

---

---

---

---

## Turning Estimates Into Funding Targets

General Capital  
As of 10.13.2018

NOT PLANNED FOR FUNDING

35TOWN OF CARY

---

---

---

---

---

---

---

---

### Details, Details, Details!

- Each individual project request should:

- provide specific details regarding the project, what is driving the need for it, and what would happen if the project did not occur.
- incorporate inflationary cost increases within the plan years.
- specifically detail staffing, operating and maintenance budget impacts.
- indicate any cost savings that may be experienced once project is implemented.

## Cary's Capital Budgeting Process – Development Tools

Capital project and CIB/P development is accomplished by utilizing a combination of an Access database, Excel spreadsheets and Word documents.

**Capital Request Database – Critical to collect written requests with all of the information needed clearly identified**

- An in-house developed Access database is used to build the CIB/P.
- Project Managers create capital budget and plan project requests.
- Project Managers indicate whether each project request is meant to be considered for the final CIB/P or if the request serves more as an acknowledgement of future need (**Programmed/Planned vs Not**)
- The Budget Office updates the database as funding decisions are made in order to produce what becomes the Manager's Recommended CIB/P

---

---

---

## Project Management Tools

Once a project is approved (either through the annual budgeting process or as a mid-year appropriation), project managers provide periodic updates on their projects via the Capital Status Database.

### Capital Status Database

- An in-house developed Access database is used to provide status updates on the Town's 426 active (general and utility) capital projects.
- Bi-Monthly meetings are held by the Budget Office on those projects identified as "Key" (67 of the 426)
- Information/reporting in this database serves as primary, centralized reference point for Town Manager, Budget Office, Public Information Office and departmental staff regarding project activity

### Keys to Success (the things we've learned along the way!)

- Clear and firm schedule communicated early
- Foster communication among groups
- Ensure staff and project managers understand the funding environment
- Funding targets
  - » Understanding implications of what can't be done within target
  - » Understanding what may be necessary to secure more funding
  - » Establishing criteria for what must be done and when
- Operating costs are critical to the equation
