 - Predictability and notice

4

Now I get it!

Hearsay is an out-of-court statement offered to prove the truth of the matter asserted.

5

For the Truth

Out-of-court statement
+ Offered to prove the truth of what was said

The value of the evidence depends on the credibility of the out-of-court declarant.

To test the declarant's credibility,

- i. the declarant must be subject to cross-examination, or
- ii. the statement must satisfy a hearsay exception.

6

"The father's drug counselor told dad that as part of his case plan, he must submit to screens."

Social Worker

7

Not for the Truth

Out-of-court statement
+ Offered for reasons other than the truth

The value of the evidence usually depends on the credibility of the in-court witness.

An in-court witness' credibility is tested by being subject to cross-examination.

8

"The father's drug counselor told dad that as part of his case plan, he must submit to screens."

Social Worker

9

Hearsay Exceptions

Category 1:
Declarant Availability Irrelevant

Category 2:
Declarant Must Be Unavailable

10

Hearsay Exceptions

Category 1: Declarant Availability Irrelevant

Remember the values behind the Rules. These statements are admissible because they carry inference of **reliability** or **sincerity**.

Common exceptions in child welfare cases

- Business and public records
- Medical diagnosis or treatment
- Excited utterance
- Residual hearsay

11

Business and Public Records

Is it a
business?

Business

Association

Profession

Occupation

(And calling of every kind.

Whether or not conducted for profit

N.C. Gen. Stat. § 8C-1, R. 803(a)

12

Business and Public Records

Is it a business record?

- A memorandum, report, record or data compilation
- In any form
- Of acts, events, conditions, opinions or diagnoses
- Made at or near the time
- By or from information transmitted by
- A person with knowledge

N.C. Gen. Stat. § 87C-1, R. 603(a)

13

Business and Public Records

Advanced Notice Required!

Exception applies to records that satisfy the requirements concerning both

1. the method and circumstances of preparation, and
2. the contents of the records.

14

Rule 602

"A witness may not testify to a matter unless evidence is introduced sufficient to support a finding that he has personal knowledge of the matter."

15

Reconceptualizing Business and Public Records

The record must be competent to testify.
To determine competency, we look at how the records were prepared.

If the record is competent to testify, then we analyze the admissibility of individual statements within the records.

16

Business and Public Records

Determining if the Records are Competent

- Prepared in the ordinary course of business
- At or near the time of the event being described
- By someone with knowledge (or based on information transmitted by someone with knowledge)

17

Business and Public Records

Tip!

R. 803(6) was amended to allow business records with an attached affidavit of nonparty records custodian...

But courts can insist on live-witness testimony for critical issues.

18

Business and Public Records

Remember, just because a record is admitted under this exception does not necessarily mean that every statement contained within the record is admitted. Must analyze.

Example: medical records with proper affidavit of records custodian attached. Records contain a written note from a nurse that "Jonny told me his dad did this."

19

Business and Public Records

How is this exception consistent with the values behind the Rules?

The idea is that the "business environment encourages the making of accurate records by those with a duty to the enterprise". BRANDIS & BROUN § 225, at 911 n.481.

20

Medical Diagnosis or Treatment Exception

Applies when the statements are

1. made with the declarant understanding they would lead to medical diagnosis or treatment, and
2. reasonably pertinent to diagnosis and treatment.

21

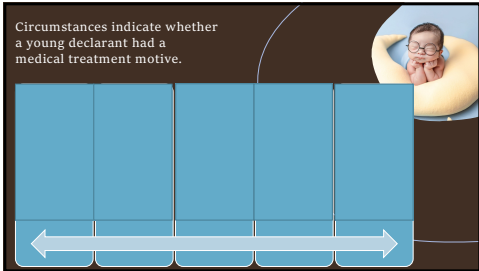

Medical Diagnosis or Treatment Exception

Requirements include that the declarant made the statements **understanding** they would lead to medical diagnosis or treatment.

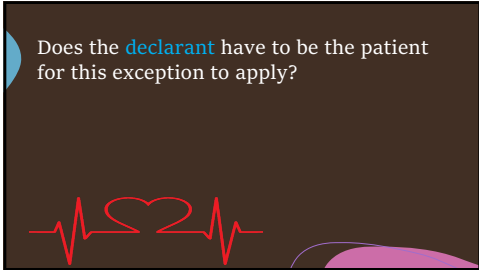

22

Circumstances indicate whether a young declarant had a medical treatment motive.

23

Does the **declarant** have to be the patient for this exception to apply?

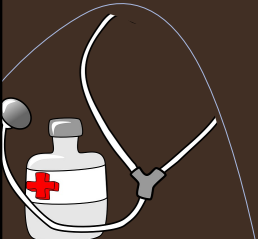

24

Does the **listener** have to be the medical provider for this exception to apply?

25

Medical Diagnosis or Treatment Exception

How is this exception consistent with the values behind the rules?

26

Other Hearsay Exceptions under Rule 803

Present Sense Impression Rule 803(1)	"Hello, 911? A red Ferrari just hit another car."
Excited Utterance Rule 803(2)	"Oh no, you just hit another car!"
Mental, Emotional, or Physical Condition Rule 803(3)	"I cannot believe I have to drive home; I am exhausted."
Reputation as to Character Rule 803(21)	"He is known around town for being dishonest."
Records of Vital Statistics Rule 803(9)	E.g., certificates of birth, death, or marriage.

27

Hearsay Exceptions
Category 11: Declarant Availability Irrelevant

Another value: *fairness*.

28

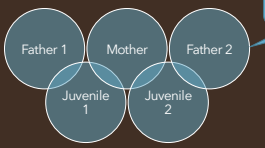

Admission of "Party-Opponent"

- Declarant availability irrelevant
- Rule 801(d) - not Rule 803
- Basic elements:
 - Declared or endorsed
 - By party-opponent
 - Offered against that party

Any statement made or endorsed by any party to the case can come in for any purpose?

29

What if...

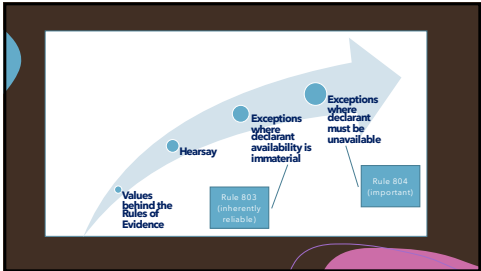

Admissible in adjudication hearing in proceeding brought by DSS involving both juveniles?

30

Admission of "Party-Opponent"

- Statements of parent ✓
- Statements of DSS worker, law enforcement officers, and other government agents ✓
- What about statements of child?

31

32

Hearsay Exceptions under Rule 804

Unavailable means the declarant is

- precluded from testifying,
- refusing to testify despite a court order to do so,
- claiming, under oath, to have a lack of memory about the statement,
- unable to testify because of a physical or mental illness, or death, or is
- absent and reasonable means to procure the declarant have been unsuccessful.

33

Hearsay Exceptions under Rule 804

Former Testimony
Rule 804(b)(1)

Declarant testified in this proceeding, or another proceeding where a party had similar interests as a party in the current proceeding.

Impending Death
Rule 804(b)(2)

At issue is whether Dan hit a woman with his red Ferrari. The victim's son testifies that he came out of the store and found his mom on the ground, in pain. He testifies that when he asked his mom who did this, she "pointed at Dan as he drove away." She died before the ambulance could get to the scene.

34

35

EXTRA! EXTRA! Residual Hearsay

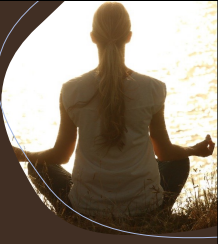

36

Don't Panic

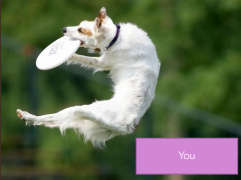

If the correct rule comes to you immediately, great. If not:

- Is it hearsay? (out-of-court + offered for truth)
- Whose credibility matters? (hearsay = out-of-court declarant; non-hearsay = usually in-court witness)
- What values are in play? How is proposed evidence consistent or not with those values?
- Answers should guide your arguments on admissibility.
- Ask for time to research issue (particularly in lengthy trial and if critical issue).

Grandma's Famous Judicial Notice Recipe

- 2 parts Judicial Notice
- 1 part Collateral Estoppel
- 1 part Res Adjudicata
- Equal parts confessions, among bench and bar

10

11

Judicial notice of prior entered orders

YOU'VE GOT TO FIGHT FOR YOUR RIGHT TO ~~OWN~~ OBJECT

A timely request entitles you to be heard about whether the court should take judicial notice. See *State v. Anthony*, 267 N.C. App. 45 (2019) (improper where matters were not offered in evidence and were only discussed in argument).
 If not notified ahead of time, a request to be heard may be made after judicial notice is taken. N.C. R. EVID. 201(e).

12

Judicial notice of prior entered orders

- At hearings where Rules of Evidence apply, object to prior findings of fact based on now-inadmissible evidence.
- Make DSS name the specific findings and conclusions the court is being asked to take notice of.
 - General objection may be insufficient
 - Big picture: practical barriers may reduce the flood
 - Cleaner record on appeal
- Offer contradictory evidence.
- Admissibility vs effect.

13

Judicial notice of previously admitted evidence

In re L.N.H., 382 N.C. 536 (2022)

- COA reversed trial court's dependency adjudication. NC Supreme Court granted the petition for discretionary review.
- Multi-layered case with hard facts for the parent attorney to deal with.
- NC Supreme Court examined whether it was ineffective assistance of counsel to fail to object at adjudication to the court taking notice of evidence received at continued nonsecure hearing.
- Reversed COA.

14

Judicial notice of previously admitted evidence

In re L.N.H., 382 N.C. 536 (2022)

- But!

"[Neither] this Court nor the Court of Appeals has directly addressed...whether a trial court [at adjudication may take judicial notice of] evidence that has previously been admitted [at a hearing on continued] non-secure custody...with reasonable arguments in support of and in opposition to the admissibility of this evidence having been advanced in the parties' briefs before this Court."

15

Judicial notice of previously admitted evidence

Your Argument:
Hearsay evidence admitted without objection at a nonsecure custody hearing should not be allowed as admissible evidence by judicial notice at an abuse/neglect adjudication.

16

Judicial notice of previously admitted evidence

Your Argument:
Hearsay evidence admitted without objection at a nonsecure custody hearing should not be allowed as admissible evidence by judicial notice at an abuse/neglect adjudication.

See In re J.C.M.J.C., 268 N.C. App. 47 (2019) (questioning reliance at adjudication on findings from prior nonsecure custody hearing because nonsecure custody hearing lack the procedural safeguards required in adjudications)

17

This all stresses the importance of:

- Being prepared at adjudication**
 - Know what is already on the file.
- Objections**
 - Strenuously object.
 - Specify objections.
- Keeping out FOF unsupported by competent evidence**
 - Review draft orders.
 - Subj. presumption that court disregarded incompetent evidence by showing it was based on inadmissible evidence.
- Reducing the effects of prior non-adjudicatory hearing findings**
 - Non-binding.
 - Different standards of proof across hearings can affect weight of evidence.
 - In re J.C.M.J.C., 268 N.C. App. 47 (2019)
 - Courts may reject prior non-adjudicatory FOF and credit contrary testimony.
 - In re J.C.M.J.C., 268 N.C. App. 47 (2019)
- Offering evidence and proposing findings**
 - E.g. parent reports, family photographs.
 - Get good findings (even in bad orders).

18

Judicial notice and collateral estopped can prevent DSS from relitigating allegations it lost at adjudication.

See In re F.S., 268 N.C. App. 34 (2019) (DSS could not argue that mother's hospitalizations showed risk of harm to child where issue was fully litigated and court previously found no nexus of harm or substantial risk of harm.)

19

Your turn

20

Key points regarding DSS' records

- Wealth of information
- Be specific and all-encompassing when requesting access
- When DSS seeks to admit its entire file
 - May be expressly requested ("we'd like to offer our entire file") or more subtly (e.g., a social worker report that includes a reference to attaching and incorporating the file).
 - Make DSS do the legwork and be specific.
- Remember! Business records:
 - is a two-step process (hearsay within hearsay).
 - A different social worker can lay foundation but only if knowledgeable about preparation.
 - Advanced notice is required.

CASE PLAN (AKA PERMANENCY PLANNING FAMILY SERVICES AGREEMENT)

10A NCAC 70C .0504 OUT-OF-HOME FAMILY SERVICES AGREEMENT FOR CHILDREN RECEIVING FAMILY FOSTER CARE SERVICES

- (a) The agency shall develop a written out-of-home family services agreement within 30 days of admission of a child in a family foster home.
- The out-of-home family services agreement ~~shall be developed in cooperation with~~ parents, guardian or legal custodian, and, when possible, the child and foster parents.
- The out-of-home family services agreement shall be based upon an assessment of the ~~needs~~ of the child, parents or guardian.

4

CASE PLAN (CONTINUED)

- The out of home family services agreement shall include goals stated in ~~specific, realistic, and measurable terms and plans~~ that are ~~action oriented~~, including responsibilities of staff, parents or guardian, other family members, legal custodian, foster parents, and the child.
- The agreement shall address the following services to be provided or arranged:
 - (1) the visitation plan designed to maintain links with the family;
 - (2) the expectations of the family, agency, placement provider, and community members;
 - (3) target dates; and
 - (4) expected outcomes.

5

REASONABLE EFFORTS

N.C. Gen. Stat. § 7B-101 - Definition

- The ~~efficient~~ use of preventive or reunification services by a department of social services when a juvenile's remaining at home or returning home is consistent with achieving a safe, permanent home for the juvenile within a reasonable period of time.
- If a court of competent jurisdiction determines that the juvenile is not to be returned home, then reasonable efforts means the diligent and timely use of permanency planning services by a department of social services to develop and implement a permanent plan for the juvenile.

6

PERMANENCY PLANNING HEARINGS

§ 7B-906.1. Review and Permanency planning hearings

KEY TAKEAWAYS FOR PPH

- Initial hearing within 90 days of Dispositional hearing
- After the initial PPH - 6 months - can be shorter - ask for shorter
- Court will hear from DSS, GAL, parents, caregivers
- Hearsay evidence can be considered → relevant, reliable & necessary → court reports
 - We can and should admit evidence when possible

7

**PERMANENCY PLANNING HEARINGS
(CONTINUED)**

COURT MUST CONSIDER THESE FACTORS:

- Services offered for reunification
- Visitation update - modification? Expansion?
- Whether efforts to reunite the juvenile with either parent clearly would be unsuccessful or inconsistent with the juvenile's health or safety and need for a safe, permanent home within a reasonable period of time.
- Reports on juvenile's placement - appropriateness, goals of foster care plan - role of foster parent in planning
 - 16, 17 yr. olds - Independent Living Assessment - Independent Living Plan
- Anything else

8

MOTION FOR REVIEW/MODIFICATION

§ 7B-1000. Authority to modify

- (a) Upon motion in the cause or petition, and after notice, the court may conduct a modification hearing to...
- determine whether the order of the court is in the best interests of the juvenile.
- The court may modify the order in light of changes in circumstances or the needs of the juvenile and address the issues raised in the motion that do not require a review or permanency planning hearing *pursuant to G.S. 7B-906.1.*

9

OVERVIEW OF TACTICS

- Review Petition
- Get signed releases from client
- Reach out to providers directly
- Request updated SW notes, other docs from DSS
- Request drugs screens
- Include pictures
- Talk about family placements
- Encourage client to continue to parent
- Use Adjudication/disposition order as roadmap

10

REVIEW PETITION

- Are the services ordered related to the reasons why the child was removed
 - Curate your client plan – kitchen sink to personalize it to your client/family
 - Listen to client concerns/challenges with ordered services
- You get parenting classes, YOU get parenting classes... is it necessary
 - Group classes vs. one on one
- Judge may have ordered over your objection at disposition → object again
- Let's prioritize – substance abuse main issue – let's get that under control and reassess
- Can some services be combined – therapist can provide anger management/empowerment – just try it – DVOP is 6 mos

11

GET SIGNED RELEASES FROM CLIENT

- Don't just rely on DSS records – why?
- Get the complete record → at the same time, **DSS doesn't need the entire record**
 - Ask the court to limit DSS access to provider records to:
 - Initial Assessment/Diagnosis
 - Treatment plan/Compliance
 - Drug Screen results
 - Successful Completion?
- Paint the whole picture – Court report – “client experiencing cravings” → provide context
 - Talking to medical doctor who is monitoring/prescribing medication

12

REACH OUT TO PROVIDERS DIRECTLY

- Client signed release
 - Parenting – how did client do, praises/concerns, observe interaction with children, feedback from SWs – could be a letter, could be a witness
 - Substance Abuse – level of engagement, growth, consistency
 - Mental Health – compliant with medication management; if no meds – why, what's the plan; level of engagement; consistency; stability/progress – what does that look like for YOUR client
 - Domestic Violence – level of engagement, safety plan in place, group involvement

13

REQUEST UPDATED SW NOTES, OTHER DOCS FROM DSS

- Especially when reunification seems to be stalled
- What's in there?
 - Conversations with FP, provider conversations, visitation notes, referral information, client interaction with social worker, conversations with family members
- Identify concerns – even if they're not being directly communicated with client – ex. Visits are terrible → do notes reflect that?
 - The absence of information is still information → no concerns noted but concerns referenced in report?
- CFT notes (should get from client or attend yourself)
- Vendor agreements, referrals – time frame for both

14

REQUEST DRUG SCREENS

- Why? DSS documents the results in reports
- DSS makes mistakes!
- **Is the testing reliable? If you have questions call the lab!!!**
- Look at the levels – especially hair screens (levels decreasing?)
- How frequently are they requested?
 - If not frequently requested – DSS can't be too concerned with use – let's move forward
- Client missing drug screens – why? → challenge reports that don't provide explanations for missed screens

15

INCLUDE PICTURES

- Why?
- Judge may have never seen the child
- Pictures humanize both parents and children
- Reminds everyone why we are here – this is a family
- Positive evidence to have in the record

16

TALK ABOUT FAMILY PLACEMENTS

- Discuss early with clients – even if they can't take kids → visitation resource
- Family placement is statutory preference/edict
- Even if they don't love their family – start having discussions about placement
- At initial PPH – parent not engaged → don't delay
- ICPC Home studies can take a long time
- Make sure that it's clear to the court that there are potential family members – (provide family members with info about process)

17

ENCOURAGE CLIENT TO CONTINUE TO PARENT

- Go to doctor appointments
- Go to school appointments
- If they can't go – why not? Get updates – ask regularly
- Remind the parents that these are their kids – they know them best
- REMIND THE JUDGE/DSS/GAL OF THIS FACT
- Especially in cases with complicated medical issues → parents have to know how to care for their child/don't want it used as excuse to delay reunification

18

USE ADJUDICATION/DISPOSITION ORDER AS ROADMAP

- The order should outline the judge's expectations
- Hold DSS responsible for connecting client to services
- Has DSS made timely referrals?
- Having a release signed by client is helpful here → get independent documentation from provider
 - Request referral/fax from DSS – actual paperwork → nail down dates
- Punch to face – no psych eval needed!

19

INITIAL PPH - PREPARATION

- Talk to your client (read report)
- Reach out to DSS – can we expand? Issues?
- What is your client's progress?
 - Client has disappeared – SW NOTES COULD SHED LIGHT
 - Client visiting – nothing else – SW NOTES, FAMILY PLACEMENT – COMMUNITY VISITS?
 - CLIENT IS KILLING IT! – HOW CAN WE EXPAND VISITS

20

INITIAL PPH – PREPARATION (CONTINUED)

- Why are you struggling – what are barriers → Address with court
 - TRANSPORTATION
 - ANXIETY IN GROUP SETTING
 - WORKING – CAN'T MAKE DRUG SCREENS/VISITS
- Have candid conversation with client – explain what is at stake
- Make sure client understands court expectations
- Look at age of child – how can we expand – what are the needs?
 - PUSH AS MUCH VISITATION AS POSSIBLE RIGHT FROM THE START – use visitation resources – family/friends

21

INITIAL PPH – APPLY TACTICS

- Review Petition – ARE CLIENT'S NEEDS BEING ADDRESSED
 - ARE THOSE PARENTING CLASSES NECESSARY; PRIORITIZE – no cookie cutter services
 - Revisit order – are all services necessary?!
- Get signed releases from client – DEFINITELY HELPFUL
- Reach out to providers directly – DEPENDS ON CASE PROGRESS. LETTERS CAN BE ADMITTED, DISPUTE W DSS?
 - DOES CLIENT NEED AN ACCOMMODATION
- Request updated SW notes, other docs from DSS – DEPENDS ON PROGRESS

22

INITIAL PPH – APPLY TACTICS (CONTINUED)

- Request drugs screens – ALWAYS HELPFUL TO HAVE UPDATED SCREENS – ADMIT NEGATIVE SCREENS!!

5

Contracts-MAC system

Managed Assigned Counsel (MAC) contracts are unique, attorney centered and allow IDS to better track outcomes for the clients as well as needs for the attorneys. These are the highlights:

1. IDS pays attorneys every month for the hours billed the previous month. Attorneys do not have to wait for a disposition in the case to be paid.
2. Attorneys determine their own caseload and may take a break from new case assignments simply upon request.
3. Expenses for out-of-county travel, copies and in-house paralegal administrative time are reimbursed monthly.
4. Expert assistance requests by contracting attorneys for drug analysis and testimony are approved by IDS, not the courts.
5. Consults and trial assistance by OPD and free and reduced costs for CLEs.

6

IV-E Funds

Rate Increase. The cost of the \$10 rate increase for attorneys representing parents will be transferred from the IV-E reimbursement fund to the PAC fund each month.
Example: IDS paid \$65,000 at \$65/hour to parent attorneys in February 2023. In March, IDS will transfer \$10,000 from the IV-E fund to the PAC fund.

Interdisciplinary Representation Program (IRP). NC will develop a model of parent representation in which the attorney and a social worker are an interdisciplinary team whose objectives include:

- promoting parent engagement, and
- ensuring families receive meaningful services that lead to lasting reunifications

Implement strategies to recruit and retain highly qualified parent attorneys. IDS will explore higher rates for Child Welfare Specialists, paid internships and fellowships for law students and recent law school graduates, mentoring programs, and creating regional parent defender positions.

Evidentiary Standard After Adjudication

The court may consider any evidence, including hearsay...or testimony or evidence from any person that is a party, that the court finds to be **relevant, reliable, and necessary** to determine the needs of the juvenile and the most appropriate disposition.

G.S. 7B-901(a), -906.1(c).

Relevant evidence is evidence that tends to make the existence of a fact of consequence to the action more or less probable.

G.S. 8C-1, R. 401.

5

Examples of Excluded Evidence at Later Hearings

In re K.G.W., 250 N.C. App. 62 (2016)

- Dispositional hearing.
- Trial court determined clinical psychology expert's testimony would not assist the court's role as trier of fact, because the expert
 - had never met with, observed, or tested the juvenile,
 - was not involved in the case otherwise, and
 - lacked familiarity with juvenile proceedings more broadly.
- COA: Trial courts get to determine evidentiary credibility and weight.

6

Examples of Excluded Evidence at Later Hearings

In re J.N.S., 207 N.C. App. 670, 679 (2010)

- Trial court at disposition received DSS and GAL reports.
- Judge addressed parties and family members, none of whom were placed under oath.
- COA:
 - Unsworn statements were not competent evidence.
 - Findings based solely upon unsworn testimony were thus improper.
 - The informal nature of a disposition hearing does not "excuse[] the necessity of having evidence which is based upon sworn testimony if the trial court chooses to rely on information from individuals" in addition to reports.

7

Examples of Excluded Evidence at Later Hearings

In re P.O., 207 N.C. App. 35, 39-41 (2010)

- Trial court at PPH barred documents purportedly created by treatment providers.
- Letters contradicted other evidence and other parties were unaware of existence of documents and identities of some of the authors.
- COA:
 - Trial court did not abuse its discretion where:
 - (1) Proponent failed to explain why providers were not present to testify.
 - (2) Proponent failed to "offer any support for [the] contention that the documents were reliable."
 - (3) DSS' "strenuous objections to the documents based on a lack of authenticity and reliability" and desire to cross-examine on critical issue.
 - Trial courts may consider hearsay evidence. That "permissible language" makes it clear trial court can include or exclude hearsay at PPH.

8

9

The time to fight over credibility is at trial.

IN RE A.C., 247 N.C. APP. 528, FN. 8 (2016)

Testifying therapist struggled to recall dates and other important information.

On appeal, Respondent Mother challenged therapist's testimony as unreliable.

COA: "The trial court's credibility determinations are not a viable basis for relief on appeal."

ELLIOTT V. MUEHLBACH, 173 N.C. APP. 709, 714 (2005)

Evidence lacking objective measurements, an absence of impartial witnesses, or a party's "exaggerated" testimony, are all factors that "relate to the credibility and weight to be afforded the testimony."

"Such questions must be resolved by the trial court and are not a basis for overturning a finding of fact."

10

When is Live Testimony Required?

11

When is Live Testimony Required?

Disposition

- Trial court relied only on written reports and adjudication findings. *In re K.W.*, 272 N.C. App. 487 (2005).
- Disj. + Disp. = two-step hearing process (formal/adversarial → inquisitive).
- Testimony at disposition is:
 - Not required if reports and Adj. findings sufficiently support the order.
 - Required if order relies on information from people who address the court.

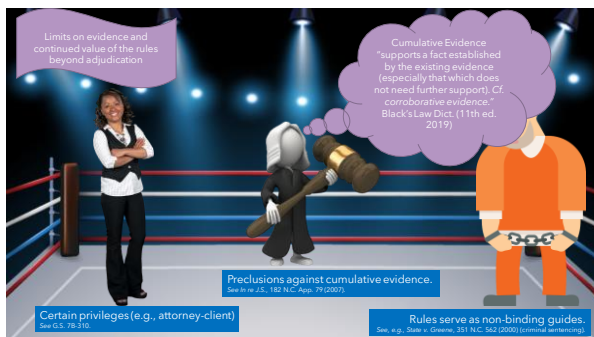

Permanency Planning

- Live testimony is required. Otherwise, COL are made in error. *In re S.P.*, 367 N.C. App. 533 (2019).
- Attorney arguments are not testimony. *Id.* See also *In re J.T.*, 232 N.C. App. 19 (2017).
- Reliance on prior orders no substitute for competent evidence at PPH. *In re G.V.*, 202 N.C. App. 160 (2015).

Review

- Governed by same evidentiary standard as PPH. G.S. 7B-906.1(c).
- Appellate holdings on evidentiary standards likely apply.

12

13

14

15

Child Testimony

16

Child Testimony

Respondent subpoenas a child for testimony.

GAL moves to quash on the ground that testifying would be harmful to the child.

Question: What is the legal standard for determining whether a child may testify?

17

The Rules for Child Testimony

The legal standard is competency.

- Not unavailability or harm.*
- No *Crawford* but remember Due Process.

Rule 601. General rule of competency; disqualification of witness.

(a) General rule. – Every person is competent to be a witness except as otherwise provided in these rules.

(b) Disqualification of witness in general. – A person is disqualified to testify as a witness when the court determines that the person is (1) incapable of expressing himself or herself concerning the matter as to be understood, either directly or through interpretation by one who can understand him or her, or (2) incapable of understanding the duty of a witness to tell the truth.

18

The Rules for Child Testimony

Cases suggest that harm must be oppressive and unreasonable to be considered.

- See *In re A.H.*, 250 N.C. App. 546 (2016) (strong evidence of severe mental health and distress).
- See also *In re W.H.*, 261 N.C. App. 24 (2018). (record and order reflected through inquiry and strong evidence that testifying would traumatize the girls and would cause them confusion, guilt, and fear to the point there was a risk of dishonest testimony).

19

How does the court determine whether the child is competent to testify?

Observe child.

Voire dire.

But see *Spaugh*, 321 N.C. 550 (1988) (voire dire not required where judge observes child).

Testimony of others

Roberts, 18 NC COA 388 (1973) (helpful but not required).

20

Mechanisms for Taking Child Testimony

Testimony in courtroom

- Excluding bystanders. See, e.g., G.S. 7B-801.
- Excluding other witnesses from court. See G.S. 8C-1, R. 615.
- Leading questions. See *State v. Higginbottom*, 312 N.C. 760 (1985) (difficulty understanding because of age, immaturity, or ignorance of subject matter).
- Positioning and location of child. See *State v. Reeves*, 337 N.C. 700 (1994).
- Frequent recesses to allow child breaks. See *Higginbottom*, 312 N.C. 760 (1985).

21

Mechanisms for Taking Child Testimony

Remote testimony

Request through AOC (1 and 2-way testimony options).

In camera testimony with judge only?

Raises concerns re: fairness and the converting of a judge into an evaluator.

Breakout #1 Materials
Adjudication Evidence: Hearsay

Mother and Father have a four-year-old, Daughter, and two-year-old twins, Son 1 and Son 2. DSS received an anonymous report alleging that Son 2 “is always crying” and was recently seen “covered in tiny blisters and burns.” Reporter alleged that Father is exhausted and “seems like he is about to snap.”

As part of the DSS assessment, Social Worker interviewed the parents and their neighbor, Karen. Per Social Worker’s notes:

- Mother was asked about the reported blisters and burns on Son 2. Father interrupted, saying “He probably just screamed himself red. That boy never shuts up.”
- Per Karen, “Father is always stressed. He drinks a ton.”
- Per Karen, “Daughter was walking with a limp and wincing in pain.”

Social Worker has since retired and moved out of state.

One month after receiving the report, DSS arranged for Daughter to be seen at Child Advocacy Center. The interview took place in a playroom filled with toys, with colorfully decorated walls and furniture. The interviewer introduced herself to Daughter, and the two played games together. After about ten minutes, the interviewer asked, “So, what happened to your leg?” Daughter responded, “I hurt it. It is my parents’ fault.” Nothing else substantive was discussed. The session was recorded.

DSS arranged for all three juveniles to be examined by Dr. Brayboy at WakeMed. Dr. Brayboy’s report, which is part of the medical records, contain his observations of Son 2 (“2nd degree burns on chest. 1st degree burns on arms, neck, and face. Different stages of healing.”). Son 2 is noted as having responded, “Daddy mad,” when asked what happened to him. Dr. Brayboy concluded that Son 2’s burns are “nonaccidental, consistent with having been sprayed with very hot water.”

The WakeMed records contain a handwritten note by Nurse Jackie which reads, “I introduced myself to Daughter and told her I am here to make her feel better. Said it is important to tell the truth. Asked her how her leg is and what happened. Daughter said she woke up from a nap home alone. She looked for her parents outside and fell on railroad tracks. Said she cried but did not tell anyone. No one hurt her.” Nurse Jackie’s notes also indicate that Social Worker said, “Leaving a kid this young home alone is neglect.” A notarized affidavit signed by the WakeMed records custodian is attached.

DSS has filed petitions alleging Son 2 is abused and that all three juveniles are neglected, based on Son 2 and Daughter’s injuries, the parents’ failure to obtain necessary medical care, and that all three juveniles live in an injurious environment without proper supervision.

Adjudication Evidence: Hearsay

For each statement listed below, consider:

- Possible grounds for admission, including hearsay exceptions.
- Objections as to admissibility and arguments as to weight.
- The relevance, probative value, and prejudicial effect of each.

1. Statements made by the anonymous reporter.

2. Records prepared by retired Social Worker, generally.

3. Father's interruption of Mother, stating that Son 2 "probably just screamed himself red."

4. Karen's statement that Father is stressed and is drinking "a ton."

5. Karen's statement that Daughter was walking with a limp and wincing in pain.

7. WakeMed records, generally, and Dr. Brayboy’s observations and conclusions, specifically.

8. Son 2’s response of “Daddy mad” when Dr. Brayboy asked what happened.

9. Daughter’s description of the events surrounding her injury, as told to Nurse Jackie.

10. Social Worker’s statement that “[!]eaving a kid this young home alone is neglect.”

Breakout #2 Materials
Issues and Tactics for Later Stages

Part 1

Viola Smith has never had it easy. Born and raised in West Philadelphia, she spent most of her days raising her three sisters while her dad worked to support the family. They were poor, the schools were bad, and life was hard. It was her freshman year of high school when she met Lou Smith and the two began dating. A year later, Will was born. Viola dropped out of school to care for him.

For the next few years, Viola and Lou were mostly happy. Tired, but happy. Then Lou lost his job. The family was already barely making ends meet, as Viola had stayed home to raise Will because they could not afford daycare. Without Lou's income, things soon fell apart. Lou began staying out late and drinking more. When he was home, Lou and Viola fought constantly. A few times, the fights got physical—fights that were witnessed by then five-year-old Will. Lou moved out, and when he did, he disappeared completely. Lou has not called or visited Will a single time since.

As the years pressed on, so has Viola. Viola works what jobs she can, but there are not many opportunities in her neighborhood and the family does not have reliable transportation. The nearest city bus stop is a mile walk from the family's apartment. Speaking of their apartment, Viola is behind on rent. She has one month to get current on rent or move out. Viola comes home at night exhausted from her second shift. Many nights, she uses unprescribed oxycodone to cope with chronic back pain.

Will (who is now 16) has struggled in recent years. Will is a nice person who loves his mom, but he is often in trouble. Will's grades are poor, and he has been suspended multiple times for fighting at school. Those fights have gotten worse, as Will has made enemies with a few area gang members. Most recently, Will was caught with oxycodone at school. Crying, he told the principal that the pills belonged to his mom, who, on the rare occasion she is home, is blacked out.

After receiving a child protective services report, DSS conducted an assessment and ultimately substantiated for neglect and dependency. DSS sent the family to In-Home Services. DSS also immediately filed a petition in juvenile court. Last week, the petition was granted, and Will was adjudicated neglected and dependent. An initial disposition hearing has been noticed for next month. You are appointed to represent Viola.

Breakout #2 Materials
Issues and Tactics for Later Stages

1. What are the underlying themes to Viola and Will's story? What words would you use to describe their family and their lives?

2. At disposition, what do you anticipate DSS will ask the court to order Viola to complete?

3. How will you ask the court to tailor the dispositional plan to benefit your client and her son, and to be achievable?

4. Viola's sister, Vivian, lives in Beverly Hills, California with her husband and three children. How will you discuss the possibility of a home study with Viola? What are the benefits for asking the court at initial disposition to order a home study on Vivian and Phillip? What are the risks?

5. What other specific efforts could the court order of DSS? How may these efforts benefit your client?

Breakout #2 Materials
Issues and Tactics for Later Stages

Part 2 (Three months later)

The court declined to place Will in DSS custody or to cease reunification efforts at initial disposition. (Good job!) Since then, Viola obtained employment (she gets home around 9:00 p.m. most nights) and has bought a used car. She lost the apartment, but fortunately a coworker allowed Viola and Will to move into the coworker's home until things improve. Viola has not participated in court-ordered drug treatment. Viola tells you that she has called her social worker twice to try to find out where she is supposed to go but no one called her back. Viola admits that she is still using unprescribed opiates. In your interactions, you have grown increasingly convinced that Viola may have learning disabilities. Will has continued to get in trouble at school, and his fights with other students are getting worse.

1. What types of records likely contained in the DSS file are you interested in reviewing now? How can you obtain access to those records?

2. You learn that despite the court's disposition order, DSS has not initiated the ICPC home study on Vivian and Phillip's home. The social worker has also not helped Viola locate drug treatment counseling services. What will you do as a result?

3. Considering the developments of the last three months, what new and additional services or other recommendations will you request that the court order?

§ 7B-901. Initial dispositional hearing.

(a) The dispositional hearing shall take place immediately following the adjudicatory hearing and shall be concluded within 30 days of the conclusion of the adjudicatory hearing. The dispositional hearing may be informal and the court may consider written reports or other evidence concerning the needs of the juvenile. The juvenile and the juvenile's parent, guardian, or custodian shall have the right to present evidence, and they may advise the court concerning the disposition they believe to be in the best interests of the juvenile. The court may consider any evidence, including hearsay evidence as defined in G.S. 8C-1, Rule 801, including testimony or evidence from any person who is not a party, that the court finds to be relevant, reliable, and necessary to determine the needs of the juvenile and the most appropriate disposition.

(b) At the dispositional hearing, the court shall inquire as to the identity and location of any missing parent and whether paternity is at issue. The court shall include findings of the efforts undertaken to locate the missing parent and to serve that parent and efforts undertaken to establish paternity when paternity is an issue. The order may provide for specific efforts in determining the identity and location of any missing parent and specific efforts in establishing paternity. The court shall also inquire about efforts made to identify and notify relatives, parents, or other persons with legal custody of a sibling of the juvenile, as potential resources for placement or support.

(c) If the disposition order places a juvenile in the custody of a county department of social services, the court shall direct that reasonable efforts for reunification as defined in G.S. 7B-101 shall not be required if the court makes written findings of fact pertaining to any of the following, unless the court concludes that there is compelling evidence warranting continued reunification efforts:

- (1) A court of competent jurisdiction determines or has determined that aggravated circumstances exist because the parent has committed or encouraged the commission of, or allowed the continuation of, any of the following upon the juvenile:
 - a. Sexual abuse.
 - b. Chronic physical or emotional abuse.
 - c. Torture.
 - d. Abandonment.
 - e. Chronic or toxic exposure to alcohol or controlled substances that causes impairment of or addiction in the juvenile.
 - f. Any other act, practice, or conduct that increased the enormity or added to the injurious consequences of the abuse or neglect.
- (2) A court of competent jurisdiction has terminated involuntarily the parental rights of the parent to another child of the parent.
- (3) A court of competent jurisdiction determines or has determined that (i) the parent has committed murder or voluntary manslaughter of another child of the parent; (ii) has aided, abetted, attempted, conspired, or solicited to commit murder or voluntary manslaughter of the child or another child of the parent; (iii) has committed a felony assault resulting in serious bodily injury to the child or another child of the parent; (iv) has committed sexual abuse against the child or another child of the parent; or (v) has been required to register as a sex offender on any government-administered registry.
