

*Based on In re A.C., an unpublished opinion of the*  
NORTH CAROLINA COURT OF APPEALS

21 October 2008

After adjudicating Sam delinquent for one count of larceny and one count of possession of stolen goods, based on theft of another juvenile's cell phone, the trial court ordered that Sam be placed on Level 2 probation.

*How would you assess each of the following probation conditions in terms of legality and sufficiency? Which, if any, might an appellate court reject?*

1. The juvenile shall be subject to up to 14 days of intermittent confinement in an approved detention facility if deemed necessary by the court counselor and approved by the court.
  
2. The juvenile shall perform one hundred hours of community service as directed by the court counselor.
  
3. The juvenile shall not associate with persons deemed by his parent or the court counselor to be a negative influence.
  
4. The juvenile shall pay restitution.
