#### An Update on Emergency Directives and Court Operations

Last week, Chief Justice Paul Newby entered an order extending and modifying some of the emergency directives previously imposed by former Chief Justice Cheri Beasley. Chief Justice Newby's order (issued January 13, 2021 and effective January 14, 2021) allowed other emergency directives to expire. This post reviews the latest emergency directives as well as recent leadership changes affecting the courts.

#### Welcome to the UNC School of Government's Indigent Defense Manual Series!

The North Carolina Indigent Defense Manual Series is a collection of reference manuals addressing law and practice in areas in which indigent defendants and respondents are entitled to representation of counsel at state expense. The series was created to address the need for comprehensive reference materials for public defenders and appointed counsel, who devote their time, skill, and effort to representing poor people. In addition to assisting indigent defenders with their responsibilities, the manuals may be useful to others who work in the court system and need a reference source on the law. In keeping with the School of Government's commitment to practical scholarship, the manuals are written by authors with subject-matter expertise in their respective fields, experience in developing effective educational materials, and knowledge of how things work in practice. We recently expanded the series to add Indigent Defense Practice Guides, which are primers on specific areas of criminal law and procedure.
