

NCAWARE UPDATE for Magistrates Fall 2014

Presented by Kim Whitfield and Scott Havenook

I. Release Order Conditions Modification and Tracking

Magistrates can edit an *existing* Release Order and NCAWARE will track changes electronically. NCAWARE will now allow the printed Release Order form to comprehensively capture all release condition modifications.

Exceptions

- Bond Surrender - Magistrates will still add a new Release Order.
- Violation of pretrial release – Magistrates will still add a new Release Order when setting conditions for warrantless arrests for violation of pretrial release conditions.

A. The Conditions Tracking feature now will track changes to the following fields on the Release Order Tab in NCAWARE for each Release Order completed.

Release Authorization	FTA under Prior Release Order
Bond Type	2 nd & Subsequent FTA in Case
Bond Amount	Arrestable Restrictions
Reason for Creation/Edit	Additional Information
Issued/Edited on Behalf Of	Detention Facility
Victim Rights Flag	Custodian instructions
Domestic Violence indicator (includes Hold flag updates)	Hold Purpose
Fingerprint Required	Custody Release
Release Order Number	Additional Form adds, edits, or deletes
DNA Required	

B. Modifier Tracking

The County and magistrate performing the modification, the magistrate the modification is on behalf of, and the date and time of the modification are tracked both electronically and on side 2 of the printed Release Order AOC-CR 200 form.

C. Event History Tracking

When the Conditions of Release (including Additional Forms) are modified post-issuance on a Release Order, the date, time, editing person and a summary of the edits are listed in the case's Event History tab.

II. LAW ENFORCEMENT OFFICER RECORDS CLEAN-UP

When several LEO records for the same officer exist in NCAWARE, magistrates or Law Enforcement can clean up duplicate records. This functionality is available to address the obsolete or redundant Law Enforcement Officer records that exist due to the case conversion or redundant entry. The magistrate or law enforcement can now mark these records as 'Inactive', which then makes the record hidden from any search results.

Use the following steps to clean-up the obsolete or redundant LEO records in NCAWARE.

1. From the NCAWARE Home Menu, click Law Enforcement Officers under the header Master Lists.

2. Enter the last name, first name and required agency fields
3. The *Show Inactives* check box is selected by default and will allow users to see both inactive and active officers.
4. Click Search

- To change a record from Active to Inactive, click the Toggle button in the new column at the end.
- An LEO record with **YES** under the new *User ID* column is associated with the User (RACF) ID and *cannot* be edited. It is recommended for users to select LEO records with YES in the User ID column to add to processes during issuance.

Notes regarding the LEO Record Status:

- The toggle function is available to magistrates, clerks, judges and DAs within the searched agency's county. It's available to any LEO within the searched agency.
- Any LEO record marked 'Inactive' is not deleted from NCAWARE. Those LEO records are filtered to not display in the search results.
- An inactive LEO record can be reactivated or searched for by selecting the Show Inactives checkbox, then clicking the Search button. Both active and inactive LEO records will display.
- The Active/Inactive toggle buttons are only available from Master Lists- Law Enforcement search. Also the Active/Inactive state (labeled **LEO Record Status**) is available from the details screen of an individual LEO record in the form of radio buttons.

III. Statewide Warrant Search

A. Searching for Outstanding Processes:

There are additional options available when searching by defendant information using STATEWIDE SEARCH from the main menu.

- Name Search
- SSN Search
- DMV Search
- Address Search
- Search Filters
- Display Options

- A. Name Search - functions as usual, no changes have been made.
- B. SSN Search - Enter the 9 digit SSN in the format of ### ## ####. This search will only return person records that already have a SSN maintained in NCAWARE.
- C. DMV Search - Enter the 8 numerals or less when the DMV State is NC. This search returns the Person records that match the DMV ID and associated DMV State that are maintained in NCAWARE.
- D. Search Filters - such as Domestic Violence and Victims' Rights cases are available to use with any search.
- E. Display Options - are available for any search and will display the defendant's image immediately if an image is attached to the person record.
- F. Address Search - The Address Search, provides the ability to search outstanding processes by defendant address data. This search can be used in conjunction with existing search fields. Such searches will return records matching *any* of the entered fields. Most of the address fields must be combined with other address fields in order to search, but zip code can be used by itself.

B. Understanding Statewide Warrant Search Results

The examples below describe some of the information that may appear in the results of a Search. The Recommended Actions listed below may be completed by either law enforcement or magistrate based upon local policy.

If you see this	It means this
	<p>No Score - Means you have an exact hit on the <u>ID number</u> you have entered. (The search is based off the ID number you have entered, not the name).</p>
	<p>Number in Score Column – This is the percentage that SWS thinks this is the person you are looking for based on the search criteria you entered on the search screen.</p>
	<p>System Maintained = NCAWARE (Converted from MagSys) Process Verified = Verified by Copy: Original and Defendant copy can be printed BUT there is another original waiting to be served. RECOMMENDED ACTION: If the process is printed from NC AWARE and served, locate the original and ask that it be returned to the Clerk's office. The Magistrate is able to complete a Release Order on this case through NCAWARE.</p>
	<p>System Maintained = ACIS Process Verified = Not Verified – Paperwork Destroyed: Original and Defendant copy can NOT be printed. RECOMMENDED ACTION: If defendant's whereabouts are known, check with the Clerk's Office to make sure this process is still outstanding. The Magistrate CANNOT issue the Release Order through NCAWARE.</p>
