Town of Cary 2016 Biennial Citizen Survey Report

Methodology

The Town of Cary's 2016 Biennial Citizen Survey was conducted from January 2nd through January 24th of 2016. BKL Research administered the telephone survey to 401 residents of the Town of Cary. This resulted in a $\pm 5\%$ margin of error. Both listed, unlisted, and wireless telephone numbers within Cary census blocks were included in the sampling frame and contacted using a random selection process. This year 89.0% of the numbers contacted were wireless. A minimum of four callbacks was attempted on each number not screened from the sampling frame. The potential respondents were screened with regards to Cary residence and over the age of 18. The average survey completion time was between 15-18 minutes and the refusal rate was 20.6%.

The survey instrument consisted of 38 core questions with related subparts to several of the questions (Appendix A). Respondents were asked to rate the Town Government staff, Police Department, Fire Department, Parks & Recreation programs, streets/roads, perceptions of safety, quality of life, and solid waste services. The survey also examined other issues including information sources, tax rate, information dissemination, opportunities to participate in decision-making, citizen involvement barriers, and new media usage. Another series of questions examined Town Council focus areas in relation to issues such as keeping Cary the best place to live, environmental protection, downtown revitalization, transportation, planning & development, and parks & recreation. The respondents were also asked actions that could improve their dissatisfaction with these focus areas. There were questions examining new downtown amenities/activities and satisfaction with the job the Town is doing for senior citizens as well as citizens with disabilities. The respondents were primarily asked to use a 9-point scale. There were open-ended questions examining streets/roads and public areas needing attention and most important issues. The survey incorporated 9 demographic questions.

Demographic Characteristics of the Sample

The demographic profiles of the sample are exhibited in Figures 1-6. The age profile of the sample is illustrated in Figure 1. A large percentage of the respondents (65.2%) fell between the ages of 26 to 55 with the largest portion in the 36-45 (24.9%) and 46-55 (24.4%) age categories. Figure 2 represents the number of years the respondents had lived in the Town of Cary. A large percentage (73.1%) of the respondents had lived in Cary for 6 or more years with 28.0% residing for 11-20 years

Figure 1. Sample: Age Distribution.

Figure 2. Sample: Years Lived in Cary.

Figure 3. Sample: Educational Level.

Figure 4. Sample: Race.

and 8.8% native to the Town. The sample was also a highly educated group (Figure 3). A large percentage (59.5%) of the respondents graduated with a college degree including 20.2% earning a graduate degree and 3.6% a PhD, JD, or MD degree. Figure 4 details the racial breakdown of the sample showing 73.4% of the respondents were Caucasian, 10.9% were African-American, 9.3% were Asian, and 3.9% were Hispanic. This is a slight shift from 2014 when the breakdown was 74.4% Caucasian, 10.0% Asian, 8.2% African-American, and 5.6% were Hispanic. There were high levels of household income for the sample (Figure 5). This is illustrated in the large percentage of respondents in the over \$150,000 (29.4%) and \$100,001-\$150,000 (21.2%) income categories. In terms of gender, 51.2% of the sample were male and 48.8% were female (Figure 6). Most of the respondents (72.9%) resided in single family homes, 14.8% in a townhouse/condominium, and 11.1% in an apartment. This year, there were 91.9% (89.0% in 2014) of the respondents who indicated they

Figure 5. Sample: Income.

Figure 6. Sample: Gender.

were registered voters and 50.0% (57.8% in 2014) of those voted in the 2015 local elections. Selected crosstabulations on legally disabled (B405-B413), age (B414-B419), education (B420-B427), gender (B428-B433), housing type (B434-B440), income (B441-B448), race (B449-B455), voter status (B456-B462), voted in 2015 local elections (B463-B469), and years in Cary (B470-B476) are included in Appendix B. Several of the means for the service dimensions in the survey were converted into grades. The mean score was changed into a percentage (using 9 as the denominator) and compared to the grading scale shown in Table 1. This was done for those questions that rated the services on the 9-point scale using the very poor (1) to excellent (9) response set. Grades tend to be easier to understand and use in setting goals. The respondents were also asked if they would agree to participate in a focus group session to give Cary even more insight into their citizen's opinions and attitudes with 45.8% of the respondents agreeing to participate in a session.

The report will include selected crosstabulations expressly chosen by the Town for specific questions in the survey (Appendix B). It is important to exercise caution in the interpretation of crosstabulations. They will act to segment or partition the sample size and in turn increase the margin of error for a question. It is difficult to interpret crosstabulations with small sample sizes for a specific demographic subgrouping. For that reason, sample sizes of less than 10 respondents in a subgroup will not be discussed. Keep in mind that any of the crosstabulations with a sample size this small will have exceptionally high margins of error. As for terminology, a subgroup would be a specific breakout category in a particular demographic group such as 18-25 age group or \$100,001-\$150,000 income level.

Table 1. Grading Scale.

Rating (%)	Grade
97-100	A+
94-96	A
90-93	A-
87-89	B+
84-86	B
80-83	B-
77-79	C+
74-76	C
70-73	C-
67-69	D+
64-66	D
60-63	D-
Below 60	F

The percentages in the tables are rounded off to one decimal place. Due to rounding this may result in row totals that do not always add up to exactly 100.0%. The demographic recodes for the crosstabulations were age (18-25, 26-55, 56-65, over 65), education (high school degree/some college, college degree, PhD/JD/MD), housing (single family, apartment, townhouse/condo, other), income (0-\$45,000, \$45,001-\$100,000, \$100,001-\$150,000, over \$150,000), race (Caucasian, African-American, Asian, Hispanic, other), and years in Cary (0-1, 2-5, 6-10, over 10, native). For clarification, other housing includes mobile homes, duplexes, and any other living arrangement such as assisted living. Other races include all respondents selecting other as to their race and Native Americans due to limited number. All the tables are displayed in percentages unless otherwise stated.

Significance tests were conducted on the mean differences for the 2014 and 2016 surveys. Any service dimension which was measured in both years was compared with statistical analysis. No assumption of homogeneity of variance was assumed since the sample sizes for the service dimensions generally differed for the two measurement periods. For that reason, a Welch's t-test was utilized with a two-tailed test at the .05 confidence level to determine significance. This statistical method will test the null hypothesis that the two population means are equal while correcting for unequal variances. A two-tailed test was employed due to the fact the mean difference could be higher or lower. An asterisk will be placed after any mean in the tables that is statistically significant such as 8.53*. Appendix X lists the significance tests for all the Town's service dimensions comparing changes from 2014 to 2016.

Town Government Staff

The performance of the Town Government staff was assessed with a set of seven items or questions. These questions were only administered to those respondents who had contact with the Town Government in the past two years. There were 19.7% (24.0% in 2014) or 79 respondents who indicated they had contact within that time frame. A 9-point grading scale from very poor (1) to excellent (9) was used to rate performance. The results of the 1998-2014 Cary Biennial Surveys will be included in the tables throughout the report when applicable. The incorporation of the previous survey results facilitates comparisons between survey periods to reveal possible trends.

The results show continued high ratings for the Town Government staff that have improved since 2014. The means improved for all six of the service dimensions. The mean increases resulted in grade improvements for *professionalism* (B+ to A-), *knowledgeable* (B to A-), *helpful* (B+ to A-), and *overall quality of customer service* (B to A-). Tables 2-7 placed in descending order of ratings indicate the solid marks of A- for *courteous*, *professionalism*, *knowledgeable*, *helpful*, and *overall quality of customer service*. The grade for *promptness of response* remained unchanged at B+ but now borders on an A-. The means for *knowledgeable*, *helpful*, *overall quality of customer service*, and *promptness of response* were the highest means earned to date for these services. In summary, the Town Government staff earned its best overall performance for any year with 4 of the 6 grades improving from the 2014 results.

98	7.26	4.8	0.0	0.8	1.6	4.0	8.0	24.0	35.2	21.6	B-

The respondents who gave lower scores (below 5) to any of the service dimensions were then asked their concerns with the interaction. There were only 4 total comments and the two main concerns were receiving no help from the staff and difficulties making contact (Appendix C).

Town Government Staff Crosstabulations

The crosstabulations (Appendix B) were conducted on selected demographic variables (age, education, gender, housing type, income, race, and years in Cary). As mentioned earlier, any subgroupings with sample sizes of less than 10 will not be discussed in the report. The breakdowns for contact with the Town Government are shown in Tables B1-B7. The highest levels of contact (in order) were other housing dwellers (30.0%), over \$150,000 income level (28.1%), Hispanics (26.7%), Cary natives (25.7%), and 56-65 age group (23.2%). The lowest levels of contact with the Town Government were the 18-25 age group (6.1%), other races (10.0%), apartment dwellers (11.4%), 0-1 year residents (11.8%), 0-\$45,000 income level (13.1%), and PhD/JD/MD degrees (14.3%).

The grades for *courteous* (B8-B14), *professionalism* (B15-B21), *knowledgeable* (B22-B28), *helpful* (B29-B35), *overall quality of customer service* (B36-B42), and *promptness of response* (B43-B49) were high and consistent across the subgroups. The only grade in the C range was for *helpful* (C+) by 2-5 year residents; however, the sample size was only 10. The other grades in the C range were from subgroups with very low sample sizes ($n < 10$).

Streets and Roads

The *maintenance of streets and roads* was assessed using a same 9-point grading scale ranging from very poor (1) to excellent (9). Table 8 shows the mean has improved this year from 6.83 to 6.95 and this resulted in a grade increase from C to C+. This year's mean and grade represent the highest rating the Town has ever earned for the maintenance of streets and roads. It is important to keep in mind that streets and roads will likely remain a challenging area for the Town as it continues to experience elevated levels of growth and traffic.

Table 8. How Well Cary Maintains Streets and Roads.

Year	Mean	Very Poor 1	2	3	4	Average 5	6	7	8	Excellent 9	Grade
16	6.95	1.0	1.5	0.7	3.5	9.5	12.5	33.7	21.7	16.0	C+

98	6.04	2.2	2.7	4.7	9.0	15.5	17.7	27.9	15.0	5.2	D+

Streets and Roads Needing Attention

The respondents who rated the streets and roads below 5 were asked to name specific streets/roads that need more attention and the problem(s) associated with that area. In this instance, the problems or issues cited for virtually all the roads were potholes and rough pavement. The streets/roads mentioned most often by the respondent were Maynard Road (13 times), Cary Parkway (5 times), Kildaire Farm Road (4 times), Chatham Street (3 times), High House Road (3 times), and Harrison Avenue (2 times). There were also 13 comments indicating all roads in general needed repair. In 2014, the streets mentioned the most often were Maynard Road (10 times), Cary Parkway (9 times), and High House Road (5 times). See Appendix D for all the streets/roads mentioned and their problems.

Streets and Roads Crosstabulations

The crosstabulations for streets and roads were performed on age, housing type, and years in Cary (Tables B50-B52). The grades for *maintenance of streets and roads* were mostly in the upper C to low B range across the subgroups. The only mark below the grade of C was by 0-1 year residents with a grade of C-. The highest grade was a B- given by Cary natives, 6-10 year residents, and other housing dwellers.

Cleanliness and Appearance of Public Areas

The cleanliness and appearance of public areas was assessed by a set of four questions. The questions examined the cleanliness and appearance of several public areas including *streets, median/roadsides, parks, and greenways*. Again, the same 9-point scale from very poor (1) to excellent (9) was used.

The cleanliness and appearance of public areas continued to receive very high marks. The results shown in Tables 9-12 (placed in descending mean order) indicated the respondents were extremely satisfied with the cleanliness and appearance of *parks, greenways, streets, and median/roadsides*. The means for all these public areas improved this year and this resulted in the grades improving for 3 of the 4 areas. In addition, all the mean increases were statistically significant. Even more impressive was that the means and grades represent the highest earned to date for all these public areas.

The grades improved from A- to A for cleanliness and appearance of *parks* and *greenways*. Moreover, the grade for *streets* improved from B+ to an A-. Finally, the grade for *median/roadsides* remained at the A- level; however, there was a large mean increase from 8.06 to 8.27. Overall, this year represents the most successful year for cleanliness and appearance of public areas the Town has garnered.

Public Areas Needing Attention

The respondents who gave ratings below 5 were asked to give specific examples of public areas needing attention. There were only 4 responses with no pattern evident within the comments (Appendix E).

Public Areas Crosstabulations

Crosstabulations were conducted on age, housing type, and years in Cary for the cleanliness and appearance of public areas. The grades were high and generally consistent for *parks* (Tables B53-B55), *greenways* (Tables B56-B58), *streets* (Tables B59-B61), and *median/roadsides* (Tables B62-B64). No grades fell in the C range this year. In fact, the lowest overall grade for any subgroup was a B+.

Police Department

The performance of the Cary Police Department was assessed with a set of seven questions. These questions were only administered to those respondents who had contact with the Police Department in the past two years. In this case, it was 31.7% (29.4% in 2014) or 127 respondents. Table 13 indicates most of the respondents had contact with an officer (68.8%) or dispatcher (18.1%). There was more limited contact with a clerk (6.3%) and Animal Control (3.5%). There was no contact with detectives or a District Commander by any of the respondents. The results in the table may represent several multiple contacts with different Police personnel by the same individual.

Table 13. Police Department: Person Contacted.

Person Contacted	Number	Percentage
Officer	99	68.8
Dispatcher	26	18.1
Clerk	9	6.3
Animal Control	5	3.5
Not Sure	5	3.5
Detective	0	0.0
District Commander	0	0.0

The Police Department was assessed on five service dimensions (*courteous, competence, response time, fairness, and problem solving*) on the same 9-point grading scale from very poor (1) to excellent (9) placed in descending mean order (Tables 14-18). The Police continued to have a very good overall profile. This year all of the means increased from 2014. The mean increases resulted in three of the grades improving. The three service dimensions where the grade improved were *response time* (B+ to A-), *fairness* (B+ to A-), and *problem solving* (B to B+). In addition, this year's mean for *response time* was the highest rating earned by the Police to date and the mean for *problem solving* represented the third highest rating earned. In summary, the Police improved from 2014 with all the means increasing and three grade improving.

Table 14. Police Department: Response Time.

Year	Mean	Very Poor 1	2	3	4	Average 5	6	7	8	Excellent 9	Grade

Police Department Crosstabulations

The Police crosstabulations (Appendix B) were conducted on selected demographic variables (age, education, gender, housing type, income, race, and years in Cary). The crosstabulations for contact with the Police Department are shown in Tables B65-B71 in Appendix B. Keep in mind only sample sizes of 10 or greater will be discussed. The highest levels of contact with the Police (in order) were other housing dwellers (40.0%), African-Americans (38.1%), 6-10 year residents (34.8%), and over \$150,000 income level (34.4%). The lowest levels of contact were other races (10.0%), PhD/JD/MD degrees (14.3%), and Cary natives (20.0%).

The crosstabulations for the person contacted at the Police Department are shown in Tables B72-B78. The respondents having more than one contact will be put into a category referred to as multiple contacts in the crosstabulation tables. The highest contact with an officer was the 18-25 age group (80.0%), \$100,001-\$150,000 income level (77.3%), Caucasians (72.7%), 6-10 year residents (72.4%), males (72.3%), and single family households (72.3%). The lowest was 2-5 year residents (37.5%), 56-65 age group (43.8%), townhouse/condo dwellers (46.2%), and 0-\$45,000 income level (47.1%). The highest contact with a dispatcher was the over 65 age group (12.5%), 2-5 year residents (12.5%), and 0-\$45,000 income level (11.8%). The lowest contact was zero for several subgroups.

The highest contact with a clerk was apartment dwellers (18.2%), African-Americans (12.5%), and 0-\$45,000 income level (11.8%). The lowest contact was zero for several subgroups. The highest level of contact for Animal Control was 56-65 age group (12.5%), townhouse/condo dwellers (7.7%), and 0-\$45,000 income level (5.9%). The lowest contact was zero for several subgroups. Finally, the highest level of multiple contacts with the Police was 2-5 year residents (31.3%), townhouse/condo dwellers (30.8%), and \$45,001-\$100,000 (25.0%). The lowest level of contact was from \$100,001-\$150,000 (0.0%) and 6-10 year residents (6.9%).

The crosstabulations for the five service dimensions are shown in Tables B79-B113 in Appendix B. The grades were generally high and consistent across the subgroups. The only grades in C range came from the 18-25 age group who gave the Police below average grades for *courteous* (C-), *competence* (C-), *fairness* (C-), and *problem solving* (C-). Keep in mind, the sample size was only 10 for this breakout. The 0-1 year residents also gave below average grades but the sample size was very limited (n=5).

Fire Department

The performance of the Cary Fire Department was assessed with a set of six questions regarding contact with the Department and rating their service dimensions. These questions were only administered to those respondents who had contact with the Fire Department in the past two years. In this case, it was 9.0% (11.4% in 2014) or 36 respondents. The same 9-point grading scale from very poor (1) to excellent (9) was used.

The results shown in Tables 19-23 (placed in descending mean order) indicate the Fire Department continued to have excellent ratings earning an A+ for *response time, competence, courteous, fairness, and problem solving*. All the service dimensions earned the grade of A+ and this has been the case since 2012. Several of the means were the highest earned to date by the Fire Department including *competence, fairness, and problem solving* all receiving a mean of 8.91 this year. In addition, the mean for *response time* (8.96) and *courteous* (8.91) represented the second highest means earned. Overall, the Fire Department continued to earn the highest marks for any department in the Town.

Fire Department Crosstabulations

The crosstabulations for the Fire Department were conducted on age, education, gender, housing type, income, race, and years in Cary. The breakdowns for contact with the Fire Department are shown in Tables B114-B120 in Appendix B. The highest levels of contact (in order) with the Fire Department were from apartment dwellers (18.2%), 56-65 age group (16.1%), 2-5 year residents (14.5%), and \$45,001- \$100,000 income level (14.0%). The lowest levels of contact were for Cary natives (0.0%), over 65 age group (4.1%), over \$150,000 income level (6.3%), and Hispanics (6.7%).

The same set of crosstabulations was conducted for the service dimensions (*response time*, *competence*, *courteous*, *fairness*, and *problem solving*) are shown in Tables B121-B155. The grades were consistent and very high across all the subgroups. All the grades were in the A range except for B+ grades given in a very low sample size subgroup (n=1).

Parks & Recreation and Cultural Programs

A series of eight questions in the survey specifically examined Parks & Recreation and Cultural programs. Initially, the respondents were asked if they had participated in a Parks & Recreation program and to name the program(s) in which they were involved and the location. The respondents were subsequently asked to rate various aspects of the program(s) including *program quality*, *facility quality*, *cost or fee*, *overall experience*, *ease of registration*, and *instructor quality*. Again, the same 9-point grading scale from very poor (1) to excellent (9) was utilized.

The results showed that 29.5% or 118 of the respondents (27.9% in 2014) indicated someone in their household had participated in a Parks & Recreation or Cultural Program in the past two years. The programs they participated in and locations are shown in Appendix F. The most commonly mentioned programs (in order) were Lazy Daze, festivals/events, basketball, senior citizen activities, camps, baseball/t-ball/softball, tennis, and art/art classes.

The ratings for the six service dimensions examined for the Parks & Recreation and Cultural programs are shown in Tables 24-29 (placed in descending mean order). This year, the service dimensions continued to receive high marks. However, five of the six means decreased slightly this year; although, none of the decreases were statistically significant. The mean decreases resulted in the grades declining for *facility quality* (A to A-), *ease of registration* (A to A-), *program quality* (A to A-), and *cost or amount of fee* (A- to B+). The grade for *overall experience* remained unchanged at A- with a slight mean decrease. *Instructor quality* was the highest rated of the service dimensions with a slight mean increase while the grade was unchanged (A-). Overall even with the decline, the marks for Parks & Recreation remain excellent with five A- grades and one B+ grade.

Parks & Recreation Crosstabulations

The crosstabulations (age, education, gender, housing type, income, race, and years in Cary) for participation in Parks & Recreation programs are shown in Tables B156-B162 in Appendix B. The highest levels of participation (in order) were for PhD/JD/MD degrees (57.1%), over \$150,000 income level (38.9%), college degrees (34.2%), Hispanics (33.3%), and over 10 year residents (33.3%). The lowest levels of participation were for Cary natives (8.6%), other races (10.0%), and 0-\$45,000 income level (14.8%). The grades for all the six service dimensions (*instructor quality, overall experience, facility quality, ease of registration, program quality, and cost or amount of fee*) were high and consistent across the subgroups with no grades in the C range (Tables B163-B204).

Cary Overall as a Place to Live

The respondents were asked to rate Cary overall as a place to live using a 9-point scale from very undesirable (1) to very desirable (9). Table 30 indicates that Cary was perceived as a very good place to live. Although not in a traditional grading scale format, if the mean (8.11) were converted to a grade, then the rating would remain a very strong A- this year. This year 97.6% (97.5% in 2014) were on the “desirable” side of the scale (above 5). More telling was the fact that only 0.6% of the responses were on the “undesirable” side (below 5). Note that the mean this year of 8.11 was a slight decrease from 8.23 in 2014. Although this mean decrease was not statistically significant, it represented the third consecutive survey that the mean for Cary as a place to live has declined. To gather more insight into any lower ratings, the respondents who answered with a rating below 5 were asked the reason for the low rating. There were only two individuals who made comments. Their remarks were too much traffic and it is a little expensive to live in Cary.

Cary Overall as a Place to Live Crosstabulations

Crosstabulations for Cary as a place to live were conducted on age, education, gender, housing type, income, race, voter status, voted in 2015 local elections, and years in Cary (Tables B205-B213) in Appendix B. The means were consistent and high across all the subgroups with the lowest mean for all the subgroups was 7.57 (B) for Cary natives.

Quality of Life in Cary

The perception of the quality of life in Cary over the past two years was assessed with a 5-point scale. The response categories for this question were much worse (1), somewhat worse (2), the same (3), somewhat better (4), and much better (5).

Overall, a large proportion of the respondents (68.1%) perceived the quality of life in Cary as the “same” over the past two years (Table 31). The mean has decreased slightly this year from 3.23 to 3.16 which was not statistically significant. Keep in mind, higher means (above 3.00) indicate perceptions of an improvement in the quality of life. Note the percentage on the “better” side (above the midpoint of 3) of the scale exceeded the percentage on the “worse” side (below 3) 22.9% to 8.9% (Figure 7). This better/worse percentage in 2014 was 25.7% to 7.9% illustrating the reason for the slight decline this year. To gain more insight into those giving lower ratings, the respondents who answered with a rating below 3 were asked the reason for the low rating (Appendix G). There were 51 total comments and the primary reasons for lower quality of life ratings were traffic (12 comments), crime (11 comments), overdevelopment (5 comments), road construction/maintenance (4 comments), growth issues (3 comments), taxpayer money wasted (2 comments), and overcrowded (2 comments). The major changes from 2014 was for traffic which increased from 3 to 12 comments and crime which increased from 2 to 11 comments.

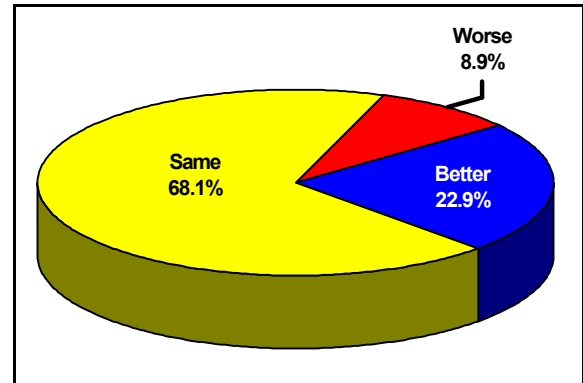

Figure 7. Quality of Life.

Quality of Life Crosstabulations

The crosstabulations for age, education, gender, housing type, income, race, voter status, voted in 2015 local elections, and years in Cary are shown in Tables B214-B222 in Appendix B. The highest means (getting better) were other races (3.50) and other housing dwellers (3.40), but the sample sizes were only 10 for both. Other higher means were African-Americans (3.31), 18-25 age group (3.30), 6-10 year residents (3.28), and \$45,001-\$100,000 income level (3.26). The lowest means (getting worse) were for Hispanics (2.93) and 0-1 year residents (2.94) which were the only means below 3.00. In the 31 crosstabulations conducted this year, the “better” percentages exceeded the “worse” percentages in 29 breakouts. The only exceptions were for 0-1 year residents and Hispanics.

Most Important Issue Facing Cary

An open-ended question asked respondents what they feel is the most important issue facing the Town of Cary (Appendix H). The responses show that problems related to growth were again perceived as the key issue. There were 81 comments concerning controlling growth. In addition, there were other growth-related issues of overdevelopment (21 comments) and overpopulation (24 comments). This resulted in 126 total comments directly related to the growth issue. The key concerns besides growth were traffic/improving roads (64 comments), crime/safety (34 comments), schools (31 comments), and infrastructure concerns (17 comments). There were also 64 none/no issues/can't think of any issues comments and 15 not sure comments. These responses have a positive component considering that major issues did not come to mind immediately.

For a comparison basis, the most important issues in 2014 were growth issues (151 comments), traffic/improving roads (76 comments), school issues (41 comments), and revitalizing downtown (18 comments).

In summary, growth continued to be the most important issue but has decreased somewhat in importance since 2014. The number of comments declined from 151 to 126. Traffic/improving roads remained second but it has declined slightly in importance from 76 to 64 comments. Schools now rank fourth (third in 2014) also with slightly less overall comments declining from 41 to 31 comments over the two-year survey window. The biggest change was in the growing concern for crime/safety with 34 comments up from 12 comments in 2014. This now ranks third moving up from sixth. Infrastructure concerns moved into the top five issues this year as revitalizing downtown drops out.

How Safe Residents Feel in Cary

The survey included a set of three questions that examine the respondent’s perceptions of safety in Cary overall, in their home neighborhood, and around public places in Town. The respondents were first asked how safe they feel in the Town of Cary overall. A 9-point scale that ranged from extremely unsafe (1) to extremely safe (9) was utilized. The results indicate the respondents perceived a very high level of safety in the Town overall (Table 32). The mean was 8.06 with an impressive 96.0% responding on the “safe” side (above 5) of the scale including 45.1% who answered they felt “extremely safe”. There was only 1.1% on the “unsafe” side (below 5) of the scale (Figure 8). The mean decreased slightly from 8.15 in 2014. Although the mean was a solid rating for safety in Cary overall this year, it should be noted this represented the third consecutive survey this mean has declined.

Figure 8. Safe in Cary Overall.

Table 32. How Safe Do You Feel in Cary Overall.

Year	Mean	Extremely Unsafe 1	2	3	4	Average 5	6	7	8	Extremely Safe 9	% Above 5
16	8.06	0.5	0.0	0.3	0.3	3.0	5.0	14.8	31.1	45.1	96.0
14	8.15	0.3	0.0	0.5	0.0	2.5	2.0	12.6	39.2	43.0	96.8
12	8.22	0.0	0.0	0.3	0.3	0.8	2.5	15.9	32.7	47.6	98.7
10	8.29	0.0	0.0	0.0	0.0	1.2	0.7	12.0	39.4	46.6	98.7
08	8.09	0.0	0.2	0.0	0.2	1.2	1.7	19.5	38.5	38.5	98.2
06	8.10	0.0	0.0	0.0	0.5	2.0	2.2	17.3	38.6	39.4	97.5
04	8.23	0.0	0.0	0.2	0.2	2.0	2.2	12.2	34.0	49.1	97.5
02	7.99	0.0	0.2	0.2	0.0	4.7	2.7	17.0	37.3	37.8	94.8
00	7.93	0.3	0.0	0.0	0.3	2.0	4.0	22.5	39.0	32.0	97.5
98	7.55	0.0	0.0	1.0	0.8	2.5	8.8	30.7	37.5	18.6	95.6

The respondents were next asked how safe they feel in their home neighborhood (Table 33). The perception of safety was even higher in their home neighborhoods with a mean of 8.37. There were 97.5% responding on the “safe” side of the scale including 58.6% responding they felt “extremely safe”. The “unsafe” side of the scale garnered only 0.5% of the responses (Figure 9). The perception of respondent safety in their home neighborhood was virtually the same as it was in 2014 with a very slight increase from 8.36. This year’s mean represents the third highest mean earned by the Town for how safe respondents felt in their home neighborhood.

Figure 9. Safe in Home Neighborhood.

Table 33. How Safe Do You Feel in Your Home Neighborhood.

Year	Mean	Extremely Unsafe 1	2	3	4	Average 5	6	7	8	Extremely Safe 9	% Above 5
16	8.37	0.5	0.0	0.0	0.0	2.0	3.3	5.8	29.8	58.6	97.5
14	8.36	0.5	0.0	0.0	0.5	2.5	2.0	5.0	31.2	58.3	96.5
12	8.38	0.3	0.0	0.8	0.5	1.0	1.5	9.3	25.9	60.7	97.4
10	8.41	0.0	0.0	0.0	0.2	1.5	1.0	7.2	34.2	55.9	98.3
08	8.29	0.0	0.0	0.0	0.0	0.7	2.7	11.1	37.3	48.1	99.2
06	8.22	0.2	0.0	0.2	1.0	1.5	1.5	13.2	33.1	49.3	97.1

Finally, the respondents were asked about how safe they feel in public places around Cary. This would include such activities as shopping, eating out, or going to the movies (Table 34). This year, the mean was 7.89 with 93.5% responding on the “safe” side of the scale including 41.1% in the “extremely safe” category. There were only 0.8% on the “unsafe” side (Figure 10). This mean has increased slightly from 2014 when it was 7.87. The mean last year was the lowest one earned by the Town for safety since it was first measured in 2006. Worth noting was the relatively large increase in the percentage of respondents indicating they felt “extremely safe” from 34.9% to 41.1% this year. In summary, the respondents felt very safe in all areas of Cary including overall in Cary, their neighborhood, and in public places. Although crime and safety were mentioned more often when respondents were asked the most important issue facing Cary, the respondents still felt a high degree of safety throughout Cary.

Figure 10. Safe in Public Places.

Table 34. How Safe Do You Feel in Public Places Around Cary (Shopping, Out to Eat, Movies).

Year	Mean	Extremely Unsafe 1	2	3	4	Average 5	6	7	8	Extremely Safe 9	% Above 5

06	7.90	0.0	0.3	0.3	0.5	3.0	4.8	21.5	35.5	34.3	96.1

How Safe Residents Feel in Cary Crosstabulations

Crosstabulations for this set of questions were conducted for age, education, gender, housing type, income, race, and years in Cary. The breakdowns for how safe the respondents feel in Cary overall are shown in Tables B223-B229 in Appendix B. The means for the subgroups were generally high and consistent. Even the lowest perceptions of safety were quite high and these were for 0-1 year residents (7.53), other races (7.80), and Asians (7.89). The highest means were for other housing dwellers (8.40), apartment dwellers (8.36), 2-5 year residents (8.27), and Cary natives (8.26). The crosstabulations for how safe respondents feel in their home neighborhoods are shown in Tables

B230-B236. These means were also very high and consistent. The lowest mean was for 0-1 year residents (7.82) and this was the only mean below 8.00. The highest means were for other housing dwellers (8.90), Cary natives (8.66), townhouse/condo dwellers (8.65), and African-Americans (8.60). Finally, the crosstabulations for how safe respondents feel in public places around Cary are shown in Tables B237-B243. The means were generally high for most of the breakdowns. The lowest means were given by 0-1 year residents (7.65) and Asians (7.69). The highest means were from 2-5 year residents (8.26), apartment dwellers (8.25), African-Americans (8.12), other housing dwellers (8.10), and \$45,001-\$100,000 income level (8.09). These were the only means over 8.00.

Cary Municipal Tax Rate

The survey examined Cary’s municipal tax rate of 37 cents per \$100 of property valuation as compared to other localities (Charlotte, Raleigh, and Durham). A 5-point scale was employed using the response categories of very low (1), somewhat low (2), about right (3), somewhat high (4), and very high (5).

The results for the total sample are illustrated in Table 35. A majority (58.7%) of the respondents felt that the tax rate was “about right” in Cary. This percentage has decreased from 66.9% in 2014. Questions such as this will tend to have a slight skewing to the higher side because these questions are often perceived as a potential justification for a tax increase. However, there was more skewing this year as the mean increased from 3.27 to 3.36 indicating more respondents perceived the taxes were on the higher side of the scale. What drove this mean increase was the percentage of responses on the “high” side (above 3) rose from 26.7% to 35.6% while the percentage on the “low” side (below 3) fell from 6.4% to 5.7% (Figure 11). Although the “high” side rose this year, most of the change was in the “somewhat high” category which increased from 19.1% to 28.3% while the “very high” category actually decreased from 7.6% to 7.3% this year.

Figure 11. Municipal Tax Rate.

Cary Municipal Tax Rate Crosstabulations

The crosstabulations for Cary municipal tax rate were conducted on age, education, gender, housing type, income, race, voter status, voted in 2015 local elections, and years in Cary (Appendix B). As for the perceptions of the municipal tax rate (Tables B244-B252), the subgroups who perceived the tax rate on the higher side (i.e., highest means) were Asians (3.66), over 65 age group (3.48), high school/some college (3.47), and 0-\$45,000 income level (3.47). The subgroups who perceived the tax rate on the lower side were 0-1 year residents (3.13), over \$150,000 income level (3.19), other races (3.20), college degrees (3.28), and \$100,001-\$150,000 income level (3.28).

Barriers to Citizen Involvement

The survey included a set of questions designed to examine nine barriers to the respondent’s involvement in Town government. The scaling utilized ranged from not a barrier at all (1) to very significant barrier (9). In this instance, a higher mean indicates the source would be more of a barrier to citizen involvement.

Table 36 shows that the most significant overall barrier continued to be *too busy – don’t have time* with a mean of 4.75 with 43.7% of the responses on the “barrier” side (above 5) of the scale. Even though it was the most important barrier to citizen involvement, there were still 45.7% of the responses on the side of “not a barrier” (below 5). There were two other key barriers to involvement including *don’t know about the opportunities* (4.14 with 37.3% on the “barrier” side) and *timing is inconvenient* (3.32 with 22.8% on the “barrier” side). These three represent the most important barriers compared to the other ones examined. In addition, these barriers were the only means above 3.00.

Several other potential barriers were much less significant hindrances to involvement including *topics don’t interest me* (2.87), *issues don’t affect me* (2.71), *don’t feel qualified to offer input* (2.26), *don’t understand government processes* (2.03), *waste of time – one person cannot make a difference* (2.00), and *don’t have transportation* (1.34).

Overall, there have been no changes in the ordering since 2014 (Table 37). The top three barriers of *too busy – don’t have time*, *don’t know about the opportunities*, and *timing is inconvenient* continued to be the strongest barriers while the bottom six remained relatively insignificant barriers as evidenced by their means. One difference from 2014 was that the means for the top three barriers have decreased somewhat indicating they were less of a barrier this year. The means for the other barriers have increased indicating they serve as more of a barrier this year. The only exception was *don’t have transportation* which decreased slightly.

Barriers to Involvement Crosstabulations

Crosstabulations for the barriers to involvement in Town government were conducted on age, education, gender, housing type, income, race, and years in Cary. The breakdowns are shown in Tables B253-B259 of Appendix B. Instead of examining each demographic variable separately, it would be more informative to examine each barrier in terms of its rating in each of the 26 subgroups with sample sizes of 10 or greater. The information sources will be discussed in order of overall ranking by the total sample.

Too busy, don't have time was ranked as the top barrier to involvement rating 1st in 24 of 26 subgroups (with sample sizes of 10 or more). The barrier ranking second overall was *don't know about opportunities*. This barrier rated 2nd in 20 of the subgroups and rated as high as 1st for Hispanics and other housing dwellers. *Timing is inconvenient* generally ranked third for the total sample and did so in 17 of the subgroups. Its highest rating was 2nd for 18-25 age group, apartment dwellers, 0-\$45,000 income level, 2-5 year residents, and other housing dwellers. *Topics don't interest me* was ranked fourth overall and did so in 19 of the 26 subgroups and its highest rating was 3rd for 56-65 age group, over 10 year residents, and Hispanics.

The impact of the remaining barriers was more limited. None of these finished in the top three barriers for any of the subgroups. *Waste of time – one person cannot make a difference* and *don't have transportation* generally rated at the bottom in most of the subgroups.

Information Sources

The survey examined the respondent's usage of 20 information sources that Cary employs to communicate with its citizens. A 9-point scale was used that ranged from never use (1) to frequently use (9). Table 40 indicates the most frequently used information sources this year in order were word-of-mouth (6.63), BUD (5.30), Cary's website (5.27), Cary News (4.54), television (4.18), Raleigh News & Observer (3.94), Cary's Citizen website (3.54), and radio (3.10). These were the only information sources with a mean above 3.00.

The lesser used information sources with means between 2.00 and 3.00 were Facebook (2.93), Cary email list services (2.67), Parks & Recreation Brochure (2.42), Cary TV Channel 11 (2.34), and Homeowner's Association (2.28). The lowest used information sources of those examined were Independent Weekly (18th), YouTube (19th), and Instagram (20th).

There were changes within the usage of the top ten information sources from 2014 (Table 41). While the top information source remained word-of-mouth, Cary News dropped from 2nd to 4th this year. Other information sources declining in the ratings were television (3rd to 5th), Raleigh News & Observer (5th to 6th), and radio (7th to 8th). BUD moved up in the rankings replacing Cary News and is now the 2nd most used information source moving from 4th. Other information sources moving up in the rankings included Cary's website (6th to 3rd), Cary's Citizen website (7th from 9th), Facebook (12th to 9th), and Cary's email list services (13th to 10th). Note that the traditional media sources of television, radio, and newspapers continue to show a decline while social and online media gain importance.

Of the new information sources included this year, LinkedIn ranked the highest at 14th, Nextdoor ranked 16th, while Instagram ranked last overall or 20th. Tables 41-49 show all the information sources' usage in previous years.

The survey also examined the respondent’s potential usage of four new media sources to communicate with citizens (Table 50). The new media sources examined included Tumblr, Pinterest, Reddit, and Snapchat. It would appear that Pinterest (2.12) and Snapchat (1.90) have the most potential as an information source. There were 6.8% of the respondents who indicated they would “frequently use” Pinterest and 5.8% would “frequently use” Snapchat. There would be more limited use of Reddit and Tumblr. Tables 51-53 shows new media sources from previous years.

Information Sources Crosstabulations

Crosstabulations for the information sources were conducted on age, education, gender, housing type, income, race, voter status, voted in 2015 local elections, and years in Cary are shown in Appendix B (Tables B260-B268). Instead of examining each demographic variable separately, it would be more informative to examine where each information source was effective in the 30 subgroups with sample sizes of 10 or greater. The information sources will be discussed in order of overall ranking by the total sample. To avoid confusion, overall rankings by the total sample are written out (such as ninth) and rating in the subgroups are numerical (such as 9th).

The two top information sources were the word-of-mouth and BUD. Word-of-mouth was the most effective of all the information sources. It rated 1st in 27 of the 30 subgroups indicating its very strong impact. BUD was the second most used information source ranking slightly higher than Cary's website. This source rated 1st in only two of the subgroups (\$100,001-\$150,000 income level and Cary natives) but rated 2nd in 10 subgroups and 3rd in 11 others. Cary's website was the third most effective information source rating 2nd in 15 of the subgroups and 3rd in 8 others. It did not rank 1st for any subgroup.

The next most effective source was the Cary News ranking fourth overall. While this source did not rate 1st in any of the subgroups, it was notable that it ranked 2nd for the over 65 age group and 3rd for several subgroups including the 56-65 age group, high school/some college, 0-\$45,000 income level, \$100,001-\$150,000 income level, nonregistered voters, and Cary natives. Ranking fifth this year was television. It was most effective for Cary natives (1st), other housing dwellers (1st), PhD/MD/JD degrees (2nd), 0-\$45,000 income level (2nd), and apartment dwellers (3rd).

The Raleigh News & Observer ranked sixth overall. This source rated 6th in 12 subgroups and its highest level of impact was 3rd for other housing dwellers and 5th in 7 others (over 65 age group, males, single family households, \$100,001-\$150,000 income level, African-Americans, Asians, and over 10 year residents). Cary Citizen Website ranked seventh this year. This information source rated as high as 3rd for 2-5 year residents and 5th for apartment dwellers. Radio was ranked eighth overall and its greatest impact was 4th for 18-25 age group and 0-1 year residents while rating 6th for apartment dwellers.

Facebook was ranked ninth overall and its most significant impact was rating as high as 3rd for the 18-25 age group and 0-1 year residents. It also rated 4th for apartment dwellers and 5th for 2-5 year residents. Cary Email List Services was tenth overall this year and it was most effective for certain subgroups rating as high as 7th (Hispanics) and 8th (over \$150,000 income level and over 10 year residents). Parks & Recreation Brochure was the eleventh ranked information source for the total sample. This source had a slightly more pronounced impact on the over 10 year residents rating 9th and it rated 10th for PhD/JD/MD degrees, \$45,001-\$100,000 income level, and Asians.

Cary TV 11 was ranked twelfth overall and its strongest impact was for other housing dwellers (6th), over 65 age group (7th), 56-65 age group (9th), and Cary natives (9th). Homeowner's Associations ranked thirteenth this year and its highest rating was for the 65 and over age group (9th), over \$150,000 income level (10th), and 0-1 year residents (10th). The fourteenth ranked information source was LinkedIn. This source rated highest with other housing dwellers (9th), nonregistered voters (10th), and 2-5 year residents (10th). It also ranked 11th for apartment dwellers, townhouse/condo dwellers, 0-\$45,000 income level, and African-Americans.

The Block Leader Program was ranked fifteenth and rated as high as 12th to as low as 20th in the subgroups. The highest impact was for Cary natives (12th) while rating 13th for over 65 age group, PhD/MD/JD degrees, and \$45,001-\$100,000 income level. Nextdoor ranked sixteenth overall and its greatest impact was with the 18-25 age group (11th), nonregistered voters (11th), and Asians (12th). Twitter was ranked next at seventeenth and its highest rating was for the 18-25 age group (10th). It also rated 12th for apartment dwellers, 0-\$45,000 income level, Hispanics, and other housing dwellers.

Independent Weekly was ranked eighteenth this year and generally fell between 16th to 20th in the subgroups. The biggest impact was for PhD/MD/JD degrees (13th), 56-65 age group (14th), and 0-1 year residents (14th). YouTube was ranked next to last or nineteenth of the information sources examined. Most of its ratings were from 17th to 20th overall. However, it rated as high as 13th for apartment dwellers, nonregistered voters, 0-\$45,000 income level, and 2-5 year residents. Finally, Instagram was ranked last among the information sources this year. However, it had a surprisingly higher level of impact on 0-1 year residents (11th), nonregistered voters (12th), other housing dwellers (12th), and 0-\$45,000 income level (14th).

The crosstabulations for new media sources are shown in Tables B269-B277 broken down by age, education, gender, housing type, income, race, voter status, voted in 2015 local election, and years in Cary. In this case, means will be examined instead of placement or rankings per subgroup because there was minimal usage of any of these new media sources in some of the subgroups. Pinterest was ranked first among the new media sources overall. The subgroups with the highest potential usage (highest means) were townhouse/condo dwellers (3.41), other housing dwellers (3.40), African-Americans (3.34), and 2-5 year residents (3.06). Snapchat was ranked second among the new media sources. The highest potential usage for this source was from African-Americans (3.42), other housing dwellers (3.40), 18-25 age group (3.36), and apartment dwellers (3.12). Reddit was ranked third overall and the highest potential usage was from other housing dwellers (3.00), apartment dwellers (2.64), African-Americans (2.61), and nonregistered voters (2.50). Finally, the new media source Tumbler ranked last. The highest potential usage for this sources was among other housing dwellers (3.00), apartment dwellers (2.51), African-Americans (2.51), nonregistered voters (2.38), and townhouse/condo dwellers (2.37).

Cary's Efforts at Keeping Residents Informed and Involved in Decisions

A set of three questions examined information dissemination and opportunities for involvement in decision making. The respondents were first asked *how informed they feel about Town services, issues, and programs that affect them* using a 9-point rating scale ranging from not at all informed (1) to very well informed (9). Table 54 indicates the respondents felt well informed about the matters that affect them. The mean was 6.68 with 70.9% on the “informed” side of the scale (above 5) versus only 9.4% on the “uninformed” side or below 5 (Figure 12). The mean has increased this year from 6.52 in 2014. Although the percentages on the “uninformed” side grew from 6.8% to 9.4%, the overall mean increase was driven by the growth in the “very well informed” responses from 13.1% to 20.3% this year. The respondent’s comments when deciding on their rating are shown in Appendix I. There were 39 total comments and 19 involved the respondent not actively seeking Town related information which certainly contributes to some of the respondents not feeling informed. There were 7 other comments focusing on the respondent’s general perception of not feeling very well informed.

Figure 12. Informed About Government Services.

Table 54. How Informed Respondents Feel About Government Services, Projects, Issues, and Programs That Affect Them.

Year	Mean	Not At All Informed 1	2	3	4	Average 5	6	7	8	Very Well Informed 9	% Above 5
16	6.68	2.8	1.3	2.5	2.8	20.0	10.3	21.5	18.8	20.3	70.9
14	6.52	1.3	1.0	3.5	1.0	24.9	13.8	22.6	18.8	13.1	68.3
12	6.88	1.8	1.5	3.0	2.3	15.5	9.0	25.5	18.8	22.8	76.1
10	6.59	1.8	1.3	4.3	3.8	20.0	12.0	20.0	18.5	18.5	69.0
08	6.09	2.2	2.7	4.2	7.5	21.6	13.9	26.4	10.7	10.7	61.7
06	5.78	4.6	4.3	5.8	6.8	23.5	13.2	20.0	12.4	9.4	55.0
04	6.63	2.1	1.6	2.6	5.7	18.8	11.5	21.9	12.2	23.7	69.3
02	5.73	5.0	3.0	6.7	5.7	24.1	15.7	22.4	9.0	8.5	55.6

The respondents were next asked their level of satisfaction with *Cary making information available to them concerning Town services, projects, issues, and programs*. A 9-point rating scale from very dissatisfied (1) to very satisfied (9) was used. Table 55 indicates a high degree of satisfaction with Cary’s efforts with a mean of 7.33. This mean has increased from 7.07 in 2014 and this increase was statistically significant. There were 83.6% on the “satisfied” side of the scale with only 3.0% on the “dissatisfied” side (Figure 13). Note that the percentages on the “satisfied” side increased from 78.2% to 83.6%,

Figure 13. Cary Making Information Available.

while the percentages on the “dissatisfied” side have decreased from 4.6% to 3.0%. This year’s mean of 7.33 ties for the highest mean earned by the Town in 2012. The respondent’s comments when they decided on their rating are shown in Appendix J. There were 19 total comments and the most common was the respondent has not seen any information (8 comments) and they suggested to contact them through homeowner’s associations, mailings, emails, or monthly flyers. There were also 5 comments where the respondent indicated they do not actively seek information.

Table 55. Satisfaction with Cary Making Information Available to Citizens About Important Town Services, Projects, Issues, and Programs.

Year	Mean	Very Dissatisfied 1	2	3	4	Neutral 5	6	7	8	Very Satisfied 9	% Above 5
16	7.33*	1.0	1.0	0.0	1.0	13.5	6.5	22.0	29.3	25.8	83.6
14	7.07	1.3	0.5	1.0	1.8	17.3	10.0	19.3	26.8	22.1	78.2
12	7.33	0.5	0.3	1.8	2.5	14.5	5.0	19.0	27.3	29.1	80.4
10	6.95	0.8	0.8	2.0	1.0	20.1	11.3	22.1	18.6	23.4	75.4
08	6.87	0.7	0.0	2.7	2.7	15.9	12.9	27.1	20.4	17.4	77.8
06	6.63	2.1	1.0	0.8	2.6	19.5	13.8	28.7	19.2	12.3	74.0
04	7.15	0.8	1.0	2.1	2.1	14.1	12.6	18.7	17.4	31.3	80.0
02	6.27	2.7	1.2	2.5	7.9	22.6	11.2	24.3	15.9	11.7	63.1

Finally, the respondents were asked to rate their satisfaction with the *opportunities the Town gives them to participate in the decision-making process*. The same 9-point satisfaction rating scale was used. Table 56 shows a mean of 6.67 this year with 69.2% on the “satisfied” side of the scale and only 6.2% on the “dissatisfied” side (Figure 14). This mean has increased from 6.56 in 2014. Driving the change this year was the growth of “very satisfied” responses (13.5% to 19.3%) and the decrease in “neutral” responses (30.6% to 24.8%). Appendix K shows the respondent’s comments when deciding on their rating. There were 26 total comments including the respondent unaware of the opportunities (12 comments), don’t stay informed/choose not to participate (6 comments), and Town already made up its mind/will not listen to citizens (3 comments).

Figure 14. Opportunities to Participate in Decision Making.

Table 56. Satisfaction with Opportunities the Town Gives to Participate in the Decision Making Process.

Year	Mean	Very Dissatisfied 1	2	3	4	Neutral 5	6	7	8	Very Satisfied 9	% Above 5
16	6.67	3.3	0.8	1.3	0.8	24.8	8.5	24.1	17.3	19.3	69.2

Resident Informed and Involved Crosstabulations

The crosstabulations on how informed respondents feel about government projects, issues, and programs are shown in Tables B278-B286. Breakdowns were performed on age, education, gender, housing type, income, race, voter status, voted in 2015 local elections, and years in Cary (Appendix B). Overall, there was a relatively high degree of consistency across the subgroups. Those who felt the most informed about government projects, issues, and programs were Cary natives (7.97), other races (7.40), 56-65 age group (7.20), townhouse/condo dwellers (7.19), and voters in the 2015 local elections (7.16). The subgroups who felt less informed (lower means) were 0-1 year residents (5.35), 18-25 age group (6.12), apartment dwellers (6.18), and nonvoters in 2015 local elections (6.25).

The crosstabulations for satisfaction with making information available to citizens about important Town services, projects, issues, and programs are shown in Tables B287-B295. Again, the means were relatively consistent across subgroupings. The most satisfied were Cary natives (8.14), voters in the 2015 local elections (7.63), \$45,001-\$100,000 income level (7.55), over 65 age group (7.55), townhouse/condo dwellers (7.50), other races (7.50), and over \$150,000 income level (7.50). The respondents somewhat less satisfied (lower means) with Cary making information available were 0-1 year residents (5.82), nonregistered voters (6.91), and 2-5 year residents (6.96). These were the only means below 7.00.

The crosstabulations for satisfaction with opportunities for residents to participate in the decision-making process are shown in Tables B296-304. The most satisfied with the participation opportunities were Cary natives (7.83), townhouse/condo dwellers (7.15), \$45,001-\$100,000 income level (7.10), and voters in 2015 local elections (7.03). Those least satisfied were 0-1 year residents (5.41), nonregistered voters (6.19), and PhD/MD/JD degrees (6.21).

Solid Waste Services

A set of questions was included in the survey to examine the respondent’s satisfaction with four curbside solid waste collection services. The services examined include *curbside recycling collection*, *curbside garbage collection*, *curbside yard waste collection*, and *curbside loose leaf collection*. A 9-point scale from very dissatisfied (1) to very satisfied (9) was used to rate these collection services. The solid waste services are discussed in order of ratings from highest to lowest in order of means.

The results indicate the respondents continue to be very satisfied with *curbside garbage collection*. The mean this year was 8.38. This represents a slight decline from 8.41 in 2014 (Table 57). Even with the decline, this mean represents the fourth highest rating earned by the Department. Figure 15 shows the percentages on the “satisfied” side (above 5) of the scale were 97.0% which is a slight decline from 97.6% in 2014. There were only 1.3% on the “dissatisfied” side (below 5), up from 0.3. If this mean were converted into a grade, then curbside garbage collection would continue to earn the same A- grade as in 2014.

Figure 15. Garbage Collection Satisfaction.

Table 57. Satisfaction with Curbside Garbage Collection (n=380).

Year	Mean	Very Dissatisfied 1	2	3	4	Neutral 5	6	7	8	Very Satisfied 9	% Above 5
16	8.38	0.0	0.5	0.5	0.3	1.6	1.4	6.8	29.6	59.2	97.0
14	8.41	0.0	0.0	0.3	0.0	2.1	1.6	9.7	25.0	61.3	97.6
12	8.46	0.3	0.3	0.3	0.0	0.8	2.9	6.7	23.5	65.3	98.4

06	7.61	3.8	1.2	1.5	0.3	4.7	5.0	14.0	28.4	41.2	88.6
04	7.91	1.2	1.8	1.5	1.8	4.6	2.1	8.3	26.3	52.3	89.0

The Town continues to earn very good marks for *curbside yard waste collection*. The mean has increased this year from 8.19 to 8.32 (Table 58). This mean represents the second highest mean earned for this collection service by the Town. Figure 16 shows there were 95.9% of the respondents on the “satisfied” side of the scale up from 94.8% in 2014. The percentages on the “dissatisfied” side fell from 2.5% to only 1.5% this year. If the yard waste collection mean were converted to a grade, then it would translate to a grade of A- which is the same as the grade earned in 2014.

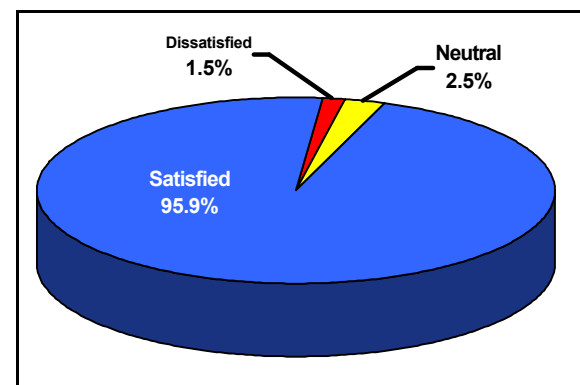

Figure 16. Yard Waste Collection Satisfaction.

Table 58. Satisfaction with Curbside Yard Waste Collection (n=320).

Year	Mean	Very Dissatisfied 1	2	3	4	Neutral 5	6	7	8	Very Satisfied 9	% Above 5
16	8.32	0.3	0.6	0.3	0.3	2.5	0.9	9.4	25.7	59.9	95.9
14	8.19	0.3	1.3	0.3	0.6	2.8	3.8	10.0	22.2	58.8	94.8
12	8.25	0.0	0.3	0.0	0.3	3.0	3.4	11.1	26.9	54.9	96.3

06	7.65	1.3	1.0	1.3	1.3	5.3	5.6	19.6	24.9	39.5	89.6
04	7.72	1.4	0.6	1.4	2.0	5.2	8.0	12.9	23.2	45.3	89.4

The respondents indicated that *curbside loose leaf collection* has improved to a large degree in 2014. The mean increased from 8.11 to 8.24 this year (Table 59). This was the second consecutive increase for a service that has generally ranked last among all services in the past. In addition, this mean represents the highest earned for this service by the Town. There were 94.6% on the “satisfied” side of the scale up from 93.2% and only 2.6% on the “dissatisfied” side down from 2.9% (Figure 17). If this mean were converted into a grade, then it would earn the mark of an A- again this year.

Figure 17. Loose Leaf Collection Satisfaction.

Table 59. Satisfaction with Curbside Loose Leaf Collection (n=310).

Year	Mean	Very Dissatisfied 1	2	3	4	Neutral 5	6	7	8	Very Satisfied 9	% Above 5
16	8.24	0.3	0.7	0.3	1.3	2.7	2.0	8.6	25.9	58.1	94.6
14	8.11	0.6	1.0	1.0	0.3	3.9	3.5	10.3	22.6	56.8	93.2
12	7.95	0.4	0.7	0.4	1.4	5.1	5.8	12.6	24.9	48.7	92.0

06	7.49	0.9	0.9	4.7	2.3	4.7	5.1	16.3	20.5	44.7	86.6
04	7.40	1.9	1.9	1.6	2.3	6.1	9.4	16.2	24.6	35.9	86.1

The respondent’s level of satisfaction with *curbside recycling collection* was approximately the same as it was in 2014. The mean was 8.11 this year versus 8.12 two years ago (Table 60). Although down slightly, this rating represents the fourth highest overall mean earned for this service. There were 93.3% of the responses on the “satisfied” side of the scale versus only 3.3% on the “dissatisfied” side (Figure 18). If converted to a grade, then the grade for curbside recycling collection would have been in the A- range which is the same as 2014.

Figure 18. Recycling Collection Satisfaction.

Table 60. Satisfaction with Curbside Recycling Collection (n=373).

Year	Mean	Very Dissatisfied 1	2	3	4	Neutral 5	6	7	8	Very Satisfied 9	% Above 5
16	8.11	0.3	0.6	1.8	0.6	3.6	3.6	9.8	24.3	55.6	93.3
14	8.12	0.5	0.0	1.1	0.3	4.0	3.8	12.3	23.9	54.2	94.2
12	8.24	0.3	0.8	0.3	0.5	3.5	2.7	10.4	21.1	60.4	94.6
10	8.37	0.5	0.0	0.5	0.3	3.8	2.4	7.2	17.7	67.6	94.9
08	7.74	0.8	1.6	1.3	1.9	4.3	5.1	16.7	24.7	43.5	90.0
06	7.56	3.3	0.9	0.6	1.2	6.3	6.9	15.1	25.3	40.4	87.7
04	7.88	1.8	0.9	1.2	0.6	4.9	5.2	12.5	20.2	52.6	90.5

In summary, the curbside collection of Solid Waste Services continued to earn very good marks. The means improved for *curbside yard waste collection* and *curbside loose leaf collection*. While the means decreased slightly for *curbside garbage collection* and *curbside recycling collection*. The grades for all the collection services remained at the A- level this year.

Solid Waste Services Crosstabulations

Crosstabulations were conducted for age, housing type, and years in Cary for the set of solid waste curbside services (Appendix B). The crosstabulations for *curbside garbage collection* are shown in Tables B305-B307. The only lower mean was for 0-1 year residents (7.93) which would be equivalent to a B+ and this was the only mean below 8.00. *Curbside yard waste collection* crosstabulations are shown in Tables B308-B310. There were no means below 8.00 in subgroups with sample sizes of 10 or greater. The crosstabulations for *curbside loose leaf collection* are shown in Tables B311-B313. The means were all relatively consistent and high with no grades below 8.00 in subgroups with sample sizes of at least 10. Finally, the crosstabulations for *curbside recycling collection* are shown in Tables B314-B316. There were only two means below 8.00 for this service and these were 0-1 year residents (6.62) and 6-10 year residents (7.90). The equivalent grades would be C and B+, respectively. Overall, the ratings for the curbside services were very good with two of the lower means for *curbside garbage* and *recycling collection* from newer residents.

Town Council Focus Areas

The survey included several questions examining specific focus areas of the Town Council. The respondents were asked to rate their satisfaction with the Town’s efforts in several focus areas including *environmental protection; keeping Cary the best place to live, work, and raise a family; downtown revitalization; transportation; planning & development; and parks, recreation, & cultural issues*. A 9-point scale from very dissatisfied (1) to very satisfied (9) was used for all the areas examined with the exception of a 9-point effectiveness scale used for *keeping Cary the best place to live, work, and raise a family*. The focus areas are listed in order of mean scores indicating higher levels of satisfaction and/or effectiveness from the respondents.

The job the Town is doing with *parks, recreation, and cultural issues* continued to earn the highest rating of any of the focus areas. The respondents were asked to consider several factors in their rating. These include quality/quantity of existing parks, greenways, and community centers; how close these facilities are located to their home; and planning for building new parks, community centers, greenways, and trails. Table 61 shows the impressive results for the job the Town is doing. The mean was 8.00 with 95.2% on the “satisfied” side of the scale (above 5) while there were only 0.5% of the responses on the “dissatisfied” side of below 5 (Figure 19). This represents a statistically significant mean increase from 2014. One of the key differences is the gain in the respondents who answered they were “very satisfied” increasing from 26.7% to 37.6% this year. Overall, this ranks as the highest overall rating the Town has earned for their efforts with Parks & Recreation, and Cultural Resources.

Figure 19. Satisfaction with Job Town is Doing on Parks & Recreation.

Table 61. Satisfaction with the Overall Job the Town is Doing on Parks, Recreation, and Cultural Resources Issues.

Year	Mean	Very Dissatisfied 1	2	3	4	Neutral 5	6	7	8	Very Satisfied 9	% Above 5
16	8.00*	0.0	0.5	0.0	0.0	4.3	3.0	16.0	38.6	37.6	95.2
14	7.61	0.2	0.5	0.0	0.5	8.2	6.0	21.9	35.9	26.7	90.5
12	7.87	0.5	0.5	0.3	1.0	6.6	4.1	15.0	30.7	41.4	91.2
10	7.68	0.0	0.0	0.3	1.3	9.8	4.0	21.0	31.5	32.3	88.8
08	7.46	0.0	0.2	0.0	0.7	11.4	7.7	25.9	27.9	26.1	87.6

The respondents who gave the Town a rating below 5 (“dissatisfied” side) were subsequently asked what actions the Town could take to make them more satisfied with *parks, recreation, and cultural resource issues*. All the comments are shown in Appendix L. This year there were 18 total comments from the respondents. The respondents suggested adding more events (3 comments), adding more parks (3 comments), and 2 comments to improve Lazy Daze including holding it on Sunday or making it a three-day event.

The respondents were also satisfied with the job the Town is doing on issues related to *environmental protection*. They were asked to consider the Town’s environmental efforts such as recycling, open space preservation, water conservation, sustainability, erosion control and litter reduction. The respondents gave the Town high marks with a mean of 7.74. The mean increased from 7.53 in 2014 and the change was statistically significant (Table 62). There were 95.5% of the responses on the “satisfied” side of the scale up from 89.1% with only 1.9% on the “dissatisfied” side (Figure 20). This represents the highest mean earned by the Town for their efforts on *environmental protection*.

Figure 20. Satisfaction with Job Town is Doing on Environmental Protection.

The respondents who gave the Town a rating below 5 were asked what actions the Town could take to make them more satisfied with *environmental protection* (Appendix M). There were 14 total comments with 7 of those focusing on recycling issues (too restrictive and more frequent collection needed) and 2 comments concerning cutting down too many trees.

Table 62. Satisfaction with the Job the Town is Doing on Environmental Protection.

Year	Mean	Very Dissatisfied 1	2	3	4	Neutral 5	6	7	8	Very Satisfied 9	% Above 5
16	7.74*	0.3	0.3	0.8	0.5	2.8	7.2	21.3	40.5	26.5	95.5
14	7.53	0.5	0.5	0.5	1.0	8.5	5.3	22.0	37.5	24.3	89.1
12	7.62	1.3	0.0	0.5	0.8	8.8	5.3	19.4	30.8	33.1	88.6
10	7.67	0.5	0.0	0.8	0.5	7.0	5.3	19.5	39.8	26.8	91.4
08	7.04	1.0	0.0	1.0	1.5	16.6	11.8	25.4	22.4	20.4	80.0

The third highest rated of the focus areas was how effective the Town Council was in *keeping Cary the best place to live, work, and raise a family*. This question did not use the satisfaction rating scale but a 9-point effectiveness scale ranging from very ineffective (1) to very effective (9). The respondents were very positive and supportive of the Town’s efforts with a mean of 7.72 (Table 63). This mean has also increased this year from 7.49 and the change was statistically significant. In addition, this represents the second highest mean earned by the Town. There were 92.3% of the responses on the “effective” side of the scale with only 2.7% on the “ineffective” side (Figure 21).

Figure 21. Effectiveness in Keeping Cary the Best Place to Live, Work, & Raise a Family.

What drove the change this year was the increase in the “effective” side responses (87.1% to 92.3%) and the decrease in the “neutral” responses (10.9% to 5.3%). The respondents who gave the Town a rating below 5 were asked what actions the Town could take to make them more satisfied with *keeping Cary the best place to live, work, and raise a family* (Appendix N). This year there were only 13 comments and the most frequent themes were high cost of living (4 comments) and the need for more citizen input (3 comments).

Table 63. Effectiveness of Town Council in Working to Keep Cary the Best Place to Live, Work, and Raise a Family.

Year	Mean	Very Ineffective 1	2	3	4	Neutral 5	6	7	8	Very Effective 9	% Above 5
16	7.72*	0.3	0.3	1.3	0.8	5.3	3.5	20.0	41.3	27.5	92.3
14	7.49	0.5	0.0	0.7	0.7	10.9	6.0	21.9	33.8	25.4	87.1
12	7.83	0.8	0.3	0.5	0.5	4.9	3.9	17.0	38.8	33.4	93.1
10	7.65	0.3	0.3	0.3	0.3	9.3	4.3	21.1	36.1	28.3	89.8
08	6.85	1.3	0.3	0.5	2.0	19.0	12.3	28.8	20.1	15.8	77.0

The respondent’s satisfaction with the Town’s *transportation* efforts has increased significantly. The respondents were asked to consider issues like widening roads, C-Tran bus service, synchronizing signal lights, and adding bike lanes/greenways/sidewalks. The mean this year was 7.20 and it has increased from 6.94 in 2014 (Table 64). This change was statistically significant. This is the highest mean the Town has earned to date for transportation. There were 84.1% on the “satisfied” side of the scale and only 5.9% on the “dissatisfied” side (Figure 22). Compared to 2014, the percentages on the “satisfied” side increased from 79.9% to 84.1% and the “dissatisfied” side decreased from 6.4% to 5.9%. The respondents who gave a rating below 5 were asked what actions the Town could take to make them more satisfied with *transportation* (Appendix O). There were 63 total comments and the key concern was improving traffic lights in Town (17 comments). The main issues for the respondents were the poor synchronizing of the lights and too long red light stops. The second key concern was to improve C-Tran (13 comments). They suggested longer hours, more/longer routes, more stops, making it easier for seniors to use, and adding availability on Sundays/holidays. The other comments included improving traffic (8 comments), roads/widening roads (6 comments), adding additional bike lanes (3 comments), too many bike lanes (3 comments), and finally improving public transportation (3 comments).

Figure 22. Satisfaction with Job Town is Doing on Transportation.

Table 64. Satisfaction with the Job the Town is Doing on Transportation.

Year	Mean	Very Dissatisfied 1	2	3	4	Neutral 5	6	7	8	Very Satisfied 9	% Above 5
16	7.20*	0.8	0.3	1.8	3.0	10.1	9.8	25.7	24.9	23.7	84.1
14	6.94	0.5	0.5	2.2	3.2	13.7	12.0	26.2	26.2	15.5	79.9
12	7.07	1.3	0.8	1.8	3.0	12.4	9.8	22.0	28.5	20.5	80.8
10	6.73	1.3	1.5	2.5	2.8	20.0	9.3	23.3	23.5	16.0	72.1
08	6.66	0.7	0.5	1.7	8.2	15.9	12.2	24.1	24.9	11.7	72.9

The respondents were asked to rate the job the Town is doing with *planning & development*. They were asked to consider issues such as developing land use plans for specific areas, ensuring high-quality development compatible with existing development, and making sure the infrastructure can support growth. The results show a large increase in the mean from 6.60 to 7.16 this year and this change was statistically significant (Table 65). There were 83.4% on the “satisfied” side of the scale and only 4.6% on the “dissatisfied” side (Figure 23). The drivers of the change this year were the large increase in the “very satisfied” responses from 11.7% to 23.9% and decline in “neutral” responses from 20.4% to 12.0%. This rating represents the highest ranking earned by the Town for this focus area by a large margin over 2012 (6.82). The respondents who gave the Town a rating below 5 were asked what actions the Town could take to make them more satisfied with *planning & development* (Appendix P). There were 41 total suggestions including not familiar with planning issues (12 comments), school overcrowding (6 comments), overdevelopment (4 comments), infrastructure issues (3 comments), and the number of apartment complexes (3 comments).

Figure 23. Satisfaction with Job Town is Doing on Planning & Development.

Table 65. Satisfaction with the Job the Town is Doing on Planning & Development.

Year	Mean	Very Dissatisfied 1	2	3	4	Neutral 5	6	7	8	Very Satisfied 9	% Above 5
16	7.16*	1.0	1.3	1.5	0.8	12.0	12.2	22.4	24.9	23.9	83.4
14	6.60	1.5	2.0	1.5	2.0	20.4	14.0	24.7	22.2	11.7	72.6

10	6.73	0.3	1.0	1.3	2.5	19.1	14.1	30.2	18.1	13.4	75.8
08	5.93	3.1	2.6	3.8	8.9	20.4	18.1	24.2	12.2	6.6	61.1

The job the Town is doing with *downtown revitalization* continues to rank the lowest of the focus areas but it has improved considerably this year. The respondents were asked to consider issues such as converting old Cary Elementary into an arts space, renovating the movie theater, designing downtown park/streetscapes, and holding outdoor events. This year there was an increased level of satisfaction with the Town’s efforts on *downtown revitalization* (Table 66). The mean increased from 6.58 to 7.00 and this improvement was statistically significant. This included 77.8% responding on the “satisfied” side versus 7.9% on the “dissatisfied” side (Figure 24). The drivers of the change this year were the large increase in the “very satisfied” responses from 15.7% to 25.4% and decline in “neutral” responses from 22.1% to 14.4%. As with several other focus areas, the mean for downtown revitalization this year represented the highest earned by the Town. The respondents who gave the Town a rating below 5 were then asked what actions the Town could take to make them

Figure 24. Satisfaction with Job Town is Doing on Downtown Revitalization.

more satisfied with *downtown revitalization* (Appendix Q). There were 70 total comments and the key one was that revitalization was a waste of time/money (11 comments) especially the hotel. The hotel was viewed as both a waste of money and not fitting in with downtown. Other key comments were that revitalization was taking too long to complete (10 comments), not familiar/don't go downtown (10 comments), nothing to offer or do downtown (6 comments), traffic issues (5 comments), not sure (5 comments), no parking (4 comments), and the need for more activities for children (3 comments).

Table 66. Satisfaction with the Job the Town is Doing on Downtown Revitalization.

Year	Mean	Very Dissatisfied 1	2	3	4	Neutral 5	6	7	8	Very Satisfied 9	% Above 5
16	7.00*	2.8	1.0	2.3	1.8	14.4	8.5	20.8	23.1	25.4	77.8

Town Council Focus Areas Crosstabulations

The crosstabulations for the focus areas were conducted on age, education, gender, housing type, income, race, voter status, voted in 2015 local elections, and years in Cary. First, the crosstabulations for satisfaction with the job the Town is doing with *parks, recreation, and cultural programs* are shown in Tables B317-B325. The highest levels of satisfaction were from Cary natives (8.46), \$45,001-\$100,000 income level (8.18), townhouse/condo dwellers (8.17), and African-Americans (8.17). The subgroups showing the lowest levels of satisfaction were 0-1 year residents (7.47), Hispanics (7.60), other races (7.60), other housing dwellers (7.60), and over 65 age group (7.74).

The crosstabulations for satisfaction with the job the Town is doing with *environmental protection* are shown in Tables B326-B334. The means were generally consistent and positive with the highest levels of satisfaction expressed by Cary natives (8.43), \$45,001-\$100,000 income level (8.05), apartment dwellers (7.96), and 18-25 age group (7.94). However, a few subgroups did indicate lower levels of satisfaction. These were 0-1 year residents (6.82), other housing dwellers (7.50), PhD/MD/JD degrees (7.57), 0-\$45,000 income level (7.59), and Asians (7.60).

The crosstabulations for the effectiveness of Town Council *keeping Cary the best place to live, work, and raise a family* are shown in Tables B335-B343. The highest means were from 18-25 age group (8.15), Cary natives (8.11), and 2-5 year residents (8.02). The subgroups indicating slightly lower levels of effectiveness this year were the 0-1 year residents (7.06), Hispanics (7.40), over 65 age group (7.47), and 0-\$45,000 income level (7.51).

The crosstabulations for satisfaction with the job the Town is doing with *transportation* are shown in Tables B344-B352. Most of the means were supportive with the highest levels of satisfaction shown by Cary natives (8.15), apartment dwellers (7.84), 18-25 age group (7.61), and nonregistered voters (7.59). There were a few subgroups with somewhat lower levels of satisfaction. These included 0-1 year residents (6.63), Hispanics (6.73), 56-65 age group (6.91), and Asians (6.97).

The crosstabulations for satisfaction with the job the Town is doing with *planning & development* are shown in Tables B353-B361. The subgroups were generally consistent in their levels of satisfaction. The highest levels of satisfaction were for Cary natives (8.20), apartment dwellers (7.72), African-Americans (7.71), and nonregistered voters (7.65). There were a few subgroups demonstrating lower levels of satisfaction including 0-1 year residents (6.53), over 65 age group (6.77), Hispanics (6.80), 56-65 age group (6.84), over \$150,000 income level (6.92), and over 10 year residents (6.93).

Finally, the crosstabulations for satisfaction with the job the Town is doing with *downtown revitalization* are shown in Tables B362-B370. The levels of satisfaction were generally positive and consistent for the breakdowns. The highest levels of satisfaction were for Cary natives (8.14), other housing dwellers (7.60), apartment dwellers (7.45), \$45,001-\$100,000 income level (7.40) and 18-25 age group (7.39). Whereas the subgroups showing lower levels of satisfaction were 0-1 year residents (6.27), 56-65 age group (6.43), PhD/MD/JD degrees (6.69), and over 10 year residents (6.80).

Downtown Revitalization

A set of questions was included in the survey asking the respondents how Cary could create a more vibrant downtown area. The respondents were first asked if they had visited downtown in the past year and 79.4% indicated they had visited the area (85.6% in 2014). Those who had visited downtown were then asked what drew them to downtown (Appendix R). There were 472 total comments (there could be more than one reason) and the two key reasons were restaurants (60 comments) and shops/shopping (55 comments). Other main reasons included visiting the area/pleasure (47 comments), business/work (32 comments), library (26 comments), theater (20 comments), art/art center (19 comments), and just driving through (19 comments). The respondents also mentioned events (17 comments), drug store (17 comments), post office (17 comments), festivals (14 comments), everything/numerous reasons (11 comments), church (10 comments), and live in the area (10 comments). Those who had not visited downtown were then asked why (Appendix S). There were 86 total comments and the two key explanations were no reason (17 comments) and schedule/work/too busy (17 comments). Other reasons included no interest/don't like it (11 comments), nothing down there (9 comments), go to other downtowns (6 comments), construction (5 comments), and out of the way/hassle (5 comments).

The respondents were then asked to rate how effective various amenities/activities would be in bringing them to downtown Cary. A 9-point scale was used from not likely at all (1) to extremely likely (9). The survey examined a total of 18 different amenities/activities. Table 67 shows cafes/restaurants (7.60) would be the most likely amenity to draw the respondents downtown. Shopping opportunities (6.60), festivals (6.47), outdoor performances (6.40), concerts (6.18), and Farmer's Market (6.01) were also viewed as effective. Other amenities/activities with drawing power were coffee shop (5.97), bars/pubs (5.95), and ice cream/yogurt shop (5.91). The amenities with the lowest draw were pet shop (4.44), working artist studio space (4.69), and grocery store (4.74). There were 95 responses given to the "other" category for amenities/activities (Appendix T). The most frequent were to improve parking (11 comments) and children's stores/activities (7 comments).

Table 67. The Likelihood of Amenities or Activities in Bringing Respondents to Downtown Cary in 2016 (In Order of Usage).

Amenity/Activity	Mean	Not Likely At All 1	2	3	4	Average 5	6	7	8	Extremely Likely 9	% Above 5
Cafes/restaurants	7.60	6.0	0.5	0.8	1.3	7.8	4.8	11.6	8.5	58.8	83.7

There have been changes in the rankings of amenities/activities bringing respondents downtown relative to 2014 (Table 68). In the top ten amenities/activities, those gaining importance in the rankings were shopping opportunities (4th to 2nd), coffee shop (11th to 7th), and bars/pubs (13th to 8th). The amenities/activities falling in the rankings to a slight degree were festivals (2nd to 3rd), outdoor performances (3rd to 4th), and ice cream/yogurt shop (8th to 9th). However, there was a somewhat larger decline for preserve/reuse historic buildings (7th to 10th). At the top of the list cafes/restaurants (1st) remained unchanged. Also unchanged were concerts (5th) and Farmer's Market (6th) this year.

**Table 69. The Likelihood of Amenities or Activities in Bringing Respondents to Downtown Cary in 2012
(In Order of Usage).**

Amenity/Activity	Mean	Not Likely At All 1	2	3	4	Average 5	6	7	8	Extremely Likely 9	% Above 5

Downtown Revitalization Crosstabulations

Crosstabulations were conducted on visiting downtown in the past year on age, education, gender, housing type, income, race, voter status, voted in 2015 local elections, and years in Cary. These are shown in Tables B371-B379 in Appendix B. The highest level of downtown visitation was from other housing dwellers (90.0%), PhD/JD/MD degrees (85.7%), 56-65 age group (85.7%), over 10 year residents (84.9%), voters in 2015 local elections (84.6%), college degrees (82.1%), \$45,001-\$100,000 income level (82.0%), and 6-10 year residents (82.0%). While the lowest levels of visitation were from nonregistered voters (59.4%), 18-25 age group (63.6%), 0-1 year residents (64.7%), 2-5 year residents (65.5%), Asians (66.7%), apartment dwellers (68.2%), and Cary natives (68.6%).

The crosstabulations for the likelihood of amenities/activities to draw respondents downtown were conducted on age, education, gender, housing type, income, race, and years in Cary (Tables B380-B386). Instead of examining each demographic variable separately, it would be more informative to look at each amenity/activity separately and its likelihood at bringing respondents downtown. There were a total of 27 subgroups with sample sizes of 10 or greater. The amenities will be discussed in order of overall ranking by the total sample. To avoid confusion, overall rankings by the total sample are written out (such as ninth) and rating in the subgroups are numerical (such as 9th).

The top-rated amenity or activity was cafes/restaurants in the total sample. This amenity was rated 1st in 23 of the 27 subgroups indicating its overall effectiveness as the key downtown drawing card. Shopping opportunities ranked second overall. It was not rated 1st in any subgroups, but placed 2nd in 15 subgroups, 3rd in 3 subgroups, and 4th in 3 others indicating its strong appeal.

Festivals was ranked third overall in the total sample. Although this activity did not rate 1st in any of the subgroups, it was rated 2nd by PhD/MD/JD degrees, African-Americans, Asians, 0-1 year residents, 6-10 year residents, and other housing dwellers. It also rated 3rd in 14 subgroups. Next was outdoor performances which was ranked fourth by the total sample. This amenity was an effective downtown draw for newer residents (0-1 year residents and 2-5 year residents) rating 1st in those subgroups. It also rated 2nd for Asians and males. Concerts were ranked fifth overall by the respondents. It rated 1st for the 18-25 age group and 2nd for 0-1 year residents, 2-5 year residents, and Hispanics.

The Farmer's Market was ranked sixth by the total sample and was most effective for other housing dwellers (1st) and over 65 age group (2nd). It also rated 5th for townhouse/condo dwellers, 0-\$45,000 income level, Cary natives, and other races. The coffee shop ranked seventh overall. The highest interest was from \$100,001-\$150,000 income level (2nd), other races (4th), over 65 age group (5th), and females (5th). Bar/pubs ranked eighth overall and rated highest (3rd) for African-Americans and other races. This amenity also rated 5th for 26-55 age group and males.

The ice cream shop/yogurt shop ranked ninth in the total sample. The most interest was expressed by Cary natives (4th), 6-10 year residents (6th) and other races (6th). The preservation/reuse of historical buildings was rated tenth overall. However, it had a higher rating in the over 65 age group (3rd), 56-65 age group (4th), over 10 year residents (4th), Hispanics (6th), and single family households (6th). It was museums that ranked eleventh in the total sample. Museums garnered its highest interest from Asians (6th), PhD/MD/JD degrees (9th), and townhouse/condo dwellers (9th).

Finishing twelfth overall for the total sample was additional art exhibition space. The most interest was shown by Hispanics (7th), other housing dwellers (8th), apartment dwellers (9th), and 2-5 year residents (9th). Public art was next in the overall rankings finishing thirteenth. The most interest was shown by the townhouse/condo dwellers (11th) and apartment dwellers (12th). The historical walking tour of Cary was ranked fourteenth. There was a higher degree of interest from over 65 age group (9th), 0-1 year residents (12th), \$100,001-\$150,000 income level (12th), over 10 year residents (12th), and other races (12th).

The Gallery Crawl had an overall ranking of fifteenth in the total sample. The highest interest (10th) was expressed by PhD/MD/JD degrees, Hispanics, and other housing dwellers. There was also somewhat higher interest (13th) from the 26-55 age group, over 65 age group, and \$100,001-\$150,000 income level. The downtown grocery store ranked only sixteenth overall. However, this amenity did have a high degree of interest from Cary natives and other housing dwellers rating it as high as 2nd for those subgroups. There was also a level of interest from 0-\$45,000 income level (10th), 18-25 age group (12th), African-Americans (12th), and 2-5 year residents (12th). Working artist studio space downtown was ranked next to last at seventeenth overall. Its highest level of interest was shown by Cary natives (12th), \$45,001-\$100,000 income level (13th), and 2-5 year residents (13th). Finally, ranking last overall was a pet shop and it rated last in 15 of the subgroups. Although last, it did have higher support from 0-1 year residents (11th), other housing dwellers (12th), and 2-5 year residents (14th).

Public WiFi

A question was included this year concerning the availability of public WiFi in Cary. Specifically, the respondents were asked if they had been anywhere in Cary where they would expect to be able to use public WiFi but could not because it was not available. Overall, there were 357 total responses to this question (Appendix U). A large majority of the respondents (171 comments) who use WiFi indicated they could not think of any area(s) without WiFi availability.

There was also a large group of respondents who indicated they don't use it/never tried WiFi (83 comments) or I don't pay attention/not sure (17 comments). In addition, there were 55 respondents who answered they were unaware of public WiFi availability including 4 comments to advertise it more or provide a map of the service area.

The only areas mentioned more than once in Cary not having WiFi availability were the airport (6 comments), stores while out shopping (3 comments), and the library (3 comments). Several areas were mentioned once including local restaurants, Bond Park, Town Hall area, Cary Senior Center, Koka Booth Amphitheatre, and Cary Art Center basement.

Senior Citizens

The respondents were asked their level of satisfaction with the Town’s efforts for senior citizens. They were asked to consider aspects like sidewalks, C-Tran bus service, the Cary Senior Center, senior housing, recreation centers, communication, and assistance with trash collection. A 9-point scale from very dissatisfied (1) to very satisfied (9) was used to rate the Town’s efforts.

The results indicate the respondents were satisfied with the *job the Town has been doing for its senior citizens*. The mean was 7.56 with 86.1% on the “satisfied” side (above 5) of scale with 28.4% indicating they were “very satisfied” (Table 70). There was an exceptionally small percentage of only 0.8% on the “dissatisfied” side of the scale below 5 (Figure 25). If this mean were converted into a grade, then this mean would convert to a solid B. The respondents who gave a rating below 5 were asked what actions the Town could take to make them more satisfied with the efforts the Town makes for senior citizens (Appendix V). There were 27 total responses and a majority of those (17 comments) were that the respondent was unfamiliar with the Town’s actions. However, there were 5 comments indicating the need for better public transportation for seniors with 3 of those comments indicating a level of concern for C-Tran. There were also 2 comments for more senior housing and 2 other comments for better sidewalks indicating the sidewalk ramps are challenging for wheelchair usage. Finally, there was one comment calling for a tax break for seniors.

Figure 25. Satisfaction with Job the Town is Doing for Senior Citizens.

Table 70. Satisfaction with Job the Town is Doing for Senior Citizens.

Year	Mean	Very Dissatisfied 1	2	3	4	Neutral 5	6	7	8	Very Satisfied 9	% Above 5
16	7.56	0.0	0.3	0.5	0.0	13.1	4.1	20.1	33.5	28.4	86.1

Senior Citizen Crosstabulations

Crosstabulations were conducted on the job the Town is doing for senior citizens on age, education, gender, housing type, income, race, voter status, voted in 2015 local elections, and years in Cary. These are shown in Tables B387-B395 in Appendix B. The highest levels of satisfaction were from Cary natives (8.40), other housing dwellers (8.10), apartment dwellers (7.95), and \$45,001-\$100,000 income level (7.92). The lowest levels of satisfaction were exhibited by 0-1 year residents (6.69), Hispanics (7.20), 56-65 age group (7.23), over 65 age group (7.26), and PhD/MD/JD degrees (7.33).

Citizens with Disabilities

The respondents were also asked their level of satisfaction with the Town’s efforts for citizens with disabilities. They were asked to consider aspects like parking, sidewalks, curb-cuts, C-Tran bus service, inclusive recreation, accessible buildings/facilities, communication, and assistance with trash collection. A 9-point scale from very dissatisfied (1) to very satisfied (9) was used to rate the Town’s efforts. There were 9.8% of the respondents with someone living at home legally disabled in the sample (0.5% refused to answer).

The results indicate the respondents were satisfied with the *job the Town is doing for its citizens with disabilities*. The mean was 7.58 with 86.0% on the “satisfied” side of scale including 28.5% indicating they were “very satisfied” (Table 71). The percentage on the “dissatisfied” side on the scale was exceptionally low at 0.6% (Figure 26). If this mean were converted into a grade, then the mean would convert to a solid B. The respondents who gave a rating below 5 were asked what actions the Town could take to make them more satisfied with the efforts the Town makes for citizens with disabilities (Appendix W). There were 20 total responses and a large percentage of those (12 comments) were that the respondent was unfamiliar with the Town’s actions. There were 3 comments indicating the need for better public transportation for the citizens with disabilities with 2 of those comments indicating a level of concern for C-Tran. However, one other comment was favorable to C-Tran. There was also a single comment each for more one-story housing and problems with metal sidewalk ramps for wheelchair usage.

Figure 26. Satisfaction with Job the Town is Doing for Citizens with Disabilities.

Table 71. Satisfaction with Job the Town is Doing for Citizens with Disabilities.

Year	Mean	Very Dissatisfied 1	2	3	4	Neutral 5	6	7	8	Very Satisfied 9	% Above 5
16	7.58	0.0	0.3	0.0	0.3	13.4	3.8	19.9	33.8	28.5	86.0

Citizens with Disabilities Crosstabulations

Crosstabulations were conducted on the job the Town is doing for citizens with disabilities on age, education, gender, housing type, income, race, voter status, voted in 2015 local elections, and years in Cary. These are shown in Tables B396-B404 in Appendix B. The highest levels of satisfaction were from Cary natives (8.46), other housing dwellers (8.10), apartment dwellers (7.93), African-Americans (7.93), \$45,001-\$100,000 income level (7.81), and Asians (7.78). Whereas the lowest levels of satisfaction were from 0-1 year residents (6.94), PhD/MD/JD degrees (7.21), 56-65 age group (7.27), and other races (7.30).

Appendix A

Town of Cary 2016 Biennial Citizen Survey Instrument

Hello, my name is _____ and I am calling for the Town of Cary. On a regular basis Cary conducts a citizen survey so that we can improve the services that the Town offers you. Your opinion is very important to Cary.

Are you a resident of the Town of Cary?

- Yes (Continue) No (Stop and thank the respondent)

Are you over the age of 18?

- Yes (Continue) No (Ask politely to speak with someone over 18)

1. How would you rate Cary overall as a place to live? Use a 9-point scale where 1 is very undesirable and 9 is very desirable, 5 is average.

1	2	3	4	5	6	7	8	9
Very Undesirable				Average				Very Desirable

(For responses below 5) Please tell us specifically what about Cary you're finding undesirable?

2. In the past two years, do you feel that the quality of life in the Town of Cary is? (Read choices)

1	2	3	4	5
Much Worse	Somewhat Worse	The Same	Somewhat Better	Much Better

(For responses below 3) Please tell us which aspects of the quality of life in Cary seems worse?

3. What do you feel is the one most important issue facing the Town of Cary?

4. On a scale of 1 to 9 with 1 being very dissatisfied to 9 being very satisfied, rate your level of satisfaction with the following Town of Cary solid waste services. If you have not used any of the services respond with not applicable.

	1	2	3	4	5	6	7	8	9	
	Very Dissatisfied				Neutral			Very Dissatisfied		
4a. Curbside recycling collection.....	1	2	3	4	5	6	7	8	9	NA
4b. Curbside garbage collection.....	1	2	3	4	5	6	7	8	9	NA
4c. Curbside yard waste collection.....	1	2	3	4	5	6	7	8	9	NA
4d. Curbside loose leaf collection.....	1	2	3	4	5	6	7	8	9	NA

5. Please rate the cleanliness and appearance of the following public areas, again with the same 9-point scale.

	1	2	3	4	5	6	7	8	9
	Very Poor				Average			Excellent	
5a. Streets.....	1	2	3	4	5	6	7	8	9
5b. Median and roadsides.....	1	2	3	4	5	6	7	8	9
5c. Parks.....	1	2	3	4	5	6	7	8	9
5d. Greenways.....	1	2	3	4	5	6	7	8	9

(For responses below 5) Can you provide specific examples of public areas that need more attention (ask to spell the name of the area and then ask the problem)?

Area _____ Problem _____
 Area _____ Problem _____

- 6. How well does the Town of Cary maintain streets and roads with regard to paving, potholes, etc.? (Read scale)

1 2 3 4 5 6 7 8 9
 Very Poor Average Excellent

(For responses below 5) Can you provide specific examples of roads that need more attention (ask to spell street name and then ask the problem)?

Street _____ Problem _____
 Street _____ Problem _____

- 7. Thinking about the Town’s environmental efforts such as recycling, open space preservation, water conservation, sustainability, erosion control, stormwater, and litter reduction, how satisfied are you with the job the Town is doing with environmental protection? Use a 9-point satisfaction scale where 1 is very dissatisfied and 9 is very satisfied.

1 2 3 4 5 6 7 8 9
 Very Dissatisfied Neutral Very Satisfied

(For responses below 5) Could you please tell us specific actions the Town could take to make you more satisfied?

- 8. How effectively do you feel the Cary Town Council is working together to keep Cary the best place to live, work, and raise a family? Use a 9-point scale where 1 is very ineffective and 9 is very effective.

1 2 3 4 5 6 7 8 9
 Very Ineffective Neutral Very Effective

(For responses below 5) Could you please tell us specific actions the Council could take to be more effective?

- 9. The Town is working to create a more vibrant downtown including converting old Cary Elementary into the Cary Arts Center, renovating the community’s first movie theater, designing a new downtown park and upgraded streetscapes, and holding more outdoor events downtown. Using the same 9-point satisfaction scale, how satisfied are you with the job the Town is doing with downtown revitalization?

1 2 3 4 5 6 7 8 9
 Very Dissatisfied Neutral Very Satisfied

(For responses below 5) Could you please tell us specific actions the Town could take to make you more satisfied?

15. Have you had any contact with the Cary Police Department in the past two years?

- Yes (Continue) No (Skip to #18)

16. Was the person you contacted at the Police Department?

- Police Officer Clerk Dispatcher Animal Control Detective District Commander Not Sure

Appendix C

Town Government Staff Interaction

14. Town Government Staff – Please tell us specifically what you recall about this interaction (for responses below 5).
- They were of no help.
 - I tried to get help with the flooding due to runoff from new grating and construction, but nobody will do anything.
 - It is difficult to contact them. I have tried, but no luck.
 - I had an issue with a ditch in front of my house. I called and nobody has called me back. I called a couple of months ago.

Appendix D

Streets/Roads That Need Attention

6. Can you provide specific examples of streets and roads (# of comments) that need more attention (for responses below 5)?
- Maynard Road (13) – potholes, rough pavement, trash, flooding
 - Roads in general (13) – potholes, rough pavement
 - Cary Parkway (5) – potholes, rough pavement, bump on bridges
 - Kildaire Farm Road (4) – potholes, rough pavement, flooding, overhanging tree branches
 - Chatham Street (3) – potholes, rough pavement
 - High House Road (3) – potholes
 - Harrison Avenue (2) – potholes, rough pavement
 - Walnut Street – potholes
 - Academy Street – rough pavement
 - Hunter's Crossing – rough pavement
 - Summerwinds Road – rough pavement
 - Oakridge Road – poor job on previous work
 - Lake Pine Drive – flooding
 - Plantation Drive – flooding
 - Two Creeks Road – flooding
 - Pirates Cove area – slick bridges
 - Reedy Creek – uneven pavement
 - Willoughby Lane – uneven pavement
 - Needle Park Drive – potholes
 - Highway 54 – potholes, rough pavement
 - Downtown area – potholes
 - Older parts of Town – need patching
 - Private roads – potholes, rough pavement
 - Back roads/smaller roads – rough pavement

Appendix E

Public Areas That Need Attention

5. Can you provide specific examples of public areas that need more attention (for responses below 5)?
 - Summerwinds Road – trash and leaves
 - Where there are geese – they make a mess on the sidewalks
 - All cul-de-sacs – trashy
 - Bond Park and greenway – maintain more frequently, cut grass

Appendix F

Town Parks & Recreation or Cultural Program Participation

21. Please tell me which program (# of comments) you or a member of your household most frequently participated in and where?

- Lazy Days (21)
Location: Downtown
- Festivals/events (14)
Location: Downtown, Bond Park, Page Walker, elementary schools, Koka Booth
- Basketball (10)
Location: Middle Creek Community Center, Senior Center, Bond Park, various schools
- Senior citizen activities (9)
Location: Bond Park, Cary Senior Center
- Camps (7)
Location: Cary Art Center, Page Walker, Bond Park
- 6 O'Clock (7)

Location: Community Center
- Rented a shelter
Location: Bond Park

Appendix G

Reasons for Low Ratings (Below 3) for Quality of Life in Cary

2. Please tell us which aspects of the quality of life in Cary seem worse? (# of comments)
 - Traffic (12)
 - Crime (11)
 - Overdevelopment (5)
 - Road construction/maintenance (4)
 - Growth issues (3)
 - Taxpayer money wasted (2)
 - Overcrowded (2)
 - New to the area (2)
 - Taxes
 - Infrastructure issues
 - Too many houses in small spaces
 - Politicians not listening to residents
 - Too many people, it is not quiet like it once was
 - Traffic lights stay red way too long
 - Graffiti
 - Drugs
 - Cost of living is too high
 - Flooding

Appendix H

Most Important Issue Facing the Town

3. What do you feel is the one most important issue facing the Town of Cary? (# of comments)
- Growth/managing growth (81)
 - Traffic/improving roads (64)
 - None (44)
 - Crime/safety (34)
 - Schools (31)
 - Overpopulation (24)
 - No issues/can't think of anything (20)
 - Overdevelopment (21)
 - Infrastructure concerns (17)
 - Not sure (15)
 - Cost of living (5)
 - Budget/spending (5)
 - Public transportation (5)
 - High taxes (4)
 - Losing Cary's charm/small town feel (4)
 - Downtown development/revitalization (4)
 - Construction (3)
 - Growth is a good thing (3)
 - Destroying green space/trees (3)
 - Economy (3)
 - Water issues (3)
 - Just moved here, can't say (3)
 - Recycling is confusing/accept more items (3)
 - Downtown parking (2)
 - Satisfied with the Town/no complaints (2)
 - Texting while driving (2)
 - Lack of diversity (2)
 - Senior housing and support (2)
 - Too many regulations (2)
 - Cary Towne Center problems (2)
 - Too many bike lanes (2)
 - Too many stoplights (2)
 - The way the money is being spent
 - Too much emphasis on expansion; they focus on quantity rather than quality
 - Affordable housing
 - Not listening to residents
 - Too many townhouses and apartments
 - Improve transportation; more bus service needed or more frequent bus services
 - Need more excitement downtown; young adult activities locally so you don't have to go out of town for a night out
 - Making sure recreational facilities are kept up; great for the area
 - Downtown will be great but extremely congested and it may become too much for the area
 - Speeding in the area; we need more police patrols maybe twice a month; I have spoken and written letters and nothing has been done; someone is going to get hit walking because drivers don't pay attention

- The Mayor and Council members should be in jail for stealing tax dollars to build a hotel for someone else
- Cary is a dead area, need more activities for youth and young adults
- Poverty
- Too much construction
- More events and festivals need to happen in Cary, not much to do
- Getting too commercialized
- Outdated, not very modern – bring more technology to the area
- Need more turn lanes, poor design
- They don't do anything for Cary residents who have lived here for a while; focus on making residents happy instead of outsiders
- Synchronizing stoplights
- Cary has no variety – too much control, need to loosen up a little; Cary is the same always
- More police patrols needed
- No jobs in the area
- Too much high-density housing
- Lack of diversity in leadership
- Because of the construction there is flooding and the Town is not doing anything about it
- The closing of places in the mall
- Wasting money downtown
- Notify people of projects and clean things up
- Taking care of the leaves on the scheduled day so they don't get blown all over
- Bus service
- More bike lanes needed
- Police harassment of younger men; Police have no effect on why I feel safe, they do nothing but harass me
- Do more for lower socioeconomic
- There are too many police officers who are very unprofessional, too strict; young adults always getting pulled over to harass
- Trash pickup costs are too high; need to decrease the fee
- Need more hip things to do in Cary and downtown
- Cary's lack of interest in millennials and younger generation
- Distance to major cities and things to do
- There are no distinct things or nothing special in Cary that would bring someone in; it is a bedroom community

Appendix I

Well Informed on Town Government Aspects Services, Projects, Issues, and Programs That Come to Mind

26. Overall, how well informed do you feel about Town government services, projects, issues, and programs affecting you? What specific projects, activities, or issues came to mind when you decided on that rating? (Rating)
- I feel the paper could be more informative. (Rated 5)
 - I travel and may not be around when it is given. (Rated 5)
 - I just don't know anything. (Rated 1)
 - Not informed until they happen. (Rated 2)
 - It is my fault; don't keep up. (Rated 3)
 - I don't worry about information about Cary unless it pertains to me. (Rated 4)
 - Just don't feel informed in general. (Rated 4)
 - The homeowner's associations should be kept informed on all that is going on in Cary to be able to share with residents. (Rated 1)
 - I do not follow. (Rated 3)
 - I do not get the paper anymore. (Rated 3)
 - I do not invest time in it. (Rated 4)
 - Recycling Center. (Rated 5)
 - Signs for the area. (Rated 5)
 - I don't ever hear about anything going on in Town. (Rated 4)
 - None. (Rated 2)
 - It is my fault; I do not take advantage of the available information. (Rated 4)
 - Time Warner Cable is running lines through my property and I never saw this and they never made me aware. (Rated 4)
 - It is my own fault. (Rated 2)
 - My fault, I don't get involved. (Rated 5)
 - I just don't feel informed about anything. (Rated 4)
 - I don't look for information. I don't keep up with anything about Cary. (Rated 1)
 - I don't care. (Rated 3)
 - I don't look. (Rated 1)
 - I don't seek it out. (Rated 3)
 - They don't send information to my house. (Rated 1)
 - The hotel downtown. I knew nothing about this. It is a horrible place for a hotel. Downtown is already very congested and it looks out of place. (Rated 2)
 - It is my fault. I don't keep myself informed. (Rated 1)
 - I just don't know much. I don't look for information, my fault. (Rated 1)
 - I do not seek it out. (Rated 3)
 - I don't see much on anything in Cary, nothing specific. (Rated 4)
 - I don't look for information. (Rated 1)
 - My own fault, I don't keep up with it. (Rated 4)
 - I don't see much information. I only see information if I look for it on the website or paper. (Rated 3)
 - I don't keep up with it. (Rated 3)
 - Should send out information on cell phones it is the best and quickest way to get in touch and get information out to residents. Text messaging would be great and would use social media sites if I knew Cary had them (Rated 1)
 - It is my own fault. I am busy with school and don't keep up with Cary information. (Rated 1)

- Roads. (Rated 5)
- I don't seek out information. (Rated 3)
- I don't look for it. (Rated 4)

Appendix J

Satisfaction with Making Information Available to Citizens Services, Projects, Issues, and Programs That Come to Mind

27. How satisfied are you with the Town of Cary making information available to citizens about important Town services, projects, issues, and programs? What specific projects, activities, or issues came to mind when you decided on that rating? (Rating)
- Information on theatre, parking, and construction. (Rated 4)
 - I travel and it could be my own fault. (Rated 5)
 - I don't ever see much information or anything. (Rated 1)
 - I never see the information until it is too late. Need to put information out in advance. (Rated 2)
 - I don't look for information. (Rated 4)
 - Information on any and all services should go to the homeowner's associations to keep residents informed. (Rated 1)
 - You have to go look. (Rated 5)
 - I do not get mailed anything. I would like to receive a mailing for information. (Rated 2)
 - I would like to receive emails. (Rated 5)
 - Need monthly pamphlets, don't see much information available. (Rated 4)
 - I don't see much information. Send out monthly flyers to keep residents informed. (Rated 2)
 - I don't look for it. (Rated 5)
 - Not sure. (Rated 5)
 - You have to search for it and the website is awful. (Rated 1)
 - The hotel downtown. (Rated 2)
 - I don't look for information, own fault. (Rated 1)
 - Nothing specific, I don't see any information. (Rated 4)
 - Not sure, I don't use information. (Rated 5)
 - I don't see much. (Rated 5)

Appendix K

Satisfaction with Opportunities to Participate in Decision Making Services, Projects, Issues, and Programs That Come to Mind

28. How satisfied are you with the opportunities the Town gives you to participate in the decision-making process. What specific projects, activities, or issues came to mind when you decided on that rating? (Rating)
- I choose not to participate. (Rated 4)
 - I feel they don't ask individuals their opinion. (Rated 2)
 - I don't know of any opportunities ever. (Rated 1)
 - I would like to know what is going on with the property behind me that is for sale. (Rated 3)
 - Most people are not aware of all the information that is available. Social media needs to be advertised more. (Rated 7)
 - I don't get involved if I don't need to. (Rated 4)
 - Communication is the key on all services, projects, or issues. Communicate with residents more. (Rated 1)
 - Not sure how to answer. (Rated 5)
 - I don't know of any opportunities for anything. (Rated 1)
 - Downtown revitalization – design of the area should be voted on, involve residents so they can pitch their ideas. (Rated 1)
 - I just don't know of any and they didn't listen anyway unless you have money. Money is the only way they will listen. (Rated 1)
 - I have never tried and it is my fault. (Rated 5)
 - Unaware. (Rated 1)
 - Not sure, I don't pay attention. (Not rated)
 - I don't know about opportunities. (Rated 2)
 - If I had a say, they would leave things alone. (Rated 1)
 - Send out information in advance and not after it has happened. (Rated 4)
 - The development issue on Maynard of forcing an ill old man to give up his land. Cary leaders force their will on the people, run by the money of one man. (Rated 1)
 - I don't know of any but I don't keep myself informed to know of any. (Rated 1)
 - I don't know how it works. I don't try to. It is my own fault. (Rated 1)
 - Not sure, I don't keep up. (Rated 5)
 - Cary has already made up their minds before they even ask for resident's input. Residents don't really have any effect on the final decision. (Rated 2)
 - I don't know of any opportunities or how it works. (Rated 3)
 - Need to educate people about how they can be involved. I don't know of any. (Rated 1)
 - I don't hear much about opportunities. (Rated 3)
 - I don't know how to find opportunities. (Rated 5)

Appendix L

Specific Actions the Town Could Take to Improve Satisfaction with Parks, Recreation, and Cultural Issues

12. Could you please tell us specific actions the Town could take to make you more satisfied with parks, recreation, and cultural resources?
- Dwayne Jones and Parks & Rec staff are very responsive to suggestions.
 - Make safer, more patrolling everywhere.
 - I wish Lazy Daze was on a Sunday.
 - We have more parks than we need. Stop the foolishness.
 - I would like to see more cultural events, resources, etc.
 - They are offering less and less.
 - I don't know much about what is happening.
 - Apex offers more clinics for sports so we usually sign up for those.
 - Scavenger Hunt event should have a solo group for those who don't have someone to join them, so when single people want to join in they can just group the single individuals together.
 - They ripped out a park area for the hotel coming to the area. Stop destroying area for outsiders to have hotels built at taxpayer's expense.
 - Need more dog parks.
 - The greenway is going through my backyard. The County will not work with me in keeping trees and removing trees. There is no design, it needs work.
 - There are no new parks in the new high-density areas; need to add more parks or greenspace.
 - I don't use them.
 - They should offer more.
 - Add more in West Cary – parks, greenways, community center.
 - There is no parking for Lazy Daze and it needs to be more days like a three-day weekend.
 - More mountain bike trails.

Appendix M

Specific Actions the Town Could Take to Improve Satisfaction with Environmental Protection

7. Could you please tell us specific actions the Town could take to make you more satisfied with the Town is doing with environmental protection?
 - Not clear what can and cannot be recycled. It changes too often.
 - Keep the trees and stop cutting them down to build; if anything build around them.
 - Destroying natural areas; stop cutting down trees.
 - Groundwater BMP is an expensive burden at \$250 yearly per home.
 - Should collect recycling every week.
 - Should collect more for recycling.
 - Everyone is going too green.
 - The Town workers for recycling, trash, and leaf pickup need to get a pay increase. They are great. I would even be willing to pay more taxes if their pay or budget was increased.
 - I don't think they really care; it is an act.
 - Should go to total recycling and compost more.
 - The recycling company is taking what citizens are separating and trashing it.
 - I rated it a 2 because you can never have too much conservation.
 - Too strict on recycling and need more places to bring recycling or just pick up more items.
 - Recycling needs to be more frequent.

Appendix N

Specific Actions the Town Could Take to be More Effective with Keeping Cary the Best Place to Live, Work, and Raise a Family

8. Could you please tell us specific actions the Town could take to be more effective with keeping Cary the best place to live, work, and raise a family?
- Add more resident input.
 - I think it has more to do with money and growing and not about the needs of current citizens.
 - Town Council is not worried about residents. They need to focus and spend money on local schools and stop all the stupid spending on hotels and the downtown area.
 - Too much change is happening and it is costing too much.
 - Nothing really all that great that draws you to Cary.
 - It costs too much to live in Cary anymore, stop increasing all the prices.
 - Too expensive, lower taxes.
 - Overdeveloping, too much building.
 - You have to travel outside Cary for work. The area has grown residentially but not economically.
 - It is too expensive; houses cost too much; Cary's cost of living is not affordable.
 - They are just trying to make the Town money.
 - Doing too much at once.
 - It is too expensive to live and raise a family.

Appendix O

Specific Actions the Town Could Take to Improve Satisfaction with Transportation

10. Could you please tell us specific actions the Town could take to make you more satisfied with transportation?

- Need more bike lanes.
- More flexible hours for C-Tran and train.
- Always seem to be working on it. They are trying.
- Synchronize lights.
- Roads are horrible and traffic is bad everywhere.
- C-Tran only has like 3 people on it. It seems like it wastes more money than profits.
- Synchronizing sensors that don't work properly in several locations; lights don't change often enough.
- Traffic on Highway 55, Highway 1010, and Holly Springs Road are horrible and something needs to be done.
- Traffic is bad; synchronizing lights and widening roads is needed.
- Adding too many bike lanes.
- Need more street lights.
- Need to better synchronize lights.
- Lights stay red too long and need to change timing depending on the time of day.
- I would like to see a rail system or more frequency in the current system.
- Need more sidewalks.
- Turn lanes needed throughout the area.
- Improve traffic.
- Roads need widening.
- C-Tran needs more availability.
- Traffic lights stay red too long.
- Get rid of cameras and I will rate it a 9.
- C-Tran needs to go farther like to the Community College.
- More bus stops.
- The train should not stop in downtown especially during rush hour.
- No more roundabouts.
- With so much growth, so much needs to be done.
- Traffic lights stay red longer than needed.
- Need to synchronize lights.
- Widen roads or adjust traffic pattern where the townhomes are being added.
- Need more convenient public transportation.
- Roundabouts are a pain because people don't know how to use them. Inform people or stop building them.
- Too many bike lanes and it is making traffic dangerous.
- Railroad crossing at 64 needs another lane. Always a traffic jam backed up for several minutes.
- Transportation – light rails would be amazing. No bus service to get anywhere without taking hours and hours.
- C-Tran is nonexistent, not a viable transportation source. C-Tran needs to have more stops and availability.
- Traffic light at Morrisville Parkway and Green Level Church Road.
- Synchronize traffic lights.
- Too many bike lanes.

- Construction takes too long.
- Maynard and Cary Parkway light is too short. You sit there 5 minutes, a few cars get through and it is red immediately again.
- Need more stoplights. Panther Creek and 55 is dangerous with traffic too heavy on green light to turn. Highway 540 on my side has to pay a toll but Raleigh doesn't have to pay a toll on their side. If I have to pay, so should they.
- Synchronizing stoplights at Kildaire Farm, Cary Parkway, Wilmer, Walnut and other locations.
- C-Tran is not really useful, need better transportation. Bike lanes are pretty much nonexistent. I would love to ride a bike.
- They are making a mess.
- Synchronize traffic lights.
- Traffic issues.
- Unsure.
- C-Tran is not easy for seniors to use and you sit on the train too long.
- The left hand yellow flashing lights are scary and some people speed through them. Be consistent with turns and traffic patterns - High House and Jenks Carpenter.
- Safety for bikers and joggers.
- It takes too long and roads are a mess.
- Bus service needs work.
- Bike lanes needed.
- C-Tran needs to be more convenient. Have more locations and better timing. C-Tran could be good but it is not.
- Need more street lights. C-Tran should not be closed on holidays and Sundays. People still have to work. Christmas and Thanksgiving are the only holidays it should not run.
- C-Tran needs a lot of improvement with more buses, stops, and longer hours.
- About 90% of Cary is not covered by public transportation. C-Tran needs wider and longer routes.
- Lights stay red too long.
- Not sure.
- Need to synchronize lights.
- Cary Parkway and High House need the stoplights checked for synchronizing; currently the red is too long and the green not long enough.
- Need to work on widening more roads.
- Not aware.

Appendix P

Specific Actions the Town Could Take to Improve Satisfaction with Planning and Development

11. Could you please tell us specific actions the Town could take to make you more satisfied with planning and development?

- Overpopulation issues.
- Apartment complexes.
- Not familiar with planning and development.
- I don't feel qualified to answer, don't know enough.
- Too many people; Cary can't handle all the people and more that will come.
- West Cary – unresponsive to west of 55 and 540 regarding road access. Need to finish roads. No growth plan in place, always changing.
- The infrastructure needs to be in place ahead of growth. Schools cannot handle the students they have now; need more schools.
- Schools are overcrowded; need more schools to handle growth.
- Roads, water, and sewer should have been in place before development. Doing it after the fact. Growth is enough, stop growth. Do not overdevelop the area. Stop cutting down trees to house more people at one-time events.
- Building on too small lots, need to increase lot sizes for building.
- Traffic is really congested throughout Cary. Need to do something.
- The downtown area worries me with water and sewer.
- I just don't see very good planning. The infrastructure is not in place for what is already here.
- Not sure, I don't keep up with it.
- Sewers are already having issues when it rains the sewers are flooding.
- I don't keep up with this information.
- Overdevelopment.
- Too many storage buildings and pharmacies.
- Too much development of apartments.
- Need more high-quality neighborhoods.
- School systems can't handle the growth, need more schools.
- We need more schools. Schools seem to be left out of the planning of all this growth.
- Unsure.
- Schools – not enough schools for the kids. School are overcrowded.
- I don't know much.
- Overdevelopment.
- Water availability.
- Not aware.
- There is too much development and the quaint Cary that it used to be is turning into a big city.
- Because of all the development, the original buildings and homes are suffering.
- They are not planning, just doing.
- I don't know enough to rate.
- Not aware.
- Stop knocking down all the trees.
- I don't know enough.
- I don't know really.
- Taking too long with construction.
- The schools can't handle the growth; need more schools.
- I am not informed enough to say.

- I don't know a whole lot about it.
- Too restrictive on developments.

Appendix Q

Specific Actions the Town Could Take to Improve Satisfaction with Downtown Revitalization

9. Could you please tell us specific actions the Town could take to make you more satisfied with downtown revitalization?
- No parking.
 - I would like more options downtown.
 - Improve the buses.
 - Revitalization is taking a while.
 - Art and theater are big waste of money. People would rather go to Raleigh.
 - Parking issues.
 - Wasting money. Money is needed in many other areas other than downtown.
 - Drawing in too many people; need to keep the small town feel.
 - Not sure, don't go downtown or keep up with it.
 - It is taking a long time to complete.
 - Stop using so much tax money. It is a great idea but spending too much; give a tax break to businesses.
 - Ridiculous. Hotel with 7 parking spaces and tax dollars are paying for private business. Stop wasting tax money.
 - Burning man sculpture was a complete waste of money; tax money just getting set on fire.
 - Cary is a nice place. Stop trying to make it something it is not. Apex has everything, the Mayor and Council are jealous of Apex and are trying to make a copy.
 - It is taking too long to complete and it causes traffic flow to be horrible. I hate to go downtown or anywhere near it. At this rate, it will not be done for another 14 years.
 - Downtown has nothing to offer. I am close enough to other areas for what I need.
 - Apex is a great example of what Cary needs to do.
 - Improve traffic.
 - It is taking too long.
 - Too much money in Arts Center.
 - The roads are so awful and it is taking forever to repair them.
 - Traffic is bad.
 - Not sure.
 - It is taking too long to complete.
 - The cloverleaf was a waste of money. Roundabouts are a pain.
 - A waste of money, not sure they know what they are doing.
 - Not really familiar with what's going on.
 - Copy what Apex is doing.
 - Construction is taking too long.
 - Too much is going on – traffic and road work is too slow.
 - Crappy, needs to be more modern; nothing downtown; it needs more shopping and fun things to do.
 - No style to what they are doing. It is very stark. No desire. Add more technology to the area.
 - Hotel is a waste of money and Burning Man was a waste of money.
 - Cary Theater should get more curb appeal as much money as it costs to renovate. It should be a lot nicer inside and out.
 - It is taking too long.
 - There is no parking.
 - Hotel is a big waste of resident's money. This should not have been funded by taxpayers.

- It is taking too long.
- Traffic issues.
- Not sure.
- Hotel is in a bad place and does not fit in.
- Trying to make downtown into something it is not.
- Not sure, no opinion.
- It needs more of a focal point to draw people in, more kid's activities.
- The new hotel is horrible – no character and too big for the area like Cary's current downtown feel. Hotel is ruining it.
- Not sure.
- Stop wasting money. The hotel should never have been built by Cary.
- A waste of money. The hotel should never have been funded by the Town. If it was likely to make money, then an individual would have built it.
- I don't go there.
- No parking.
- It's a mess, what's to like.
- I am not in downtown much.
- I never come to downtown side of Cary and know nothing about what is going on.
- I have not been downtown in a year and a half.
- I don't know enough to rate.
- Too much construction.
- Need more young adult places to go and hang out. Need water park for kids to play and more child friendly places. Signs are too little to read from your car. The theater needs to be completed.
- A current mess, I don't know enough to rate.
- I don't know anything. I don't go downtown ever.
- I don't go downtown.
- Hard to tell.
- No opinion.
- All the construction is hurting business downtown. I think it will be nice once it is done but hard to say right now.
- There is nothing downtown to do; need more youthful things to do.
- I don't go downtown.
- Need more sidewalks downtown. There is nothing in downtown that draws you to the area. Need more liveliness and culture in the area.
- I like downtown, but there's nothing really going on. It is hard to rate at this time.
- There is nothing downtown. Put some businesses in that will draw people in.
- Downtown needs more liveliness brought to it like 2-3 day weekend festivals or block parties to get people downtown to the shops and restaurants and to learn what's down there.
- Things are too spread out.

Appendix R

What Drew Respondent to Visit Downtown

24. (Yes responses) What drew you to visit downtown in the last year? (# of comments)

- Restaurants (60)
- Shops/shopping (55)
- Visiting the area/pleasure (47)
- For business/work (32)
- Library (26)
- Theater (20)
- Art/Art Center (19)
- Driving/passing through (19)
- Events (17)
- Drug store/Ashworth (17)
- Post Office (17)
- Festivals (14)
- Everything/numerous reasons (11)
- Church (10)
- Live in or around the area (10)
- Lazy Daze (9)
- Quaint/historic feel/atmosphere (9)
- Parade/Christmas parade (7)
- Supporting local business (7)
- Bank (6)
- Bars/pubs (5)
- School/preschool (4)
- Town government (4)
- Bakery (3)
- Beer store (3)
- Family time (3)
- Auto place (3)
- Farmer's Market (3)
- Salon/hair cut (3)
- Concerts (2)
- Train station (2)
- No need (2)
- Nothing in particular (2)
- Annie's Attic
- Flea market
- Gun store
- Fountains
- Panera Bread
- Dry cleaners
- Gym
- Herb garden
- Spring Days
- Not sure
- Tailor
- Thrift store

- Performances
- Love downtown area
- Wine bar
- Senior Center
- Jewelry store
- Go to Raleigh instead
- Antiques
- Page Walker
- Too see the construction

Appendix S

Why Respondent Did Not Visit Downtown Last Year

24. (No responses) Why did you not visit downtown in the last year? (# of comments)

- No reason (17)
- Schedule/work/busy (17)
- No interest/don't like it (11)
- Nothing down there (9)
- I go to other downtowns (6)
- Construction (5)
- Out of the way/hassle (5)
- Things are too spread out (4)
- No parking (3)
- Retired/elderly (2)
- I am closer to other areas
- Plan to go there soon
- Has not changed/the same
- Too crowded and loud
- Too commercialized
- Not big enough
- Needs to be updated

Appendix T

Amenities That Bring People Downtown - Other

25. Other? (# of comments)

- Parking is an issue (11)
- Children's stores/activities (7)
- Clubs to bring adult youth to the downtown area (4)
- Open later in the evening (3)
- Bands/live music (3)
- Anything that draws people is a good idea to try (3)
- Copy what Apex is doing downtown (2)
- Cultural events (2)
- Less expensive restaurants (2)
- Book store (2)
- Build living areas above shops (2)
- More variety (2)
- Gathering areas, hangouts (2)
- Outdoor dining (2)
- Festivals (2)
- It is fine the way it is (2)
- Finish the construction (2)
- Bakery
- Take out the old buildings and build new ones
- No more art
- When events happen like the Food Truck Rodeo make sure you can handle the crowd; people don't want to wait 30 minutes to get a beer
- Convention center
- Dancing/ballroom
- Fix the roads and that will draw me downtown
- Healthy, fun restaurants
- Food Truck Rodeo more often
- Improve traffic
- More small restaurants and shops
- Small family shops
- Offer things that you do not have to spend money
- No need to go downtown
- Better street lighting so locals can walk there
- They are wasting Town money
- Movie theater
- Zara Clothing Store
- More educational technology
- Long John Silvers
- Ethnic
- Make area more attractive and better signage so you know what the place is
- Family dining
- Organic shops
- Big buildings
- I would rather go to Apex or Raleigh
- Choose different art

- Coffee shop
- Tear it down and build a downtown
- I am disabled and don't go out much
- Parking is an issue
- No fast food
- Vape shop
- Makeup store
- Things for younger people to do so they don't have to travel to Raleigh to enjoy time out
- Boutiques
- 24-hour café or restaurant
- Wine store
- Pubs
- Antique store
- Something different
- It needs to be boosted, it has no appeal
- Breakfast place
- Food Truck Rodeo every weekend or every other weekend
- Outdoor movies
- Whole Foods Supermarket
- Parks

Appendix U

Places in Cary Where Wifi is not Available

35. In the last year, where have you been in Cary where you expected to be able to use public Wifi but couldn't because it wasn't available? (# of comments)
- None/not an issue (171)
 - I don't use it/never tried it (83)
 - I was unaware of public Wifi (55)
 - I don't pay attention, not sure (17)
 - Airport (6)
 - Need to advertise/inform/show map (4)
 - Library (3)
 - Stores while out shopping (3)
 - Shopping centers
 - Local restaurants
 - Time Warner Cable stinks; you can't use anywhere, it is too weak to load anything
 - No need, I am closer to Prestonwood and it has what I want
 - Wifi is horrible in my house, I don't know how it is throughout Cary
 - I can't remember
 - Not able to use at all anywhere throughout Cary
 - Bond Park
 - Town Hall area
 - Cary Senior Center gets bogged down
 - Koka Booth Amphitheatre
 - Unprotected Wifi is unsafe, would like if they would use a password such as the name of the location they are at
 - Worked great at the train station which is the only place I tried to use it
 - Cary Art Center basement is iffy depending on how many people are there
 - Need a better cell tower on the west side of Cary

Appendix V

Specific Actions to Improve the Job the Town of Cary is Doing for Seniors

36. Please tell us specific actions the Town could take to make you more satisfied. (Rating)

- Not familiar. (Rated 5)
- I don't know a lot. (Rated 5)
- I don't know enough to really rate. (Rated 5)
- Don't know enough but all looks fine. (Rated 5)
- I am not aware of senior housing. Need to advertise it. (Rated 5)
- Don't know enough, don't use it. (Not rated)
- Don't know, don't use. (Not rated)
- Not sure, not informed. (Not rated)
- Need more public transportation. (Rated 5)
- More public transportation. (Rated 5)
- Not sure about the efforts being made. (Rated 5)
- Not really aware. (Rated 8)
- Not informed enough to say, don't use. (Not rated)
- Need more senior housing that is affordable. (Rated 7)
- Seniors don't get a tax break. (Rated 3)
- More sidewalks needed. (Rated 6)
- Not aware. (Rated 5)
- An elderly woman use to live with me. She took C-Tran to get to the Senior Center. I took 3 hours on C-Tran to get home because of C-Tran connections and pick-up schedule. Seniors need a better transportation choice with better timing. (Rated 3)
- No bus service – C-Tran does not work. Seniors need better bus service. (Rated 2)
- Not sure, don't know enough. (Not rated)
- I don't know much. (Rated 5)
- Rough sidewalk ramps; hard to push wheelchairs. (Rated 5)
- I have not paid attention. (Rated 5)
- The bus service does not run regularly and you have to travel too far to get to a bus stop. When I get to a point of needing it, it will not be helpful for me. (Not rated)
- I am unaware. I don't know enough to say or rate. (Not rated)
- I don't know enough to give a fair rating. (Rated 5)
- I don't know much. (Rated 6)

Appendix W

Specific Actions to Improve the Job the Town of Cary is Doing for Citizens with Disabilities

37. Please tell us specific actions the Town could take to make you more satisfied. (Rating)

- There needs to be more one-story houses built for the older generation. (Rated 4)
- Not sure, it looks sufficient. (Rated 5)
- I don't know a lot. (Rated 5)
- Don't know enough about it, but C-Tran is great. (Not rated)
- Don't know enough to really rate it. (Rated 5)
- Don't know a lot, but things look good. (Rated 8)
- No opinion, don't know enough. (Not rated)
- Unsure of what they are doing. (Rated 5)
- Not informed enough to say, don't use. (Not rated)
- I don't know enough, not aware. (Rated 5)
- Improve C-Tran or other transportation options. (Rated 6)
- Not sure, don't know much. (Not rated)
- I don't know much about it. (Rated 5)
- When crossing the roads there are metal ramps on each side. The metal ramps are much more difficult for wheelchairs to go up and down them, it is too rough. (Rated 5)
- Improve transportation. (Rated 5)
- I have not paid attention. (Rated 5)
- Bad bus service. Need to increase bus availability, timing, and locations. (Rated 2)
- Looks good. (Rated 7)
- It looks okay from what I see. (Rated 5)
- Need more intellectual programs for children. (Rated 5)

Appendix X

Statistical Significance of the Town's Service Dimensions

Service Dimension	Sample Size 2014/2016	t-value	Statistical Significance
Town Government: Courteous	94/76	.85	No
