

POTENTIAL EVALUATION QUESTIONS

Example: The development of the Center for Public Technology's website

Stakeholder Groups	Questions	
	Output	Outcome
All	Was the website developed? How long did it take?	
All	Has the site been properly maintained? What, if any, problems have been encountered?	
All	Are local communities, agencies, and citizens using the website? Are there any problems with compatibility and connectivity?	
All	How frequently is the site accessed? For what purposes is it accessed?	
Local governments, partner organizations	Were staff members trained in use of the functions of the site? What level of training was required?	
Local governments, partner organizations, other states, cities, and communities		Are agencies experiencing more effective and efficient service dissemination?
All		Are citizens experiencing time savings in dealing with their local and state governments?
All	What issues would other cities, states, and communities need to address if deciding to replicate this approach?
