

UNAUTHORIZED ADMINISTRATION OF MEDICATION TO A CHILD.  
MISDEMEANOR. G.S. § 110-102.1A.

NOTE WELL: Use this instruction for offenses  
occurring on or after December 1, 2003.

The defendant has been charged with unauthorized administration of medication to a child. For the defendant to be found guilty of this offense, the State must prove three things beyond a reasonable doubt:

First, that the defendant administered [prescription] [over the counter] medication to a child attending a child care facility.<sup>1</sup>

Second, that at the time the defendant administered the medication he was an [employee] [owner] [household member] [volunteer] [operator] of the [licensed] [unlicensed] child care facility that the child was attending.

---

<sup>1</sup>A child care facility is defined in G.S. 110-86 as a child care center, family child care home, or any other child care arrangement not excluded by G.S. 110-86(2), that provides child care, regardless of the time of day, wherever operated, and whether or not operated for profit. A child care facility, as used in this section, includes child care facilities operated by public schools and nonpublic schools as defined in G.S. 110-86. However, for purposes of this section, a child care facility operated by a public school does not include kindergarten through twelfth grade classes.

UNAUTHORIZED ADMINISTRATION OF MEDICATION TO A CHILD.  
MISDEMEANOR. G.S. § 110-102.1A. (Continued.)

And Third, that the defendant acted willfully and without written authorization<sup>2</sup> in administering the medication to the child.

NOTE WELL: Subsection (b) of the statute states that in the event of an emergency medical condition and the child's parent or guardian is unavailable, it shall not be unlawful to administer medication to a child attending the child care facility without written authorization as required under subsection (a) of this section, if the medication is administered with the authorization and in accordance with instructions from a bona fide medical care provider. For purposes of this subsection, the following definitions apply:

(1) A bona fide medical care provider means an individual who is licensed, certified, or otherwise authorized to prescribe the medication.

(2) An emergency medical condition means circumstances where a prudent layperson acting

---

<sup>2</sup>For the purposes of this section, written authorization shall include the child's name, date or dates for which the authorization is applicable, dosage instructions, and signature of the child's parent or guardian.

UNAUTHORIZED ADMINISTRATION OF MEDICATION TO A CHILD.  
MISDEMEANOR. G.S. § 110-102.1A. (Continued.)

*reasonably would have believed that an emergency  
medical condition existed.*

If you find from the evidence beyond a reasonable doubt that that on or about the alleged date the defendant willfully and without written authorization administered [prescription] [over the counter] medication to a child attending a child care facility and that at the time the defendant administered the medication he was an [employee] [owner] [household member] [volunteer] [operator] of the [licensed] [unlicensed] child care facility that the child was attending, it would be your duty to return a verdict of guilty. If you do not so find, or have a reasonable doubt as to one or more of these things, it would be your duty to return a verdict of not guilty.
