The Broughton District master development plan will reinvent a historic hospital campus and build from its legacy of wellness and stewardship to inspire $182-$192 million of new private investment in a mixed-use village. Development will focus on a cluster of adaptively reused historic buildings and site-specific new construction for housing, commercial, and hospitality uses. This private investment will be supported by $81 million of public investment in amenities and infrastructure. Walking trails will connect schools, homes, restaurants, shops, a Western North Carolina history and science discovery center, and a hotel as they weave through stands of mature trees, around working farms, along a quiet creek, through a central park, and ultimately into the vibrant Morganton downtown.

In addition, the District is welcoming a new campus of the North Carolina School of Science and Mathematics, a UNC system school, set to open in 2021. As an Opportunity Zone within a State-designated Hometown Strong Initiative community, the District will be girded by a robust public-private partnership with support from both State and local governments.

BROUGHTON DISTRICT VISION

The Broughton District master development plan will reinvent a historic hospital campus and build from its legacy of wellness and stewardship to inspire $182-$192 million of new private investment in a mixed-use village. Development will focus on a cluster of adaptively reused historic buildings and site-specific new construction for housing, commercial, and hospitality uses. This private investment will be supported by $81 million of public investment in amenities and infrastructure. Walking trails will connect schools, homes, restaurants, shops, a Western North Carolina history and science discovery center, and a hotel as they weave through stands of mature trees, around working farms, along a quiet creek, through a central park, and ultimately into the vibrant Morganton downtown.

In addition, the District is welcoming a new campus of the North Carolina School of Science and Mathematics, a UNC system school, set to open in 2021. As an Opportunity Zone within a State-designated Hometown Strong Initiative community, the District will be girded by a robust public-private partnership with support from both State and local governments.

DEVELOPMENT PROGRAM (LEADING SCENARIO)

- **Burkemont Avenue Hotel**: The new construction of a 120-room limited service, mid- to upscale conventional flag hotel oriented to the primary transportation corridors.
- **Silo Ridge**: A mixed-use village including the adaptive reuse of 45,000-SF of historic barns into artisan retail shops and restaurants coupled with the new construction of 81 for-sale residences.
- **Broughton Terrace**: New construction and adaptive reuse of four historic buildings in the historic hospital campus to create 203 market-rate apartments.
- **Colony Commons**: New construction and adaptive reuse of the historic agrarian colony buildings as a 144-unit independent living rental community with amenities for active senior adults.
- **Hotel Avery**: The adaptive reuse of the landmark Avery Building in the core of the historic hospital campus into a 118-room full-service, luxury hotel with conference center, restaurant and spa amenities. Adjacent to the hotel will be a 53-unit multi-family residential project and a new 51,000-SF Western NC Discovery Center museum complex.

FOR A DIGITAL COPY OF THE COMPLETE REPORT, GO TO SOG.JUNC.EDU/DFI/BROUGHTON.
Nestled in the foothills of western North Carolina is the charming city of Morganton (2016 pop. 16,900)—a principal city of the Hickory-Lenoir-Morganton metropolitan area (pop. 365,000) that is poised to capture demand for housing, retail and commercial development over the coming years. Its lively downtown, steady economy, and centrality to the Blue Ridge outdoor recreation opportunities have made it a destination for in- and out-of-state households. Once dependent on textiles and manufacturing, the region now sees a flourishing tourism industry and economic investment from Fortune 500 companies, including General Electric, Google, and Apple. Sustained growth in the surrounding cities of Charlotte, Asheville, and Boone—all within a 1-hour drive of Morganton—complement the advanced manufacturing, healthcare, and emerging technology industries in this region. The District lies at the heart of the region and draws on the following strengths:

- **High Visibility:** The District is situated between exits 103 and 104 on the I-40 corridor and is bounded by three other business highways. In total, more than 125,000 cars pass the District each day.

- **Historic Grounds:** The Historic Broughton Campus was developed over 140 years ago and was listed in the National Register of Historic Places in 1987, based on 60 contributing buildings built between 1875 and 1940. In addition, large specimen ginkgo, catalpa, oak and other variety of trees have matured across the entire District, adding to its historic and grand aura.

- **Natural Beauty:** The topography of the District offers dramatic and picturesque views of the surrounding mountains. Hunting Creek, a tributary of the Catawba River, has carved out a steep valley through the center of the District, where slopes reach 55 degrees in some areas. The most fertile land for agricultural development is found along Hunting Creek, where Western Piedmont Community College has installed a 10-acre agricultural plot, as well as a model sustainable farm.

- **Permissive Zoning:** The entire District is located within the city limits and is covered by two zoning designations: high intensity district (HID) and state institutional district (SID). Within these zoning designations, a variety of residential and commercial land uses are permitted, as well as farming and livestock. There is a max density (with provisions) in HID of 20 dwelling units per acre and a max building height of 65 feet. There is no max density within SID and a max building height of 65 feet. These restrictions do not pose barriers to a market- and site-appropriate scale of new development.

- **Available Infrastructure:** The existing anchor institutional tenants have brought all critical utilities to the District. With a development strategy centered around adaptive reuse of historic buildings, extensions of water and sanitary sewer lines will be a modest investment for new construction sites. A regional stormwater pond to serve the eastern half of the District is part of planned public investments. In addition, the District is already served by high-speed broadband Internet.
A set of public amenities, including greenways, park space and a pond, will stitch together the development sites within the District and provide both visitors and residents with access to unique outdoor recreation areas. Hunting Creek, a primary tributary of the Catawba River, which flows South to North through the center of the District, serves as the backbone for many of these significant public amenities.

**HUNTING CREEK GREENWAY ($4.8M)**
The first phase of the Broughton District Hunting Creek greenway, a 1.4-mile 10’-wide paved path, begins at the historic stone arches of Broughton Hospital at Sterling Road, meanders along Hunting Creek past the newly developed NC School of Science and Math campus and ends at the culverts that pass under I-40. This path serves as the central pedestrian corridor of the District which will join up with the planned greenway along College Street and provide direct access for cyclists and walkers into downtown Morganton and beyond to the Catawba River greenway. This proposed greenway has already been incorporated into the City of Morganton 2018 Parks and Recreation Master Plan. A future phase of the Hunting Creek greenway spine uses one of the culverts under I-40 to extend the trail south to the J. Iverson Riddle Center as well as Patton Middle School and Liberty High School on Enola Road.

**ESTC RELOCATION ($4.3M)**
At the center of the Broughton District is currently the Burke County Emergency Services Training Complex (ESTC) that will be relocated to a site outside of the 800-acre District, opening up this highly visible portion of land for public space development.

**BROUGHTON POND AND PARK ($8.3M)**
The relocation of the Burke County ESTC facility opens up 18 acres for the development of a park and pond that includes a loop trail, wetland boardwalk, passive open spaces and pavilions for public gatherings and events. Direct access to the Broughton Pond is through the park.

The Broughton Pond serves multiple purposes within the District. The 11-acre water feature, built primarily within the 100-year floodzone, is designed to collect and filter the stormwater runoff from the eastern half of the Broughton District, serve as an educational laboratory to teach visitors about regional water quality issues, as well as establish a visually stunning centerpiece to the District redevelopment. Many of the development opportunities within the District have impressive views to this feature, and greenway trails have been planned to link the individual development projects within the District down to this feature. Along with the greenway, this proposed park space has already been incorporated into the City of Morganton 2018 Parks and Recreation Master Plan.

Broughton District

Regional Overview

A Strong Connection to Nature

Claiming one of the most scenic locations on the east coast, Morganton sits in the foothills of the Blue Ridge Mountains and is known originally as “nature’s playground” due to its easy access to outdoor recreation. Morganton is situated along major transportation corridors that make it a gateway to several of the most popular outdoor attractions in Western North Carolina—Linville Gorge, South Mountains State Park, Pisgah National Forest, and Lake James. The region’s national forests, state parks, farms, orchards, and vineyards draw tourists, while Morganton itself offers trails, golf courses, athletic facilities, and historic sites within minutes of downtown.

A Diverse and Resilient Economy

One of the region’s primary industry specializations is manufacturing, which has historically served as the economic backbone of Western North Carolina. Indeed, legacy industries in furniture and textile manufacturing still maintain large workforces in the region and have spurred a cluster of specialized machining businesses that offer well-paid, skilled jobs. In addition to this stable industrial base, technology firms have made large investments in the region in recent years. Government-sponsored public service facilities such as the local hospitals and schools have also provided a steady base of employment.

The Hickory-Lenoir-Morganton Metropolitan Statistical Area (MSA) represents a regional economy anchored by Interstate 40 and Route 321. The MSA is specialized in healthcare services and education, and contributes to Western North Carolina’s competitive advantage in advanced manufacturing industries – industries using technology and improved processes to increase productivity across a range of manufactured products. Major employers in this sector include Case Farms (food processing), Leviton (electrical component manufacturing), Continental (automotive manufacturing), and Viscotec (automotive textiles manufacturing), which together account for 3,400 jobs in the region.

Morganton itself contains several prominent healthcare centers, including the Carolinas HealthCare System—Blue Ridge Hospital, one of the largest employers in the region, and the new Broughton Hospital, which represents a $130 million investment by the State into the city. Morganton also benefits from strong regional educational institutions, many of which have long focused on preparing the workforce for advanced and post-manufacturing employment. These include Appalachian State University (Boone), Western Carolina University (Cullowhee) and UNC-Asheville (Asheville). Alongside its access to these institutions, the City of Morganton is home to Western Piedmont Community College, North Carolina School for the Deaf, and now, the new western campus of the North Carolina School of Science and Mathematics, an elite residential high school in the UNC system. These Morganton-based institutions account for over 7,000 students receiving specialized training in preparation for well-paying careers in technology, healthcare, and other industries.

The MSA experienced strong job growth in 2016 and early 2017, and recent industrial recruitment alone will add more than 250 jobs to Burke County over the next five years. Nearby data centers for large tech companies, including Google, Apple, and Facebook, are recruiting a new skilled tech workforce to the area. The MSA has begun to attract high-skill industries that will enhance the employment base and raise wages in the coming years.

Connected to History, Prepared for the Future

Historic downtown Morganton is seeing this renewed energy in the form of investment in craft breweries and farm-to-table restaurants that attract visitors seeking an authentic culinary experience. The adaptive reuse of several historic commercial buildings has rejuvenated the city’s downtown, which is flourishing with boutique shops, a first-run movie theater, and a performing arts venue with a full slate of Broadway shows and national acts. The repurposed historic Premiere Mill – now an award-winning mixed-use project, home to city hall, event space, and luxury apartments – anchors one corner of downtown and has spurred new investment in surrounding blocks while also contributing to Morganton’s historic character and charm.

VISION STATEMENT
An upscale flag hotel bounds the southwestern corner of the Broughton District, adjacent to the Western Piedmont Community College (WPCC) and in close proximity to the District's many amenities. Guests of the hotel are well-situated to enjoy Morganton's charming downtown and Western North Carolina’s exceptional beauty and outdoor recreation opportunities.

VALUE PROPOSITION
With excellent highway access and visibility, the Burkemont Avenue hotel attracts both passing visitors as well as patrons visiting Morganton for conferences, recreation, and events hosted by the local schools and universities. Beyond its well-appointed rooms, a pool, meeting space and a fitness center, the flag hotel offers first-rate access to the region’s numerous draws. The hotel meets an existing shortage of upscale accommodations for corporate gatherings, continuing education courses at WPCC, and local recreational draws including athletic tournaments, and music and art festivals.
Morganton is situated near I-40, I-26, I-77, and I-85, one hour from both Charlotte, NC and Asheville, NC, positioning it as a convenient option for business and leisure travelers to the mountains from a wide geographic area. The site sees 46,000 automobile trips per day on adjacent routes.¹ Morganton is one of the most convenient destinations from Charlotte that provides access to the recreational amenities of western North Carolina, including the Blue Ridge Mountains, Pisgah National Forest, Linville Gorge and Lake James State Park, which attract visitors from North Carolina and surrounding southeastern states.² Last year, the Blue Ridge Parkway alone generated nearly 16.1 million visitors, 152,000 overnight stays, and 50,000 overnight stays in hotels.³

Burke County has experienced the second largest growth in tourism economic impact and visitor spending in the state in recent years, behind only Buncombe County.⁴ Burke County hosts numerous recreational and cultural opportunities, such as the Annual Historic Morganton Festival, which draws 40,000 attendees;⁵ the Red, White and Bluegrass Festival, drawing 1,000-3,000 attendees; and popular fall foliage tours in October that are correlated with markedly lower vacancy rates and higher revenue per available room (RevPAR) than the annual average for comparable hotel projects.⁶

The City’s Parks and Recreation Department oversees extensive recreational facilities that draw regional and statewide visitors including nine baseball and softball fields at Catawba Meadows Park and over four miles of paved trails on the Morganton Greenway System. The local Catawba River Soccer Complex is currently being expanded to attract soccer tournaments that could generate overnight stays in Morganton.⁷

Morganton is also home to several educational institutions that account for over 7,000 students. These institutions will draw families for weekend visits and graduation ceremonies each year.⁸ Additionally, Downtown Morganton, only 1.5 miles from the site, is served by several craft breweries and wineries, as well as an abundance of shops and restaurants that provide a charming small-town feel that makes Morganton an ideal vacation spot in western North Carolina.
Morganton's numerous area draws result in strong and growing demand for hospitality space, which is demonstrated through growth in comparable projects' occupancy (see Graph 1, below), average daily rate (see Graph 2, below), and revenue per available room (RevPAR). A slight dip in percent occupancy in 2015 reflects the addition of 113 rooms to the upscale market with the opening of the Hilton Garden Inn in Hickory in December 2014. However, overall occupancy actually increased in this time period.9

Despite the growth in profitability of hospitality space, the supply of hotel rooms in Morganton and Hickory has been relatively stable over the past several years, growing by only 7% since 2012. There has been no new construction of comparable hospitality offerings in Morganton since February 1999. However, this is not due to lack of demand for upscale accommodations or hospitality space more generally. There is, in fact, evidence of increasing pressure on the current market supply. The only comparable upscale establishment in Morganton, the Hampton Inn, refurbished its location in 2018. Furthermore, there is evidence to suggest that a current shortage of lodging options is masking additional unmet demand. Western Piedmont Community College leadership notes that demand for 2-to-3-day continuing education courses cannot be met due to inadequate accommodations for such events.10 Similarly, in 2015, the North Carolina Main Street Conference drew enough attendees to overwhelm the supply of hospitality space in Morganton, and drive conference-goers to private residences, and nearby hospitality offerings in Catawba and McDowell Counties.

As demand for lodging grows and current stock ages, there will be opportunities to develop new hospitality offerings that capture the market pressure for upscale accommodations and amenity space that capitalize on the business and leisure draws to the region. The recent ground-breaking of an 85-key Fairfield Inn & Suites in downtown Morganton is one example of new product that targets this underserved segment.

The Silo Ridge village adaptively reuses the iconic Silo Barn and other historic agrarian structures in the Broughton District as a destination for artisan retail and an anchor to complement new construction of a for-sale residential community of townhomes and single-family homes. The village sits along a high ridge on the District trail system that puts Western Piedmont Community College, NC School of Science and Mathematics, and downtown Morganton within walking and biking distance of these homes and shops.

VISION STATEMENT

As a horizontally mixed-use community, the Silo Ridge village leverages the authenticity of historic barns to create a retail destination that will add value to a diversity of new-construction home types. Coordinated development of the 45,000 SF of retail and 29 townhomes as the initial phase will allow the Village to generate brand awareness and pre-sales momentum for the build-out of a subdivision of 52 single-family homes. In a tight local housing market with significant recent job creation and an old housing stock, Silo Ridge will represent a premium product to help catalyze the Broughton District master plan.

The Silo Ridge village is a mix of newly constructed residential homes anchored to a cluster of shops built inside and around the historic Silo Barn. Residents live in either a 3-bedroom townhome (29 units in 6 blocks, avg. unit size 1500 SF) immediately adjacent to the Silo Barn, or in nearby 3- or 4-bedroom single-family homes (52 units, avg. size 2500 SF) gently stretching further into the pastoral setting. Homes and townhomes are clad in painted lap siding with brick accents, shaded porches, traditional double-hung windows, and gabled shingle roofs. Approaching through a landscaped brick plaza, village residents enter Silo Barn Market under its iconic spired double silos, strolling through what was once a historic livestock barn, past retail stands of fresh local produce, honey, cut flowers, and crafts. Skylights wash the market with natural light, illuminating exposed roof rafters and red brick masonry walls. At the end of the market is an attached two-story brick and wood-plank barn, as well as a cluster of other warehouses that have been adaptively reused as a coffee shop, tap room, art gallery, and other assorted destination retail.

The City of Morganton offers a home for young professionals, families with children, and empty-nesters seeking a stimulating, yet affordable place to work and live. The City will host nearly 400 of the 900 new jobs projected over the next several years in Burke County. The public school district was recently ranked among the top 15 school districts in the State (out of 116 districts total). Morganton attracts outdoor enthusiasts given its local recreational assets including golf courses, walking trails, athletic fields and a community greenway, as well as its easy access to national draws including Linville Gorge, Lake James, and Pisgah National Forest. Morganton’s downtown has maintained a charming, small-town feel through preservation of its historic architecture, while also hosting the modern amenities of a larger city, including a first-run movie theater and a performing arts venue. There have been numerous examples of successful adaptive reuses of historic buildings into new craft breweries, farm-to-table restaurants and shops that have rejuvenated the downtown and made Morganton akin to popular Western North Carolina cities like Asheville.
MARKET INDICATORS AND COMPS

The Hickory-Lenoir-Morganton Metropolitan Statistical Area (MSA) is experiencing rising pressure on the local housing stock as a result of a growing economy, with a 4% increase in employment since 2015 and an unemployment rate below the state average in the last two years.² The MSA as a housing unit development of any MSA in the state (see Chart 1).³ However, it also has the largest percentage of its housing stock built before 1980 of any MSA in the State, and the lowest percentage built since 2000 (see Chart 2).⁴

The City of Morganton will see a widening gap between housing demand and supply. In the last three years (2015-2017), Morganton issued building permits for an average of 69 new housing units per year.⁵ Meanwhile, even as the median home value is rapidly rising,⁶ Burke County is projected to add 690 households (60% owner-occupied, 40% renter-occupied) between 2017 and 2022, an average of 138 per year.⁷ An aging housing stock and a low inventory of available homes for sale make the market ripe for new supply. Nearly 58% of owner-occupied housing in the City was built prior to 1970. Less than 9% of owner-occupied houses were built since 2000, compared to the State average of 26%. Among recent home sales, the median price for a home in the City is 5-7% more than the median sale price for a comparable home (bedroom/bath count) in the County, despite an older average year built. Only 1% of the for-sale housing stock in the entire County is for sale.⁸

New single-family and for-sale multi-family housing can attract a wide variety of buyers, including community professionals (such as teachers at NCSSM, NCSD, and WPCC), visiting physicians and interns at Carolinas Healthcare System – Blue Ridge or Broughton Hospital, the emerging tech workforce that will expand with the coming of Google, Facebook and Apple data centers to the region, and employees of manufacturing industries, which have experienced recent growth. One-third of all homeowners in the County are earning between $35,000 and $74,999; however, owner-occupied households earning $75,000 or more are projected to be the income bracket growing the most in the County between 2017 and 2022. Given these growth projections, the deepest segment of the for-sale market is anticipated to be for households earning $85,000 or more, looking for homes priced at $300,000 or more. The next deepest segment is for households earning $60,000-$84,999 looking for homes priced between $200,000 and $299,999.⁹

FEARRINGTON VILLAGE

- **Location:** Chatham County, NC
- **Population:** 69,000
- **Program:** Approx. 1,400 residential units within a mixed-use artisan retail community
- **Completion Date:** 2016
- **Former Land Use:** Dairy Farm
- **Overview:** Fearrington Village is anchored by an artisan retail village offering fine dining opportunities and boutique shopping in a rustic setting. The village was adapted from a family farm dating back to 1925, and its historic elements have been preserved and integrated with new construction and modern amenities to create a charming and unique village center.

### 10 - YEAR DEVELOPMENT TIMELINE

- **Phase I**: Burkemont Ave. Hotel, Silo Ridge
- **Phase II**: Broughton Terrace
- **Phase III**: Western Discovery Center
- **Phase IV**: Hotel Avert / Avery Commons
VISION STATEMENT

Adaptive reuse and new construction multifamily housing forms the southern edge of the Historic Broughton Campus, providing unique living opportunities in a mixed-use community, with close proximity to dining, arts and cultural offerings, educational assets like Western Piedmont Community College and the Western North Carolina Discovery Center, and outdoor recreation with stunning scenery.

VALUE PROPOSITION

Apartments attract young, single professionals and couples without children who seek living arrangements that offer onsite amenities, easy access to recreational and leisure opportunities, and close proximity to education and employment centers. There is an opportunity to capture increasing demand for both rental and for-sale units given the growth of key employers throughout the region, and to capitalize on the low vacancies, stagnant supply and aging stock of current housing options. On-site property management, a clubhouse, and a pool will further set this product apart with its amenities and level of service for residents.

PROJECT SCOPE

OVERALL SITE PLAN
The City of Morganton offers an ideal home for young professionals, couples, and single adults seeking a stimulating, yet affordable place to live, that balances career and educational opportunities with top-notch access to outdoor recreation. The City of Morganton already has access to a large population of young adults due to its close proximity to major public universities including Appalachian State University (Boone), Western Carolina University (Cullowhee) and UNC-Asheville (Asheville), as well as institutions within the City boundaries: Western Piedmont Community College (WPCC), North Carolina School for the Deaf, and now, the new western campus of the North Carolina School of Science and Math.

A multifamily apartment community lies just south of the Avery Building, comprised of renovated historic buildings (Bates, Scroggs, Harper and Dining) repurposed as apartments, as well as newly constructed apartment buildings. Following the tree-lined plaza drive to the south, village residents stroll along a boulevard of modest two-to three-story renovated historic masonry hospital wards, while the landscape opens into a block of new garden-style apartment buildings. The historic buildings date from the late 1800s to the mid-1900s, reflect Classical, Colonial, and Art Deco styles, and feature red brick, concrete inlay and glass block details, gables, and slate roofs. The two- to three-story nature of the historic and new buildings provides a residential and human scale to the community.

AREA DRAWS

The City of Morganton offers an ideal home for young professionals, couples, and single adults seeking a stimulating, yet affordable place to live, that balances career and educational opportunities with top-notch access to outdoor recreation. The City of Morganton already has access to a large population of young adults due to its close proximity to major public universities including Appalachian State University (Boone), Western Carolina University (Cullowhee) and UNC-Asheville (Asheville), as well as institutions within the City boundaries: Western Piedmont Community College (WPCC), North Carolina School for the Deaf, and now, the new western campus of the North Carolina School of Science and Math.

Together, these institutions account for thousands of students receiving specialized and technical training in preparation for well-paying careers in technology, healthcare, and other industries that are represented in the regional job market. The City of Morganton has the opportunity to convert these students to permanent residents given its growing career opportunities, recreational and cultural assets, and affordable housing stock.1

Additionally, Morganton is well-positioned to attract outdoor enthusiasts given its local recreational assets including golf courses, walking trails, athletic fields and a community greenway, as well as its easy access to national draws including Linville Gorge, Lake James, and Pisgah National Forest. Morganton’s downtown has maintained a charming, small-town feel through preservation of its historic architecture, while also hosting the modern amenities of a larger city, including a first-run movie theater and a performing arts venue. There have been numerous examples of successful adaptive reuses of historic buildings into new craft breweries, farm-to-table restaurants and shops that have rejuvenated the downtown and made Morganton akin to popular Western North Carolina cities like Asheville.
The Hickory-Lenoir-Morganton Metropolitan Statistical Area (MSA) is experiencing a rising pressure on the local housing stock as a result of a growing economy. The MSA has experienced the highest job creation relative to housing unit development of any MSA in the state (see Chart 1), a result of a stagnant supply of housing. Even as the median home value is rapidly rising, Burke County is projected to add 690 households between 2017 and 2022, approximately 138 new households per year. Yet, on average, only 69 new residential units were permitted per year over the past three years (2015-17). Multifamily residential vacancy rate sits at 2% in Burke County, and vacancy among stabilized market-rate multifamily properties in the City of Morganton sits at 1.5%.

Compounding the challenges associated with demand growth, are limitations in the supply of multifamily housing in Burke County and the City of Morganton. Nearly 47% of renter-occupied housing and 58% of owner-occupied housing in Burke County was built prior to 1970. Furthermore, 76% of all multifamily rental product within the county was built prior to 1990. Though overall vacancy in multifamily properties is low, properties built since 1990 are 100% occupied. Five-year projections estimate the greatest demand for multifamily product for households with incomes above $45,000, which can support rents of approximately $1,100 per month. Specifically, projections indicate demand for 882 new, high-quality, amenitized rental units to support the growth of this income group given the currently-limited supply of high-quality rental product in Burke County. Finally, there is currently an undersupply of 1-bedroom units in the market. Though 63% of all renter households in the County are 1- and 2-person households, less than 9% of market-rate units surveyed are 1-bedroom units.

There have been recent efforts to accommodate this demand. Morganton Trading Company—the 2006 adaptive reuse of a former textile mill in downtown—has 43 market-rate 1- and 2-bedroom units. The property currently operates at 100% occupancy with a waiting list. One-bedroom, 1-bath units range in size from 700 SF to 1,185 SF earning rents of $850 to $1,000 per month. Two-bedroom, two-bath units range in size from 800 SF to 1,625 SF earning rents of $950 to $1,425 per month. Meanwhile, the Dunivent Lofts, a 47-unit market-rate adaptive reuse residential project in downtown Morganton, is under construction and slated to be completed in 2019.

The Broughton District offers an opportunity for developers to capitalize on stagnant supply and aging stock of housing to attract homeowners and renters for both current and projected populations in the Hickory-Lenoir-Morganton MSA.

(10) Ibid.
The Historic Broughton Campus’ refurbished Avery building stands as a landmark feature in the District’s northeastern corner, housing 53 condominiums and a 118-key boutique hotel adjacent to the Western North Carolina Discovery Center and a thriving restaurant. Visitors and residents alike enjoy historic architecture, striking natural beauty of the site’s old-growth trees and rolling hills, and views of the Blue Ridge Mountains while taking advantage of both on-site amenities and nearby recreational draws.

**VALUE PROPOSITION**

The full-service boutique hotel draws visitors from across the southeast who seek upscale accommodations and a unique experience: a historic building in a bucolic setting with superior access to Morganton’s nearby attractions, and corporate or educational events. The boutique hotel includes on-site amenities that meet the needs of its diverse patronage, including meeting space and dining options, which sets the property apart from “flag” hotels in the Hickory-Lenoir-Morganton metro market that demonstrates steady growth in occupancy and average daily rates with little new supply.
A NEW VISION

HOTEL AVERY

A typical Hotel Avery Room greets the guest with a blend of refined historic finishes and warm modern amenities. Rooms are bright and airy with tall historic plaster ceilings, bathed in natural light from tall arch-topped window openings sculpted into historic masonry and plaster walls. Floors are a blend of historic caramel pebble terrazzo and modern warm accent carpets. Baths feature clean, modern fixtures and cabinetry, solid-surface vanity tops, with tile and glass bath surrounds. Furniture is unadorned and modern, coexisting with the room’s historic architectural heritage.

A Hotel Avery guest approaches the building from a manicured elliptical drop-off courtyard, entering a 1-story reception and check-in wing. The reception wing is light-filled and airy, with high ceilings and an exposed historic roof structure. Flanking the reception area is a trendy breakfast café, as well as a white tablecloth restaurant offering freshly prepared meals with locally sourced ingredients. Following a central corridor into the hotel, guests follow a wide corridor with cherry-flecked ivory terrazzo floors and modern-patterned carpet runners. Soft lighting washes the detailed historic plaster walls. Passing secondary corridors to the north and south guestroom wings, guests find themselves in the central tower lobby, adjacent to stairs, elevator, hotel administration, and the Hotel Avery Gift Shop and Gallery. Attached to the north guestroom wing is a 2-story secondary wing containing a large conference center, spa, fitness center, and private conference rooms. For guests interested in taking a refreshing dip on a humid North Carolina summer day, a seasonal outdoor swimming pool is nestled in the landscaped courtyard between the South Wing and the Reece Building, surrounded by Hotel Avery’s classical historic masonry facades. Pool-side food and beverage service is available.

PROJECT DESCRIPTION
Like the Hotel Avery guest rooms, Avery Residences offer a blend of refined historic finishes and warm modern materials in efficiency, 1-bedroom and 2-bedroom rental unit layouts. Kitchens and baths feature clean modern fixtures, appliances, cabinetry, solid-surface counter tops, with tile and glass bath surrounds. Each unit has a stacked washer-dryer closet. Public spaces and corridors are generous in width and ceiling height, with fine plaster walls and terrazzo floors. Sunny nooks and social foyers in the building’s projections are regularly spaced along the corridors, naturally lit and visually connected to the outside with large window openings. Residents have the opportunity to join a club that provides access to all the hotel amenities, including the pool, spa and fitness center.

### Western NC Discovery Center

The State’s Department of Natural and Cultural Resources would create a regional Discovery Center museum for the western portion of the state. This ‘Discovery Center’ will focus on the cultural and natural history of the western portion of the state as well as showcase regional fine arts, and learning labs designed as immersive educational environments around natural sciences, history and outdoor learning.

The museum buildings will be connected via a plaza that integrates hardscaping and outdoor educational spaces that complement the private uses of Hotel Avery. A 30,000 SF privately developed commercial structure is proposed in this phase that will serve as the gateway piece into the museum and Hotel Avery.

</table>
Morganton is situated near I-40, I-26, I-77, and I-85, one hour from both Charlotte, NC and Asheville, NC, positioning it as a convenient option for corporate events from a wide geographic area. The site sees 46,000 automobile trips per day on adjacent routes. The Historic Broughton Campus itself is located along South Sterling Street, a primary corridor in Morganton’s downtown area, that sees an average of 22,000 automobile trips per day, ensuring visibility to the public.

Morganton is one of the most convenient destinations from Charlotte that provides access to the recreational amenities of western North Carolina, including the Blue Ridge Mountains, Pisgah National Forest, Linville Gorge and Lake James State Park, which attract visitors from North Carolina and surrounding southeastern states.

Burke County has experienced the second largest growth in tourism economic impact and visitor spending in recent years, placing it behind only Buncombe County in the state. Burke County hosts numerous recreational and cultural opportunities, such as the Annual Historic Morganton Festival, which draws 40,000 attendees; the Red, White and Bluegrass Festival, drawing 1,000-3,000 attendees; and popular fall foliage tours in October that are correlated with markedly lower vacancy rates and higher revenue per available room (RevPAR) than the annual average for comparable hotel projects.

The City’s Parks and Recreation Department oversees extensive recreational facilities that draw regional and statewide visitors including nine baseball and softball fields at Catawba Meadows Park and over four miles of paved trails on the Morganton Greenway System. The local Catawba River Soccer Complex is currently being expanded to attract soccer tournaments that could generate overnight stays in Morganton.

Morganton is also home to several educational institutions that account for over 7,000 students. These institutions will draw families for weekend visits and graduation ceremonies each year. Additionally, Downtown Morganton, only 1.5 miles from the site, is served by several craft breweries and wineries, as well as an abundance of shops and restaurants that provide a charming small-town feel that makes Morganton an ideal vacation spot in western North Carolina.
Morganton’s numerous area draws result in strong and growing demand for hospitality space, which is demonstrated through growth in comparable projects’ occupancy (see graph 1, below), average daily rate (see graph 2, below), and revenue per available room (RevPAR). A slight dip in percent occupancy in 2015 reflects the addition of 113 rooms to the upscale market with the opening of the Hilton Garden Inn in Hickory in December 2014. However, overall occupancy actually increased in this time period.9

Despite the growth in profitability of hospitality space, the supply of hotel rooms in Morganton and Hickory has been relatively stable over the past several years, growing by only 7% since 2012. There has been no new construction of comparable hospitality offerings in Morganton since February 1999. However, this is not due to lack of demand for upscale accommodations or hospitality space more generally. In fact, there is evidence of increasing pressure on the supply in the market. The only comparable upscale establishment in Morganton, the Hampton Inn, refurbished its location in 2018. Furthermore, there is evidence to suggest that a current shortage of lodging options is masking additional unmet demand. Western Piedmont Community College leadership notes that demand for 2-to-3-day continuing education courses cannot be met due to inadequate accommodations for such events.10 Similarly, in 2015, the North Carolina Main Street Conference drew enough attendees to overwhelm the supply of hospitality space in Morganton, and drive conference-goers to private residences, and nearby hospitality offerings in Catawba and McDowell Counties.

As demand for lodging grows and current stock ages, there will be opportunities to develop new hospitality offerings that capture the market for upscale accommodations and amenity space that capitalize on the business and leisure draws to the region. The recent ground-breaking of an 85-key Fairfield Inn & Suites in downtown Morganton is one example of new product that targets this underserved segment.

9 STR Data indicates that despite decline in percent occupancy, overall occupancy per day actually increased by 44 rooms on average over this time period.

10 As reported by Hotel and Club Associates of Virginia in a custom report generated 9 September 2015; Morganton News Herald.

CASE STUDY

HOTEL HENRY

- Location: Buffalo, NY
- Population: 259,000
- Size: 88 Rooms; the first phase of the Richardson Olmsted adaptive reuse project
- Completion Date: 2016
- Former Land Use: Buffalo Psychiatric Center
- Overview: The former Kirkbride-style Buffalo Psychiatric Hospital is repurposed as the Richardson Olmsted Campus—home to anchor tenant Hotel Henry, which features upscale accommodations, conference and event spaces, and a farm-to-table restaurant. The Lipsey Buffalo Architecture Center Museum is scheduled to move into the complex by the end of 2018.

**10 - YEAR DEVELOPMENT TIMELINE**

**PHASE I**

- Burkemont Ave. Hotel
- SiO ridge

**PHASE II**

- Broughton Terrace
- Western Discovery Center

**PHASE III**

- Hotel Avery
- Colony Commons
VISION STATEMENT
An active adult community anchors the District’s southeastern corner adjacent to new residential development and destination retail housed in adaptively reused barn structures. Residents enjoy the historic architecture of the Colony building, the surrounding community, and the natural beauty of the site’s flourishing old-growth trees and Blue Ridge Mountain vistas. The larger District offers on-site amenities connected by a walkable greenway, as well as close proximity to local arts and cultural opportunities, extensive recreational assets, and support services that allow residents to age in place.

VALUE PROPOSITION
The property draws active seniors who seek to live in a stimulating yet small-town setting. Morganton’s extensive senior-friendly leisure activities and specialized healthcare infrastructure will entice retirees from across western North Carolina and Charlotte. Local and regional growth in the 75 years+ household demographic coupled with an undersupply of age-restricted housing with amenities tailored to the active segment of this renter population create an opening in the market for a quality development.
Morganton boasts a wide array of draws for active adults including opportunities for recreation and education. Within several miles of the campus, residents have access to golf courses, walking and birdwatching trails in the 230-acre Catawba Meadows Park, and seasonal attractions including fall foliage tours, local apple picking and the Annual Historic Morganton festival. Just three miles from the site, WPCC’s academic and continuing education courses are free of charge to seniors.

With an eclectic commercial core, two historic districts and numerous historic landmarks, downtown Morganton boasts active green spaces and year-round programming. Located only two miles from the site, the downtown is a regional draw.

Morganton also features support services that ensure that seniors can age in place in their community. The District offers first-rate access to health services including the Carolinas HealthCare System–Blue Ridge hospital, which is a 5-minute drive from the campus. Burke County is home to a cluster of healthcare services including family practice physicians, outpatient care, home health services and pharmacies, many of which are within a 15-minute drive from the campus.

Additionally, Burke County Senior Center organizes activities and programs for seniors including trainings, book clubs, creative writing groups, crafting, and recreation and travel opportunities.

Finally, Morganton’s many low- or no-cost amenities and activities and its low cost of living (compared to national averages) makes the city an attractive place to retire for those on fixed incomes.
Morganton has an undersupply of suitable housing for its growing population of seniors. Only two comparable retirement communities (excluding nursing homes and assisted living facilities) operate within a 45-minute drive of the proposed project site (see Table 1), and only three within an hour drive. Of the six age-restricted communities surveyed in the Burke County Housing Needs Assessment, all are 100% occupied, with five properties operating wait lists of up to one year. Furthermore, only 9.5% of apartment rentals in Burke County are age-restricted, despite the fact that adults over the age of 55 will represent 54% of the county’s households by 2022. Yet, Morganton’s amenities are uniquely suited to the lifestyle of active seniors and have the potential to draw retired persons to the city if appropriate housing is available.

Population trends and projections also suggest that the number of seniors 75+ within a 45-minute drive-time radius of the District will have grown by 30% from 2010 to 2022 (see Graph 2, below), driving up local demand for senior living units. This trend is present at the state level, as well, which will put pressure on the existing supply of senior housing statewide. Given the projected number of households aged 75+ with annual incomes above $50,000 and the stock of competing senior living facilities within 45 minutes of the site, an estimated 226 – 316 additional units of senior housing will be supported by the market over the next five years (see Table 2, below) – well within the project’s proposed scope.

**CASE STUDY**

**GALLOWAY RIDGE AT FEARRINGTON VILLAGE**

- **Location:** Chatham County, NC
- **Population:** 69,000
- **Program:** 183 independent living units, 49 cottages, 22 assisted living units and 16 skill nursing beds within a mixed-use artisan retail village
- **Completion Date:** 2005
- **Former Land Use:** Dairy Farm
- **Overview:** Galloway Ridge is a continuing care retirement community situated within the Fearrington Village, a mixed-use community occupying former agricultural land. Galloway Ridge offers on-site amenities including a theater, library, salon and a fitness center. Yet, the Fearrington Village also offers nearby boutique shopping, farm-to-table eateries and a charming, rustic atmosphere that stems from the preservation of the village’s historic agricultural features.

### Financial Performance Assumptions and Return Projections

1. Western Piedmont Community College website.
3. Burke County Senior Center Newsletter — January/February 2018.
5. Burke County Preliminary Housing Needs Assessment.
6. ESRI Business Analyst Online Age 50+ Profile; Burke County Preliminary Housing Needs Assessment.
7. ESRI Business Analyst Online Age 50+ Profile.
VISION STATEMENT

The refurbished Colony building houses a charming boutique hotel in the southeastern corner of the Broughton District, adjacent to a thriving mixed-use community with single-family residential and adaptive commercial development just a short walk away. Visitors enjoy the site’s historic architecture, striking natural beauty of the District's old-growth trees and rolling hills, and views of the Blue Ridge Mountains while taking advantage of both on-site amenities and nearby recreational draws.

VALUE PROPOSITION

The full-service boutique hotel draws visitors from across the southeast who seek upscale accommodations and a unique experience: a historic building in a bucolic setting with superior access to Morganton’s nearby attractions, and corporate or educational events. The boutique hotel includes on-site amenities that meet the needs of its diverse patronage, including meeting space and dining options, which sets the property apart from “flag” hotels in the Hickory-Lenoir-Morganton metro market that demonstrates steady growth in occupancy and average daily rates with little new supply.
The Hotel Colony is a 120-key hotel anchored between the historic Colony Building and Abattoir. Located behind and flanking the Colony Building, two newly constructed 3-story hotel blocks provide modern interior environments to guests with pastoral views across the District.

Hotel check-in and amenities are housed in the Colony Building, which is connected to the guest room buildings through a first-floor glass walkway into the main lobby of the Colony Building. The Colony Building also provides the concierge, gift shop, breakfast room, and the white tablecloth Colony Grill, a farm-to-table fine dining restaurant. Exterior porches provide patrons with seasonal idyllic views of the rolling hills below. Historic interior finishes are showcased throughout the Colony Building, including pressed tin ceilings, plaster walls, refinished historic wood plank floors, wood wainscoting, and fluted columns. Large double-hung historic wood windows and high ceilings provide ample daylight throughout all of the spaces, while an open-air porch and balcony on the front of the building welcomes guests weary from travel. A paved walking path passes the swimming pool and lush Event Lawn, connecting the hotel blocks to the historic brick and concrete Abattoir Building, where residents can exercise in a state of the art fitness center, or relax in the Colony Spa, a compact facility offering steam room, sauna, and massages by appointment.

Morganton is one of the most convenient destinations from Charlotte that provides access to the recreational amenities of western North Carolina, including the Blue Ridge Mountains, Pisgah National Forest, Linville Gorge and Lake James State Park, which attract visitors from North Carolina and surrounding southeastern states.7 Last year, the Blue Ridge Parkway alone generated nearly 16.1 million visitors, 152,000 overnight stays, and 50,000 overnight stays in hotels.8

Burke County has experienced the second largest growth in tourism economic impact and visitor spending in the state in recent years, behind only Buncombe County. Burke County hosts numerous recreational and cultural opportunities such as: the Annual Historic Morganton Festival, which draws 40,000 attendees; the Red, White and Bluegrass Festival, drawing 1,000-3,000 attendees; and popular fall foliage tours in October that are correlated with markedly lower vacancy rates and higher revenue per available room (RevPAR) than the annual average for comparable hotel projects.6

The City’s Parks and Recreation Department oversees extensive recreational facilities that draw regional and statewide visitors including nine baseball and softball fields at Catawba Meadows Park and over four miles of paved trails on the Morganton Greenway System. The local Catawba River Soccer Complex is currently being expanded to attract soccer tournaments that could generate overnight stays in Morganton.7

Morganton is also home to several educational institutions that account for over 7,000 students. These institutions will draw families for weekend visits and graduation ceremonies each year.8 Additionally, Downtown Morganton, only 1.5 miles from the site, is served by several craft breweries and wineries, as well as an abundance of shops and restaurants that provide a charming small-town feel that makes Morganton an ideal vacation spot in western North Carolina.
Morganton’s numerous area draws result in strong and growing demand for hospitality space, which is demonstrated through growth in comparable projects’ occupancy (see graph 1, below), average daily rate (see Graph 2, below), and revenue per available room (RevPAR). A slight dip in percent occupancy in 2015 reflects the addition of 113 rooms to the upscale market with the opening of the Hilton Garden Inn in Hickory in December 2014. However, overall occupancy actually increased in this time period.3

Despite the growth in profitability of hospitality space, the supply of hotel rooms in Morganton and Hickory has been relatively stable over the past several years, growing by only 7% since 2012. There has been no new construction of comparable hospitality offerings in Morganton since February 1999. However, this is not due to lack of demand for upscale accommodations or hospitality space more generally. In fact, there is evidence of increasing pressure on the supply in the market. The only comparable upscale establishment in Morganton, the Hampton Inn, refurbished its location in 2018. Furthermore, there is evidence to suggest that a current shortage of lodging options is masking additional unmet demand. Western Piedmont Community College leadership notes that demand for 2-to-3-day continuing education courses cannot be met due to inadequate accommodations for such events.10 Similarly, in 2015, the North Carolina Main Street Conference drew enough attendees to overwhelm the supply of hospitality space in Morganton, and drive conference-goers to private residences, and nearby hospitality offerings in Catawba and McDowell Counties.

As demand for lodging grows and current stock ages, there will be opportunities to develop new hospitality offerings that capture the market for upscale accommodations and amenity space that capitalize on the business and leisure draws to the region. The recent ground-breaking of an 85-key Fairfield Inn & Suites in downtown Morganton is one example of new product that targets this underserved segment.

**CASE STUDY**

**BLACKBERRY FARM**

- Location: Walland, TN
- Population: 200
- Program: 68 upscale accommodations
- Completion Date: 1976
- Overview: Blackberry Farm offers high-end rooms, suites and cottages on a resort adjacent to the scenic Great Smoky Mountains. Blackberry Farm offers nationally-renowned restaurants, locally-made artisan crafts as well as luxury amenities, including a spa and wellness center, a craft brewery, and a rustic picnic shelter that doubles as a performance venue and events space. Single family homes have been recently developed surrounding the farm.

HOTEL COLONY
**VISION STATEMENT**
An active adult community anchors the District’s northeastern corner alongside the Western North Carolina Discovery Center and a successful restaurant. Residents enjoy the historic architecture of the campus and the surrounding community, as well as the natural beauty of the site’s flourishing old-growth trees and Blue Ridge Mountain vistas. The Avery Commons offers on-site amenities connected by a walkable greenway, as well as close proximity to local arts and cultural opportunities, extensive recreational assets, and support services that allow residents to age in place.

**VALUE PROPOSITION**
The property draws active seniors who seek to live in a stimulating yet small-town setting. Morganton’s extensive senior-friendly leisure activities and specialized healthcare infrastructure will entice retirees from across western North Carolina and Charlotte. Local and regional growth in the 75 years+ household demographic coupled with an undersupply of age-restricted housing with amenities tailored to the active segment of this renter population create a opening in the market for a quality development.
Avery Commons apartments offer a blend of refined historic finishes and warm modern materials. Rooms are bright and airy with tall historic plaster ceilings, bathed in natural light from tall arch-topped window openings sculpted into historic masonry and plaster walls. Floors are a blend of historic caramel pebble terrazzo and modern warm accent carpeting. Kitchens and baths feature clean modern fixtures, appliances, and cabinetry, solid surface counter tops, with tile and glass bath surrounds. Public spaces and corridors are generous in width and ceiling height, with fine plaster walls and terrazzo floors. Sunny reading nooks and sitting areas in the building’s projections are regularly spaced along the corridors, naturally lit with large window openings. A bevy of in-building community amenities are available to residents, all within a 2-3 minute walk within the historic building, including:

- library,
- movie theater,
- laundromat,
- woodworking shop,
- art studio and classrooms,
- full-service dining room,
- pub and coffee shop,
- billiard room,
- fitness center,
- salon / barber shop, and
- outdoor pool.

The property is connected via walkways to a commercial, farm-to-table restaurant and event space in the historic Marsh building, the Discovery Center—a family-friendly destination for all ages—the Silo Ridge village, and additional outdoor recreation on the District greenways and parks.
Western NC Discovery Center

The State’s Department of Natural and Cultural Resources would create a regional Discovery Center museum for the western portion of the state. This ‘Discovery Center’ will focus on the cultural and natural history Western North Carolina as well as showcase regional fine arts, and learning labs designed as immersive educational environments around natural sciences, history and outdoor learning.

The museum buildings will be connected via a plaza that integrates hardscaping and outdoor educational spaces that complement the private uses of Avery Commons. A 30,000 SF privately developed commercial structure is proposed in this phase that will serve as the gateway piece into the museum and Avery Commons.

Morganton boasts a wide array of draws for active adults including opportunities for recreation and education. Within several miles of the campus, residents have access to golf courses, walking and birdwatching trails in the 230-acre Catawba Meadows Park, and seasonal attractions including fall foliage tours, local apple picking and the Annual Historic Morganton festival. Just three miles from the site, WPCC’s academic and continuing education courses are free of charge to seniors.\(^1\) With an eclectic commercial core, two historic districts and numerous historic landmarks, downtown Morganton boasts active green spaces and year-round programming. Located only 1.5 miles from the site, the downtown is a regional draw.

Morganton also features support services that ensure that seniors can age in place in their community. The District offers first-rate access to health services including the Carolinas HealthCare System—Blue Ridge hospital, which is a 5-minute drive from the campus. Burke County is home to a cluster of healthcare services including family practice physicians, outpatient care, home health services and pharmacies, many of which are within a 15-minute drive from the campus.\(^2\) Additionally, Burke County Senior Center organizes activities and programs for seniors including trainings, book clubs, creative writing groups, crafting, and recreation and travel opportunities.\(^3\)

Finally, Morganton’s many low- or no-cost amenities and activities and its low cost of living (compared to national averages)\(^4\) makes the city an attractive place to retire for those on fixed incomes.
Morganton has an undersupply of suitable housing for its growing population of seniors. Only two comparable retirement communities (excluding nursing homes and assisted living facilities) operate within a 45-minute drive of the proposed project site (see Table 1), and only three within an hour drive. Of the six age-restricted communities surveyed in the Burke County Housing Needs Assessment, all are 100% occupied, with five properties operating wait lists of up to one year. Furthermore, only 9.5% of apartment rentals in Burke County are age-restricted, despite the fact that adults over the age of 55 will represent 54% of the county's households by 2022. Yet, Morganton's amenities are uniquely suited to the lifestyle of active seniors and have the potential to draw retired persons to the city if appropriate housing is available.

Population trends and projections also suggest that the number of seniors 75+ within a 45-minute drive-time radius of the District will have grown by 30% from 2010 to 2022 (see Graph 2, below), driving up local demand for senior living units. This trend is present at the state level, as well, which will put pressure on the existing supply of senior housing statewide. Given the projected number of households aged 75+ with annual incomes above $50,000 and the stock of competing senior living facilities within 45 minutes of the site, an estimated 226 – 316 additional units of senior housing will be supported by the market over the next five years (see Table 2, below) – well within the project’s proposed scope.

**CASE STUDY**

**CORDIA AT GRAND TRAVERSE COMMONS**

- Location: Traverse City, Michigan
- Population: 15,000
- Program: 110 senior units incorporated into a 750,000 sq. ft mixed-use center that includes 41,000 sq. ft. of ground floor marketplace, and over 100,000 sq. ft. of commercial and residential space.
- Completion Date: 2014
- Former Land Use: Northern Michigan Asylum
- Overview: Formerly a Kirkbride-style asylum, Grand Traverse Commons is now a mixed-use home to residential, commercial, and office spaces including the Cordia active adult community. Cordia residences preserve the original architectural details of the iconic building, including large windows, cathedral ceilings and exposed brick walls. The community offers an amenity rich environment for active seniors including a courtyard, lounge, pub, movie theatre, salon and spa, woodworking studio, and fine dining options.
