PROXIMATE CAUSE—PECULIAR SUSCEPTIBILITY.
GENERAL CIVIL VOLUME
MARCH 2017

102.20 PROXIMATE CAUSE—PECULIAR SUSCEPTIBILITY.

In deciding whether the [injury¹ to the plaintiff] [death of the decedent] was a reasonably foreseeable consequence of the defendant's negligence, you must determine whether such negligent conduct, under the same or similar circumstances, could reasonably have been expected to [injure] [cause the death of] a person of ordinary [physical] [mental] condition.² If so, the harmful consequences resulting from the defendant's negligence would be reasonably foreseeable and, therefore, would be a proximate cause of the [plaintiff's injury] [decedent's death]. If not, the harmful consequences resulting from the defendant's negligence would not be reasonably foreseeable and, therefore, would not be a proximate cause of the [plaintiff's injury] [decedent's death].

([Use when prior knowledge of susceptibility to injury is at issue.]

Furthermore, even if a person of ordinary [physical] [mental] condition would not be reasonably expected to [be injured] [die], you must determine whether the defendant had knowledge or a reason to know of the plaintiff's peculiar or abnormal [physical] [mental] condition.³ If so, the harmful consequences resulting from the defendant's negligence would be reasonably foreseeable and, therefore, would be a proximate cause of the [plaintiff's injury] [decedent's death]. Under such circumstance(s), the defendant would be liable for all the harmful consequences which occur, even though these harmful consequences may be unusually extensive because of the peculiar or abnormal [physical] [mental] condition which [happens] [happened] to be present in the [plaintiff] [decedent].

On the other hand, if you determine that the defendant did not have knowledge or a reason to know of the plaintiff's peculiar or abnormal [physical] [mental] condition, the harmful consequences resulting from the

defendant's negligence would not be reasonably foreseeable and, therefore, would not be a proximate cause of the [plaintiff's injury] [decedent's death].)

1 "Injury" includes all legally recognized forms of personal harm, including activation or reactivation of a disease or aggravation of an existing condition.

3 The Court of Appeals described the impact of prior knowledge of susceptibility on the foreseeability standard as follows:

Negligence is the failure to use due care under the circumstances. One of the circumstances in a particular case might be the known susceptibility to injury of a person to whom the duty of due care is owed. Obviously, in the exercise of due care one may not act toward a frail old lady in the same way one could act toward a robust young man. The duty owed, to exercise due care, is the same in each instance, but in fulfilling that duty the difference in circumstances requires a difference in conduct by the actor.

Hinson, 25 N.C. App. at 574, 214 S.E. 2d at 200. In such cases, the following supplement to the above charge may be used: "A negligent person is held responsible for knowing of the peculiar condition when, under the circumstances, he should have known or anticipated it."
